**Federal Acquisition Regulation;
Federal Contracting Programs for
Minority-Owned and Other Small
Businesses**

AGENCIES: Department of Defense (DoD),
General Services Administration (GSA),
and National Aeronautics and Space
Administration (NASA).

ACTION: Final rule.

SUMMARY: DoD, GSA, and NASA are
issuing a final rule amending the
Federal Acquisition Regulation (FAR) to
remove certain coverage involving
procurements with small disadvantaged
business (SDB) concerns and certain
institutions of higher education that is
based on authority which has expired
and been found to be unconstitutional
by the Court of Appeals for the Federal
Circuit. These changes harmonize the
FAR with current statutory authorities.

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA published a
proposed rule in the **Federal Register** at
76 FR 55849 on September 9, 2011, to
remove certain procurement
mechanisms authorized by section 1207
of the National Defense Authorization
Act for Fiscal Year (FY) 1987, Public
Law 99–661, (10 U.S.C. 2323) from the
FAR. The basis for this action is the U.S.
Court of Appeals for the Federal
Circuit’s ruling on November 4, 2008,
which found the current 10 U.S.C. 2323
to be unconstitutional. *Rothe
Development Corp. v. U.S. Department
of Defense, et al*, 545 F.3d 1023 (Fed.
Cir. 2008) (*Rothe*). On February 27,
2009, the United States District Court,
Western District of Texas, San Antonio
(the Court), pursuant to instructions

from the U.S. Court of Appeals for the
Federal Circuit, declared the current 10
U.S.C. 2323 unconstitutional and
enjoined its further application in DoD,
U.S. Coast Guard, and NASA
procurements. *Rothe Development Corp.
v. U.S. Department of Defense, SA–98–
CV–1011–XR* (W.D. TX), 606 F.Supp.2d
648 (W.D.Tex., 2009).

The Court’s injunction, coupled with
the expiration of the law on September
30, 2009, necessitates the removal of all
language in the FAR deriving its
authority solely from 10 U.S.C. 2323.
This includes FAR subpart 19.11, Price
Evaluation Adjustment for Small
Disadvantaged Business Concerns, and
FAR subpart 19.12, Small
Disadvantaged Business Participation
Program. However, the other policies,
practices, and programs that agencies
have been relying on to encourage SDB
participation in the Federal marketplace
since the Court of Appeals decision in
Rothe remain in full effect, including
the Government-wide goal of awarding
not less than five percent of Federal
contracting dollars to SDBs for both
prime and subcontract awards, as
required by section 15(g) of the Small
Business Act, Public Law 85–536, as
amended, (15 U.S.C. 644(g)).

In addition, section 8(d)(4)(E) of the
Small Business Act (15 U.S.C.
637(d)(4)(E)) authorizes Federal
agencies to provide incentives for
encouraging prime contractors to
subcontract with any type of small
business, which includes SDBs,
qualified Historically Underutilized
Business Zone (HUBZone) small
businesses, veteran-owned small
businesses, service-disabled veteran-
owned small businesses (SDVOSBs),
and women-owned small businesses
(WOSBs). To mirror the statutory
authority’s coverage of all small
businesses, the FAR’s coverage allowing
monetary incentives for businesses
subcontracting with SDBs (currently in
FAR 19.1203) has been incorporated
into the overall incentive subcontracting
program at FAR subpart 19.7. This
provision, along with the accompanying
FAR clause 52.219–10, Incentive
Subcontracting Program (authorized to
be included in Federal solicitations and
contracts that require subcontracting
plans), provide guidance for the use of
incentives to encourage prime
contractors to expand their
subcontracting opportunities with all
small businesses, including SDBs.

The procurement mechanism found
in FAR 19.1202, which allows an SDB
to receive credit as an evaluation factor
or subfactor during source selection for
its status as an SDB when competing for
a prime contract, is deleted in its

entirety as its authority derived solely
from 10 U.S.C. 2323. However, there is
nothing in this final rule that precludes
an agency from using evaluation factors
and subfactors for subcontracting. Small
Business Administration’s (SBA)
regulations (13 CFR 125.3(g)) allow the
use of small business as an evaluation
factor or subfactor for an offeror’s
proposed approach to subcontracting
with any small businesses, including
SDBs, WOSBs, HUBZone small
businesses, and SDVOSBs. As part of a
recently opened FAR case 2014–003,
Small Business Subcontracting
Improvements, to implement sections
1321 and 1322 of the Small Business
Jobs Act, including SBA’s regulations
relating to these sections, the Civilian
Agency Acquisition Council and the
Defense Acquisition Regulations
Council (the Councils) are conferring
with SBA to consider if it would be
helpful to develop guidance in the FAR
regarding the use of such source
selection factors and subfactors.

