DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Raritan Bay and Sandy Hook Bay, New Jersey Feasibility Report for Hurricane and Storm Damage Reduction Union Beach, New Jersey Final Feasibility Report

AGENCY: Department of the Army, U.S.
Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of
Engineers, New York District (District),
is preparing a Supplemental
Environmental Impact Statement (SEIS)
to ascertain compliance with applicable
Federal and State environmental laws
for the authorized Raritan Bay and
Sandy Hook Bay, New Jersey Feasibility
Report for Hurricane and Storm Damage
Reduction Union Beach, New Jersey
Final Feasibility Report. The study area
occupies an approximate 1.8 square
mile area of land along the coast of
Raritan Bay in the Borough of Union
Beach, Monmouth County, New Jersey.
The project was authorized for
construction in the Water Resources
Development Act of 2007 (Pub. L. 110-
114) on November 8, 2007 but has yet
to be constructed. An EIS for the
authorized project was finalized in

September 2003. This SEIS will identify
any changes in the potential social,
economic, cultural, and environmental
affects through the implementation of
the authorized plan since the EIS was
published.

Engineers, New York District, Planning
Division, Environmental Analysis
Branch, 26 Federal Plaza, Room 2151,

SUPPLEMENTARY INFORMATION:

1. The area is located in low elevation
regions with numerous small creeks
providing drainage. Low-lying
residential and commercial structures in
the area experience flooding caused by
coastal storm inundation. This problem
has progressively worsened in recent
years due to loss of protective beaches
and increased urbanization in the area
with structures susceptible to flooding
from rainfall and coastal storm surges,
erosion and wave attack, combined with
restrictions to channel flow in the tidal
creeks. This area was devastated by
Hurricane Sandy in October 2012. A
NJDEP Community Affairs Report
described 1,096 houses and 84 rentals
with minor damage, 136 houses and 107
rentals with major damage, and 194
houses and 88 rentals with severe
damage in Union Beach as a result of
Hurricane Sandy.

2. The authorized plan recommends
the implementation of a storm damage
reduction project consisting of a
combination of levee, floodwalls, tide
gates, pump stations, a dune, and a
beach berm with terminal groins. The
project would also construct wetland
habitat to mitigate for the loss of
wetlands due to the implementation of
the recommended plan.

3. The SEIS is will evaluate any
changes in the project that may be
necessary due to changes in regulations
or existing conditions, including natural
resources and the affects of hurricane
Sandy. In one such proposed change the
original authorized plans included the
use of I-walls, which will need to be
replaced per USACE Engineering
Technical Letter (ETL) 1110-2-575,
Engineering Design Evaluation of I-
walls. The replacement for I-walls may
have a larger footprint, potentially
impacting more resources.

4. It is anticipated that a Draft SEIS
will be made available for public review
in May 2014. Anyone with comments as
to the scope of the SEIS or information
that should be included in such

assessment should provide this in
writing to Mr. Voisine (see **ADDRESSES**).

5. Individuals interested in obtaining
a copy of the Draft SEIS for review
should contact Matthew Voisine (see
ADDRESSES).

6. All federal agencies interested in
participating as a Cooperating Agency
are requested to submit a letter of intent
to COL Paul E. Owen, District Engineer,
U.S. Army Corps of Engineers, 26
Federal Plaza, Room 2109, New York,
NY 10278-0090.

Dated: November 21, 2013.

Frank Santomauro,

Chief, Planning Division.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 13346-003]

PayneBridge, LLC; Notice of Availability of Environmental Assessment

In accordance with the National
Environmental Policy Act of 1969 and
the Federal Energy Regulatory
Commission's (Commission or FERC's)
regulations, 18 Code of Federal
Regulations (CFR) Part 380 (Order No.
486, 52 **Federal Register** 47,897), the
Office of Energy Projects has reviewed
PayneBridge, LLC's application for an
original license to construct and operate
the Williams Dam Water Power Project.
The proposed 4.0-megawatt project
would be located on the East Fork White
River in Lawrence County, Indiana, near
the town of Williams, at an existing dam
owned and operated by the Indiana
Department of Natural Resources. The
project does not occupy any federal
land.

Staff prepared an environmental
assessment (EA), which analyzes the
potential environmental effects of
licensing the project and concludes that
licensing the project, with appropriate
protective measures, would not
constitute a major federal action
significantly affecting the quality of the
human environment.

A copy of the EA is available for
review at the Commission in the Public
Reference Room or may be viewed on
the Commission's Web site at
www.ferc.gov using the "eLibrary" link.
