DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 14628-000]

Minneapolis Leased Housing Associates IV, Limited Partnership; Notice of Draft License Application and Draft Preliminary Draft Environmental Assessment and Request for Preliminary Terms and Conditions

Take notice that the following Draft License Application (DLA) and draft Preliminary Draft Environmental Assessment (PDEA) have been filed with the Commission and are available for public inspection.

a. *Type of Application:* Original Minor.

b. *Project No.:* 14628-000.

c. *Date Filed:* January 8, 2015.

d. *Applicant:* Minnesota Leased Housing Associates IV, Limited Partnership (Minnesota Housing Associates).

e. *Name of Project:* A-Mill Artists Loft Hydroelectric Project.

f. *Location:* On the Mississippi River, in the city of Minneapolis, Hennepin County, Minnesota. No federal lands are occupied by the project works or located within the project boundary.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Owen Metz, 2905 Northwest Blvd., Suite 150, Plymouth, MN 55441; (763) 354-5618; email ometz@dominiuminc.com.

i. *FERC Contact:* Janet Hutzel at (202) 502-8675; or email at janet.hutzel@ferc.gov.

j. *Status of Project:* With this notice the Commission is soliciting (1) preliminary terms, conditions, and recommendations on the draft PDEA, and (2) comments on the DLA.

k. *Deadline for filing:* 30 days from the issuance of this notice.

All comments on the draft PDEA and DLA should be sent to the addresses

noted above in Item (h), and filed with FERC.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-1462-000.

All comments must bear the heading Preliminary Comments, Preliminary Recommendations, Preliminary Terms and Conditions, or Preliminary Prescriptions.

1. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Minnesota Housing Associates has mailed a copy of the Preliminary DEA and Draft License Application to interested entities and parties. Copies of these documents are available for review at <http://amillartistloftshydroproject.com> and the Minneapolis Central Library, 300 Nicollet Mall, Minneapolis, MN.

m. With this notice, we are initiating consultation with the Minnesota State Historic Preservation Officer (SHPO), as required by section 106, National Historic Preservation Act, and the regulations of the Advisory Council on Historic Preservation, 36 CFR 800.4.

Dated: January 21, 2015.

Kimberly D. Bose,
Secretary.

[Docket No. PF15-1-000]

PennEast Pipeline Company, LLC; Notice of Extension of Comment Period and Clarification of Location of Public Scoping Meetings for the Penneast Pipeline Project

On January 13, 2015, the Federal Energy Regulatory Commission (FERC or Commission) issued a *Notice of Intent to Prepare an Environmental Impact Statement for the Planned PennEast Pipeline Project, Requests for Comments on Environmental Issues, and Notice of Public Scoping Meetings*. The notice solicited comments on the potential environmental impacts of the planned project and announced the time and location of five public scoping meetings being held for the environmental proceeding. The close of the public comment period in that notice is listed as February 12, 2015.

Due to a limited printing delay in the mailing of the notice, we are extending the comment period. Please note that the scoping period will now close on February 27, 2015.

In addition to extending the scoping period, the Commission staff has provided further clarification on its scoping meeting locations. The table below now lists the name of the building or hall at each meeting location. Please note that signage will be placed upon the entry of the meeting venues for your assistance.

Date and time	Location
January 27, 2015, 6:00 p.m. Eastern Time.	College of New Jersey, Kendall Hall, Performance Theater, 2000 Pennington Road, Ewing, NJ 08628.
January 28, 2015, 6:00 p.m. Eastern Time.	Bucks County Community College, Kevin and Sima Zlock Performing Arts Center, Gateway Auditorium, 275 Swamp Road, Newtown, PA 18940.
February 10, 2015, 6:00 p.m. Eastern Time.	Northampton Community College, Main Campus, Kopecek Hall, Lipkin Theater, 3835 Green Pond Rd, Bethlehem, PA 18020.
February 11, 2015, 6:00 p.m. Eastern Time.	Penn's Peak, Main Concert Hall, 325 Maury Road, Jim Thorpe, PA 18229.
February 12, 2015, 6:00 p.m. Eastern Time.	Best Western Hotel & Conference Center, Empress Ballroom, 77 E Market Street, Wilkes-Barre, PA.