To clarify the purpose and intent of
this FAR change, Office of Federal
Procurement Policy (OFPP) held
outreach sessions with internal and
external stakeholders of the small
disadvantaged business community to
discuss concerns, dispel misconceptions
about the rule, clarify the basis of the
change, and restate available programs
and existing obligations under the Small
Business Act.

II. Discussion and Analysis

The Councils reviewed the comments
in the development of the final rule. A
discussion of the comments and the
changes made to the rule as a result of
those comments are provided as
follows:

A. Summary of Significant Changes

The changes made to the proposed
rule reflected in the final rule are
summarized as follows:

- The definition of a “small
disadvantaged business concern” at
FAR 2.101(b)(2), 52.219–1(a), and
52.219–8(a), has been clarified, and
added to 52.212–3(a);
- The definition of “historically black
college or university” at FAR 2.101 and
52.226–2 has been amended to delete
the inclusion of nonprofit research
institutions that were an integral part of
such a college or university before
November 14, 1986, from the definition.
- FAR 19.000(a)(8), which was
inadvertently omitted in the proposed
rule, has been partially reinstated;
- FAR 19.304 and 19.305 have been
revised to ensure the guidance is
aligned with the subject matter of these
sections;

- FAR 19.1307(d) and FAR 52.219–4(b)(3) have been removed;
- The definitions included at FAR 52.219–1(c), and 52.219–8(c) were moved to 52.219–1(a) and 52.219–8(a), respectively;
- FAR 52.219–9(l)(2)(iii) and its Alternate III (l)(2)(iii) Requirement for the Year-End Supplementary Report for Small Disadvantaged Businesses, have been removed; and
- The Standard Form 294, Subcontracting Report for Individual Contracts, has been revised. Prime contractors under DoD and the U.S. Coast Guard contracts will no longer count subcontract awards to Historically Black Colleges and Universities and Minority Institutions towards their small disadvantaged business goal. Only NASA, pursuant to its unique statutory authority at 51 U.S.C. 30304, will continue to credit Historically Black Colleges and Universities and Minority Institutions subcontracting data as part of its small disadvantaged business goal.
- FAR 53.302–312, Optional Form 312, Small Disadvantaged Business (SDB) Participation Report, has been removed.

B. Analysis of Public Comments

1. General Support for the Proposed Rule

a. Fully Supports the Rule

Comment: One respondent expressed support for the rule, noting that the proposed amendments reflect policy changes Federal agencies have already put into effect pursuant to the Court's decision in *Rothe*. The respondent also pointed out that the proposed rule does not affect the Government-wide five percent SDB goal for prime contracts and subcontracts mandated by section 15(g) of the Small Business Act.

Response: The Councils acknowledged receipt of this comment.

b. Support for All SDBs

Comment: One respondent specifically acknowledged the impact the Federal Government has in promoting SDBs. Though it is understood that removing the SDB price adjustment has little practical effect on SDBs, the respondent urged the Government to support all SDBs as they grow their businesses. Further, the respondent reminded the Councils of the unique relationship between the United States and its indigenous people and asked that the trust responsibility for Native Americans and the government-to-government relationship continue to be honored.

Response: The Councils acknowledged receipt of this comment.

2. Removal of Barriers to SDB Participation in Federal Procurement

Comment: While recognizing that the Court's decision in *Rothe* may necessitate some changes to the FAR, many respondents stated that minority contracting programs that assist SDBs and women-owned businesses are entirely constitutional and should be maintained. They stated that minority contracting programs serve to remedy historical patterns of discrimination in Federal procurement and are narrowly tailored to serve this purpose. The respondents noted that despite concerted efforts to address procurement disparities for SDBs, minority, and women-owned businesses by the Federal Government, discrimination persists in Federal procurement and, therefore, they asked the Councils to take into consideration the compelling interest of contracting preferences.

