

Agency's functions, including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an extension of its current approval of the information collection requirements for this Standard. The Agency is requesting an adjustment decrease in the current burden hours from 222,924 hours to 201,853 hours, a total decrease of 21,071 hours. While better burden hour and costs estimates for the Safety and Health Achievement Recognition Program (SHARP) documentation increased the burden hours, this was offset by a decrease in the number of consultation visits.

Type of Review: Extension of a currently approved collection.

Title: On-site Consultation Programs (29 CFR part 1908).

OMB Number: 1218-0110.

Affected Public: Business or other for-profits.

Number of Respondents: 24,700.

Frequency: Initial, annual, quarterly, periodic.

Average Time per Response: Varies from 3 minutes for an employer or plant manager to sign a Safety and Health Achievement Recognition Program application to 32 hours for an On-site Consultation Program manager to submit an agreement once per year.

Estimated Total Burden Hours: 201,853.

Estimated Cost (Operation and Maintenance): \$0.

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44

U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. 4. *The form number if applicable:* NRC Form 396.

5. *How often the collection is required:* Upon application for an initial or upgrade license; every 6 years for the renewal of an operator or senior operator license, and notices of disability that occur during licensed tenure.

The information is used to determine whether the physical condition and general health of applicants for operator licenses and licensed operators are such that the applicant/operator would not be expected to cause operational errors endangering public health and safety.