Dated: January 21, 2015.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF15-2-000]

Venture Global Calcasieu Pass, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Calcasieu Pass Project, and Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Calcasieu Pass Project involving construction and operation of LNG export facilities by Venture Global Calcasieu Pass, LLC (Venture Global) in Cameron Parish, Louisiana. The Commission will use this EIS in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. Please note that the scoping period will close on February 19, 2015.

You may submit comments in written form or verbally. Further details on how to submit written comments are in the Public Participation section of this notice. If you sent comments on this project to the Commission before the opening of this docket on October 10, 2014, you will need to file those comments in Docket No. PF15-2-000 to ensure they are considered as part of this proceeding. In lieu of or in addition to sending written comments, the Commission invites you to attend the public scoping meeting scheduled as follows: FERC Public Scoping Meeting, Calcasieu Pass Project, February 5, 2015/7-9 p.m. CST, Cameron Parish School Board Educational Conference Center, 510 Marshall Street, Cameron, LA 70631.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned

project and encourage them to comment on their areas of concern.

The purpose of this scoping meeting is to provide the public an opportunity to learn more about the Commission's environmental review process, and to verbally comment on the project. The scoping meeting will start at 6:00 p.m. and representatives from Venture Global will be present one hour prior to the start of the meeting to answer questions about the project. Additionally, Venture Global has established an Internet Web site at www.venturegloballng.com that will be updated as the environmental review of its project proceeds.

Affected landowners and interested groups and individuals are encouraged to attend the scoping meetings and present comments on the issues they believe should be addressed in the EIS. A transcript of the meeting will be added to the Commission's administrative record to ensure that your comments are accurately recorded.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Venture Global plans to construct and operate an LNG export facility in Cameron Parish, Louisiana adjacent to the Calcasieu Ship Channel. The facility would receive natural gas from North American sources and would liquefy and store it for export. When constructed, the project could process about 487.2 billion cubic feet per year (Bcf/yr) of natural gas.

The Calcasieu Pass project would consist of the following facilities:

- Ten (10) liquefaction blocks;

- two (2) LNG storage tanks, each with approximately 200,000 cubic meter ("m³") storage capacity;

- two (2) marine berthing docks, to accommodate LNG carriers ranging from 120,000 m³ to 185,000 m³ of carrying capacity;

- a temporary floating LNG storage vessel berthed at one of the LNG berthing docks, which would be discontinued after the first permanent LNG storage tank becomes operational;

- a turning basin on the Calcasieu Ship Channel;

- a utility dock;

- a gas-fired electric generation facility with generating capacity of approximately 600 megawatts ("MW") that will be constructed to provide power for the project facilities;

- two natural gas pipelines to connect to existing transmission pipelines, a 23.8-mile-long, 42-inch-diameter pipeline and a 42-inch-diameter, 18.5-mile-long pipeline;

- a Gas Gate Station to receive gas from the two lateral pipelines and will include pig¹ receivers, filter/separators, custody transfer meters, pressure regulators, emergency shutdown valves, and gas analyzers;

- various buildings, including administration, control rooms, electrical equipment, workshop, and warehouse buildings and structures;

- connection to the existing municipal water supply for construction and potable water requirements, and the potential drilling of groundwater wells to allow for water-cooling of the power plant;

- facilities associated with the project site's communication system; and

- facilities associated with plant safety and security.

The general location of the project facilities is shown in Appendix 1.²

Land Requirements for Construction

Construction of the planned facilities would disturb about 914.1 acres of land for the aboveground facilities and the pipeline. Following construction, Venture Global would maintain about 347.6 acres for permanent operation of the project's facilities and pipeline.

The Terminal facilities will occupy an approximately 203.6-acre property

¹ A "pig" is a tool that the pipeline company inserts into and pushes through the pipeline for cleaning the pipeline, conducting internal inspections, or other purposes.

² The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called "eLibrary" or from the Commission's Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary, refer to the last page of this notice.
