

order, the LDEQ issued a response to EPA's title V order (2011 LDEQ Response). The 2012 Petition requests that the Administrator object to the 2009 Permit on the general basis that "(the) LDEQ has not shown the facility's emissions will not trigger Prevention of Significant Deterioration (PSD) requirements." More specifically, the 2012 Petition contends that the netting analysis LDEQ conducted for the BenFree Unit project and used to determine that the project did not trigger PSD review was incomplete because it only included emissions from normal operations to the North Flare. The 2012 Petition states that the netting analysis calculations "should have included emergency emissions" unless such emissions are subject to "legally and practicably enforceable limits." The 2012 Petition also contends that LDEQ failed to issue a revised permit that satisfies the EPA's objections in the 2011 Order. The Order issued on May 29, 2015 responds to the 2012 Petition and explains the basis for EPA's decisions.

### III. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. EPA will provide a 180-day comment period on the proposed requests. Thereafter, the EPA Administrator may approve such a request.

### IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

### V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of

the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2016. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

**Authority:** 7 U.S.C. 136 *et seq.*
