### Department of the Army; Corps of Engineers

#### Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Raritan Bay and Sandy Hook Bay, New Jersey Feasibility Report for Hurricane and Storm Damage Reduction Union Beach, New Jersey Final Feasibility Report

**AGENCY:** Department of the Army, U.S.  
Army Corps of Engineers, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** The U.S. Army Corps of  
Engineers, New York District (District),  
is preparing a Supplemental  
Environmental Impact Statement (SEIS)  
to ascertain compliance with applicable  
Federal and State environmental laws  
for the authorized Raritan Bay and  
Sandy Hook Bay, New Jersey Feasibility  
Report for Hurricane and Storm Damage  
Reduction Union Beach, New Jersey  
Final Feasibility Report. The study area  
occupies an approximate 1.8 square  
mile area of land along the coast of  
Raritan Bay in the Borough of Union  
Beach, Monmouth County, New Jersey.  
The project was authorized for  
construction in the Water Resources  
Development Act of 2007 (Pub. L. 110-  
114) on November 8, 2007 but has yet  
to be constructed. An EIS for the  
authorized project was finalized in

September 2003. This SEIS will identify  
any changes in the potential social,  
economic, cultural, and environmental  
affects through the implementation of  
the authorized plan since the EIS was  
published.

**ADDRESSES:** U.S. Army Corps of  
Engineers, New York District, Planning  
Division, Environmental Analysis  
Branch, 26 Federal Plaza, Room 2151,  
New York, NY 10278-0090.

#### SUPPLEMENTARY INFORMATION:

1. The area is located in low elevation  
regions with numerous small creeks  
providing drainage. Low-lying  
residential and commercial structures in  
the area experience flooding caused by  
coastal storm inundation. This problem  
has progressively worsened in recent  
years due to loss of protective beaches  
and increased urbanization in the area  
with structures susceptible to flooding  
from rainfall and coastal storm surges,  
erosion and wave attack, combined with  
restrictions to channel flow in the tidal  
creeks. This area was devastated by  
Hurricane Sandy in October 2012. A  
NJDEP Community Affairs Report  
described 1,096 houses and 84 rentals  
with minor damage, 136 houses and 107  
rentals with major damage, and 194  
houses and 88 rentals with severe  
damage in Union Beach as a result of  
Hurricane Sandy.

2. The authorized plan recommends  
the implementation of a storm damage  
reduction project consisting of a  
combination of levee, floodwalls, tide  
gates, pump stations, a dune, and a  
beach berm with terminal groins. The  
project would also construct wetland  
habitat to mitigate for the loss of  
wetlands due to the implementation of  
the recommended plan.

3. The SEIS is will evaluate any  
changes in the project that may be  
necessary due to changes in regulations  
or existing conditions, including natural  
resources and the affects of hurricane  
Sandy. In one such proposed change the  
original authorized plans included the  
use of I-walls, which will need to be  
replaced per USACE Engineering  
Technical Letter (ETL) 1110-2-575,  
Engineering Design Evaluation of I-  
walls. The replacement for I-walls may  
have a larger footprint, potentially  
impacting more resources.

4. It is anticipated that a Draft SEIS is  
will be made available for public review  
in May 2014. Anyone with comments as  
to the scope of the SEIS or information  
that should be included in such

assessment should provide this in  
writing to Mr. Voisine (see **ADDRESSES**).

5. Individuals interested in obtaining  
a copy of the Draft SEIS for review  
should contact Matthew Voisine (see  
**ADDRESSES**).

6. All federal agencies interested in  
participating as a Cooperating Agency  
are requested to submit a letter of intent  
to COL Paul E. Owen, District Engineer,  
U.S. Army Corps of Engineers, 26  
Federal Plaza, Room 2109, New York,  
NY 10278-0090.

Dated: November 21, 2013.

### Federal Energy Regulatory Commission

[Project No. 13346-003]

#### PayneBridge, LLC; Notice of Availability of Environmental Assessment

In accordance with the National  
Environmental Policy Act of 1969 and  
the Federal Energy Regulatory  
Commission's (Commission or FERC's)  
regulations, 18 Code of Federal  
Regulations (CFR) Part 380 (Order No.  
486, 52 **Federal Register** 47,897), the  
Office of Energy Projects has reviewed  
PayneBridge, LLC's application for an  
original license to construct and operate  
the Williams Dam Water Power Project.  
The proposed 4.0-megawatt project  
would be located on the East Fork White  
River in Lawrence County, Indiana, near  
the town of Williams, at an existing dam  
owned and operated by the Indiana  
Department of Natural Resources. The  
project does not occupy any federal  
land.

Staff prepared an environmental  
assessment (EA), which analyzes the  
potential environmental effects of  
licensing the project and concludes that  
licensing the project, with appropriate  
protective measures, would not  
constitute a major federal action  
significantly affecting the quality of the  
human environment.

A copy of the EA is available for  
review at the Commission in the Public  
Reference Room or may be viewed on