Response: This rule is limited only to contracting programs that were authorized solely by 10 U.S.C. 2323. Programs created to assist businesses owned by socially and economically disadvantaged individuals that were not based solely on this legal authority are unaffected by this rule. For instance, section 8(a) of the Small Business Act (Pub. L. 85–536, as amended, (15 U.S.C. 637(a)), otherwise known as the “8(a) Program” is a tool used to assist socially and economically disadvantaged businesses to develop their company's ability to compete for Federal contracting opportunities. The 8(a) Program is, and continues to be, successful in assisting small businesses as well as a means for Federal agencies to achieve the statutory goal for prime contract awards to SDBs.

3. Concerns Related to Rule

a. Ability To Achieve the Five Percent Goal

Comment: Several respondents, who thought that the rule removes the five percent statutory goal for contracting with SDBs, expressed concern that the rule will likely end programs that are beneficial to disadvantaged businesses, and potentially place all small business programs in jeopardy by removing agency accountability.

Response: The final rule does not, in any way, alter the Governmentwide goal of participation by SDBs of not less than five percent of the total value of all prime contract and subcontract awards each fiscal year. In addition, the policies, practices, and programs that agencies have been relying on since the Court of Appeals decision in *Rothe* and the expiration of the statute to achieve

SDB participation, including contracting officers' authority to continue making set-aside awards to SDBs who are participants in SBA's 8(a) business development program, remain in full effect. Agencies have successfully used these authorities to provide meaningful opportunities for SDBs.

b. Retention of Price Evaluation Adjustment Authority

Comment: A number of respondents expressed concern regarding the removal of FAR subpart 19.11, which gave DoD, the United States Coast Guard (USCG), and NASA the authority to apply the Price Evaluation Adjustment (PEA). The respondents stated that doing so will deny SDBs the maximum, practicable opportunity to be considered for Federal contract awards. Further, the respondents pointed out that because the PEA had not been used in a decade was no justification to delete it.

Response: Section 801 of the National Defense Authorization Act for FY 1999, (Pub. L. 105–261) amended 10 U.S.C. 2323 by mandating that the Secretary of Defense suspend the PEA if DoD achieved the five percent SDB goal in the previous fiscal year. DoD has met or exceeded the five percent SDB goal since FY 2001; therefore, in accordance with the mandate, DoD suspended the use of the PEA.

In addition, the Court's decision in *Rothe*, coupled with the subsequent expiration of 10 U.S.C. 2323 on September 30, 2009, requires the permanent removal of the statutory basis for the PEA for DoD, USCG, and NASA.

c. Retention of SDB Subcontracting Incentive

Comment: Some respondents expressed concern regarding the removal of the incentive subcontracting program for SDB concerns. One respondent remarked that the preamble of the **Federal Register** notice indicates that FAR 19.1203, “Incentive subcontracting with small disadvantaged business concerns” has been retained but moved to FAR subpart 19.7; however, the list of proposed amendments indicates that FAR subpart 19.12 has been deleted with no corresponding amendments to FAR subpart 19.7. Since *Rothe* did not nullify the basis for FAR subpart 19.12, FAR subpart 19.12 should not be removed unless, and until, an amendment to FAR subpart 19.7 implementing the suggested realignment has been executed.

Response: The authority to use monetary incentives to increase subcontracting opportunities for SDBs

remains in the FAR; however, it was relocated to FAR subpart 19.7. The clause at 52.219–10 has also been amended accordingly. By doing so, the SDB incentive provisions are now aligned with other subcontracting incentives authorized under section 8(d)(4)(E) of the Small Business Act, as amended, (15 U.S.C. 637(d)(4)(E)).

d. Removal of SDB Evaluation Factors and Subfactors

Comment: Some respondents expressed concern regarding the removal of FAR 19.1202, which established a requirement for contracting officers to use an evaluation factor or subfactor to assess the participation of SDB concerns during contract performance when formulating the contract award decision. The respondents stated that the proposed FAR changes would have a negative impact on SDBs seeking prime contract awards, foster an environment that discourages business relationships between large prime contractors and SDBs, and further weaken SDBs' ability to compete for Federal contracts.

