[Docket No. RM98-1-000]

Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file

associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Abstract: These standards apply to each municipal waste combustor (MWC) unit with a capacity greater than 250 tons per day of municipal solid waste which commenced construction, modification or reconstruction after December 20, 1989. MWCs are required to keep records and periodically report their compliance status. Information required by the NSPS is necessary to ensure that emission standards are attained and that MWC's are properly operated and maintained.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of municipal waste combustor units.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subparts Ea and Eb).

Estimated number of respondents: 13 (total).

Frequency of response: Initially, quarterly, semiannually, and annually.

Total estimated burden: 20,272 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,897,888 (per year), includes \$136,636 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 149 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. These changes are due to the following adjustments: (1) The number of sources subject to each Subpart was

revised to reflect more recent information obtained through the Agency's research within the MWC sector; (2) the number of sources required to submit initial notification and site analysis was corrected to reflect this activity as a burden only for new sources, rather than for existing sources; (3) several mathematical errors in calculating burden costs were corrected; and (4) all estimates were updated using more recent labor rates.

Courtney Kerwin,

Acting Director, Collection Strategies Division.