Response: It is necessary to remove FAR subpart 19.12 to accommodate the Court's decision in *Rothe* and the fact that the underlying statutory authority for the specific procurement mechanisms in FAR subpart 19.12 has expired. However, there is nothing in this rulemaking that precludes an agency from using evaluation factors and subfactors during source selection to ascertain the commitment of the offeror to the small business community, to include SDBs.

4. Focus of the Rule

a. Other Socioeconomic Programs

Comment: A few respondents noted that the proposed revisions to the FAR were written to address only section 1207. Some of these respondents argued that the issues addressed in *Rothe* also make the SBA 8(a) and 8(d) programs indefensible. In addition, they argued that *Rothe* challenges the constitutionality of setting aside contracts under the AbilityOne and Randolph Sheppard programs and to concerns owned by Alaska Native Corporations. These respondents concluded that the FAR rule needs to address these issues.

Response: The Court's decision in *Rothe* was specifically limited to the constitutionality of section 1207 of the National Defense Authorization Act for FY 1987. The Court's decision did not address the merits of other statutorily-mandated programs. Sections 8(a) and 8(d) of the Small Business Act, as well

as the AbilityOne and Randolph Sheppard programs, are not within the purview of 10 U.S.C. 2323 and, therefore, are not the subject matter of this rule.

b. Disparity Studies

Comment: One respondent suggested that the Administration should address historical and present discrimination in Federal contracting practices by conducting the disparate impact studies referenced in the court decision *Adarand Constructors, Inc. v. Pena*, Secretary of Transportation, et al. The respondent recommended that any remedies the Administration implements should be based on the result of those studies.

Response: The comment is addressed to constitutionality standards; however, the scope of this rule is limited to harmonizing the FAR with current statutory authority.

5. Impact of the Rule on Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs)

Comment: A few respondents expressed concern regarding the impact of a Defense Federal Acquisition Regulations Supplement (DFARS) deviation regarding HBCUs and MIs. The respondents stated the changes will eliminate small disadvantaged business credits for prime contractors who subcontract with HBCUs and MIs. This in turn could reduce the incentives for prime contractors to award subcontracts to HBCUs and MIs. The respondents cautioned that DoD must ensure that the proposed rule does not inadvertently impede its current efforts to implement 10 U.S.C. 2362 objectives (e.g., engage prime contractors and small businesses in partnership with HBCUs and MIs as a way of increasing the schools' research, development, test, and engineering involvement).

Response: This rule implements changes needed to conform the FAR to the Court's decision in *Rothe* and the expiration of 10 U.S.C. 2323. The issues raised by these respondents involve statutes that are external to the *Rothe* decision and address DFARS regulations rather than the FAR and, therefore, are outside the scope of this rule.

6. Technical Clarifications

Comment: One respondent noticed a number of technical errors in the rule: (1) The respondent questioned the requirement at FAR 12.303(b)(1), which requires the contracting officer to use a continuation sheet to provide the incentive subcontracting percentage in Block 10 of the Standard Form (SF)

1449, "Solicitation/Contract/Order For Commercial Items." The respondent stated this requirement was unnecessary since the contracting officer is already required to provide the same information when using FAR 52.219–10; (2) The respondent noticed that paragraph (a)(8) was inadvertently omitted when the paragraphs in the Scope section of part 19 were renumbered; and (3) The respondent commented that the clarification at 19.1307(d) and 52.219–4(b)(3) was unnecessary and potentially confusing. The respondent recommended either deleting the paragraphs entirely, or including a clearer explanation of the mechanics of the historically underutilized business zone (HUBZone) price evaluation preference.

Response: (1) The guidance at FAR 12.303(b)(1) must remain. FAR 52.219–10 can be incorporated into solicitations and contracts by reference, in which case the contracting officer must use the SF 1449 in order to provide the subcontracting incentive percentage.

(2) FAR 19.000 Scope, paragraph (a)(8) has not been removed but instead modified to remove the reference to the PEA for small disadvantaged businesses.

(3) FAR 19.1307(d) and FAR 52.219–4(b)(3) have been deleted. FAR 19.1307(d) and the clause at 52.219–4(b)(3) were originally used to clarify that an offeror could receive both the HUBZone price evaluation preference and the SDB PEA, if eligible, under the same solicitation. However, the removal of the SDB PEA renders this guidance unnecessary.

(4) FAR 53.302–312, Optional Form 312, Small Disadvantaged Business (SDB) Participation Report, has been removed.

(5) Standard Form 294, Subcontracting Report for Individual Contracts, has been revised to remove the HBCU/MI subcontracting data collection requirement for DoD and USCG since the collection of this data resided in 10 U.S.C. 2323. However, under a separate law, 51 U.S.C. 30304, NASA is still required to collect HBCU/MI subcontracting data. The revised form reflects this distinction.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs

and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD, GSA, and NASA have prepared a Final Regulatory Flexibility Analysis (FRFA) consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* The FRFA is summarized as follows:

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 76 FR 55849 on September 9, 2011, to remove certain procurement mechanisms authorized by section 1207 of the National Defense Authorization Act for Fiscal Year (FY) 1987, Pub. L. 99-661, (10 U.S.C. 2323) from the Federal Acquisition Regulation (FAR). The basis for this action is the U.S. Court of Appeals for the Federal Circuit's ruling on November 4, 2008, which found the current 10 U.S.C. 2323 to be unconstitutional. On February 27, 2009, the United States District Court, Western District of Texas, San Antonio (the Court), pursuant to instructions from the U.S. Court of Appeals for the Federal Circuit, declared the current 10 U.S.C. 2323 unconstitutional and enjoined its further application in DoD, U.S. Coast Guard, and NASA procurements.

As a result of the District Court's injunction of 10 U.S.C. 2323, and the subsequent expiration of the law on September 30, 2009, there no longer is a statutory basis for a unique DoD, USCG, and NASA Small Disadvantaged Business Participation Program.

The final rule amends the FAR to remove language based on the expired statutory authority at 10 U.S.C. 2323.

This rule will apply to SDBs seeking to obtain prime contracts with the Federal Government and subcontracts with the Federal prime contractors. There are approximately 24,490 SDBs currently listed in the Central Contractor Registration that could potentially be affected.

Although there were no significant issues raised by the public regarding the Initial Regulatory Flexibility Analysis, several respondents commented that the removal of FAR subparts 19.11 and 19.12 would deny small disadvantaged businesses the maximum, practicable opportunity to be considered for Federal contract awards. The final rule reiterates that contracting programs authorized by 10 U.S.C. 2323 were found unconstitutional, and the statute expired September 30, 2009. Therefore, the FAR must be amended to reflect the current statutory environment. These amendments are expected to have negligible effect on SDBs as the price evaluation adjustment at issue has not been used for approximately a decade.

The rule imposes no new reporting or recordkeeping requirements for any small business or small entity. Pursuant with this final rule, Federal agencies will no longer be

authorized to apply certain procurement mechanisms (FAR subparts 19.11 and 19.12) that had offered a benefit for SDB prime awards.

Interested parties may obtain a copy of the FRFA from the Regulatory Secretariat. The Regulatory Secretariat has submitted a copy of the FRFA to the Chief Counsel for Advocacy of the Small Business Administration.

V. Paperwork Reduction Act

The final rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35). The rule removes FAR coverage at FAR subparts 19.11 and 19.12, and the corresponding clauses at FAR 52.219-22, Small Disadvantaged Business Status, FAR 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns, FAR 52.219-24, Small Disadvantaged Business Participation Program-Targets, FAR 52.219-25, Small Disadvantaged Business Participation Program-Disadvantaged Status and Reporting, and FAR 52.219-26, Small Disadvantaged Business Participation Program-Incentive Subcontracting. This rule also removes the Optional Form 312, Small Disadvantaged Business (SDB) Participation Report. With these changes, the information collection associated with this rule under OMB Control number 9000-0150 will be removed, reducing the information collection burden imposed by the Federal Government on the public by 15,000 burden hours.

This rule will also change the information collection methodology for subcontracting. As a result, the information collection burden imposed by the Federal Government on the public by the Federal Government associated with OMB Control numbers 9000-0006 and 9000-0007 will be reduced by approximately 741,903 and 178,402 hours respectively.

No action is required to remove any hours related to the data collection requirement for the Year End Supplementary Report for Small Disadvantaged Businesses identified at FAR 52.219-9(l)(2)(iii) and Alternate III of the same clause, since these reporting requirements are not associated with any current OMB information collection clearances.

GENERAL INSTRUCTIONS

1. This report is not required for small businesses.
2. This report is not required for commercial items for which a commercial plan has been approved, nor from large businesses in the Department of Defense (DOD) Test Program for Negotiation of Comprehensive Subcontracting plans. The Summary Subcontract Report (SSR) is required for contractors operating under one of these two conditions and should be submitted to the Government in accordance with the instructions on that form.
3. This form collects subcontract award data from prime contractors/subcontractors that : (a) hold one or more contracts over \$650,000 (over \$1,500,000 for construction of a public facility); and (b) are required to report subcontracts awarded to Small Business (SB), Small Disadvantaged Business (SDB), Women-Owned Small Business (WOSB), HUBZone Small Business (HUBZone SB), Veteran-Owned Small Business (VOSB) and Service-Disabled Veteran-Owned Small Business concerns under a subcontracting plan. For the National Aeronautics and Space Administration (NASA), this form also collects subcontract award data for Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs).
4. This report is required for each contract containing a subcontracting plan and must be submitted to the administrative contracting officer (ACO) or contracting officer if no ACO is assigned, semi-annually, during contract performance for the periods ended March 31st and September 30th. A separate report is required for each contract at contract completion. Reports are due 30 days after the close of each reporting period unless otherwise directed by the contracting officer. Reports are required when due, regardless of whether there has been any subcontracting activity since the inception of the contract or since the previous report.
5. Only subcontracts involving performance in the United States or its outlying areas should be included in this report with the exception of subcontracts under a contract awarded by the State Department or any other agency that has statutory or regulatory authority to require subcontracting plans for subcontracts performed outside the United States and its outlying areas.
6. Purchases from a corporation, company, or subdivision that is an affiliate of the prime/subcontractor are not included in this report.
7. Subcontract award data reported on this form by prime contractors/subcontractors shall be limited to awards made to their immediate subcontractors. Credit cannot be taken for awards made to lower tier subcontractors unless you have been designated to receive an SB and SDB credit from an Alaska Native Corporation (ANC) or Indian tribe.
8. FAR 19.703 sets forth the eligibility requirements for participating in the subcontracting program.
9. Actual achievements must be reported on the same basis as the goals set forth in the contract. For example, if goals in the plan do not include indirect and overhead items, the achievements shown on this report should not include them either.

SPECIFIC INSTRUCTIONS

BLOCK 2: For the Contractor Identification Number, enter the nine-digit Data Universal Numbering System (DUNS) number that identifies the specific contractor establishment. If there is no DUNS number available that identifies the exact name and address entered in Block 1, contact Dun and Bradstreet Information Services at 1-866-705-5711 or via the Internet at <http://www.dnb.com>. The contractor should be prepared to provide the following information: (i) Company legal business name. (ii) Tradestyle, doing business, or other name by which your entity is commonly recognized. (iii) Company physical street address, city, state and ZIP Code. (iv) Company mailing address, city, state and ZIP Code (if separate from physical). (v) Company telephone number. (vi) Date the company was started. (vii) Number of employees at your location. (viii) Chief executive officer/key manager. (ix) Line of business (industry). (x) Company Headquarters name and address (reporting relationship within your entity).

BLOCK 4: Check only one. Note that all subcontract award data reported on this form represents activity since the inception of the contract through the date indicated on this block.

BLOCK 5: Check whether this report is a "Regular," "Final," and/or "Revised" report. A "Final" report should be checked only if the contractor has completed the contract or subcontract reported in Block 7. A "Revised" report is a change to a report previously submitted for the same period.

BLOCK 6: Identify the department or agency administering the majority of subcontracting plans.

BLOCK 7: Indicate whether the reporting contractor is submitting this report as a prime contractor or subcontractor and the prime contract or subcontract number.

BLOCK 8: Enter the name and address of the Federal department or agency awarding the contract or the prime contractor awarding the subcontract.

BLOCK 9: Check the appropriate block to indicate whether indirect costs are included in the dollar amounts in blocks 10a through 16. To ensure comparability between the goal and actual columns, the contractor may include indirect costs in the actual column only if the subcontracting plan included indirect costs in the goal.

BLOCKS 10a through 18: Under "Current Goal," enter the dollar and percent goals in each category (SB, SDB, WOSB, VOSB, service-disabled VOSB, and HUBZone SB) from the subcontracting plan approved for this contract. (If the original goals agreed upon at contract award have been revised as a result of contract modifications, enter the original goals in Block 19. The amounts entered in Blocks 10a through 16 should reflect the revised goals.) There are no goals for Blocks 17 and 18. Under "Actual Cumulative," enter actual subcontract achievements (dollars and percent) from the inception of the contract through the date of the report shown in Block 4. In cases where indirect costs are included, the amounts should include both direct awards and an appropriate prorated portion of indirect awards. However, the dollar amounts reported under "Actual Cumulative" must be for the same period of time as the dollar amounts shown under "Current Goal." For a contract with options, the current goal should represent the aggregate goal since the inception of the contract. For example, if the contractor is submitting the report during Option 2 of a multiple year contract, the current goal would be the cumulative goal for the base period plus the goal for Option 1 and the goal for Option 2.

BLOCK 10a: Report all subcontracts awarded to SBs including subcontracts to SDBs, WOSB, VOSB, service-disabled VOSB, and HUBZone SBs. For NASA contracts only, include subcontracting awards to HBCUs and MIs. Include subcontracts awarded to ANCs and Indian tribes that are not small businesses and that are not certified by the SBA as SDBs where you have been designated to receive their SB and SDB credit. Where your company and other companies have been designated by an ANC or Indian tribe to receive SB and SDB credit for a subcontract awarded to the ANC or Indian tribe, report only the portion of the total amount of the subcontract that has been designated to your company.

BLOCK 10b: Report all subcontracts awarded to large businesses (LBs) and any other-than-small businesses. Do not include subcontracts awarded to ANCs and Indian tribes that have been reported in 10a above.

BLOCK 10c: Report on this line the total of all subcontracts awarded under this contract (the sum of lines 10a and 10b).

BLOCKS 11 - 16: Each of these items is a subcategory of Block 10a. Note that in some cases the same dollars may be reported in more than one block (e.g., SDBs owned by women or veterans).

BLOCK 11: Report all subcontracts awarded to SDBs (including WOSB, VOSB, service-disabled VOSBs, and HUBZone SB SDBs). Include subcontracts awarded to ANCs and Indian tribes that have not been certified by SBA as SDBs where you have been designated to receive their SDB credit. Where your company and other companies have been designated by an ANC or Indian tribe to receive their SDB credit for a subcontract awarded to the ANC or Indian tribe, report only the portion of the total amount of the subcontract that has been designated to your company. For NASA contracts only, include subcontracting awards to HBCUs and MIs.

BLOCK 12: Report all subcontracts awarded to WOSBs (including SDBs, VOSBs (including service-disabled VOSBs), and HUBZone SBs that are also WOSBs).

BLOCK 13: Report all subcontracts awarded to HUBZone SBs (including WOSBs, VOSBs (including service-disabled VOSBs), and SDBs that are also HUBZone SBs).

BLOCK 14: Report all subcontracts awarded to VOSBs including service-disabled VOSBs (and including SDBs, WOSBs, and HUBZone SBs that are also VOSBs).

BLOCK 15: Report all subcontracts awarded to service-disabled VOSBs (including SDBs, WOSBs, and HUBZone SBs that are also service-disabled VOSBs).

BLOCK 16: (For contracts with NASA): Report all subcontracts with HBCUs/MIs. Complete the column under "Current Goal" only when the subcontracting plan establishes a goal.

BLOCK 17: Report all subcontracts awarded to ANCs and Indian tribes that are reported in Block 11, but have not been certified by SBA as SDBs.

BLOCK 18: Report all subcontracts awarded to ANCs and Indian tribes that are reported in Block 10a, but are not small businesses.

BLOCK 19: Enter a short narrative explanation if (a) SB, SDB, WOSB, VOSB, service-disabled VOSB, or HUBZone SB accomplishments fall below that which would be expected using a straight-line projection of goals through the period of contract performance; or (b) if this is a final report, any one of the six goals were not met.

DEFINITIONS

1. Direct Subcontract Awards are those that are identified with the performance of one or more specific Government contract(s).

2. Indirect costs are those which, because of incurrence for common or joint purposes, are not identified with specific Government contracts; these awards are related to Government contract performance but remain for allocation after direct awards have been determined and identified to specific Government contracts.
