Type of Request: Regular Submission.

Number of Respondents: 248,430.

Average Hours per Response: Based on previous experience with special censuses and the fact that the Special Census forms and procedures are very similar to (and in many cases exactly the same as) those used in the 2010 Decennial Census, we estimate burden hours as shown below. Please note that the burden hours in the **Federal Register** notice published on September 2, 2015 in pages 53102 and 53103 are incorrect due to a calculation error. The burden hours below are the correct burden hours for special census respondents.

SC-1 or, Special Census Enumerator Questionnaire.

SC-1 (Phone/WYC)—248,430 respondents × 10 min. = 41,405 hours.

SC-1(SUPP), Continuation Questionnaire—10,000 respondents × 1.75 min. = 292 hour.

SC-2, Individual Census Report—8,333 respondents × 5 min. = 695 hours.

SC-3(RI), Enumeration Reinterview Questionnaire—55,000 respondents × 7 min. = 6,417 hours.

SC-116, Group Quarters Enumeration Control Sheet—42 respondents × 10 min. = 7 hours.

SC-117, Transitory Location Enumeration Record—42 respondents × 10 min. = 7 hours.

SC-351, Initial Contact Checklist (Group Quarters)—42 respondents × 10 min. = 7 hours.

SC-920, Address Listing Page—200,000 respondents × 1 min. = 3,334 hours.

SC-921(HU), Housing Unit Add Page—50,000 respondents × 1 min. = 834 hours.

SC-921(GQ), Group Quarters/Transitory Unit Add Page.

SC-921(TU)—13 respondents × 1 min. = .22 hour.

Estimated total annual burden = 52,998 hours.

Burden Hours: 52,998.

Needs and Uses: Local jurisdictions determine the need for and uses of their special census data. Some governmental units request a special census for proper infrastructure planning and others make a request because they must have the updated data to qualify for some sources of funding. Local governmental units use special census data to apply for available funds from both the state and Federal governments. Many states distribute these funds based on Census Bureau population statistics. This fact, along with local population shifts or annexations of territory, prompts local officials to request special censuses. In addition, special census data are used by the local jurisdictions to plan new schools, transportation systems, housing programs, water treatment facilities, etc.

The Census Bureau also uses special census data as part of its local population estimates calculation and to update the Census Bureau's Master Address File (MAF) and Topographically Integrated Geographic Encoding and Referencing (TIGER) System.

Information quality is an integral part of the pre-dissemination review of the information disseminated by the Census Bureau (fully described in the Census Bureau's Information Quality Guidelines). Information quality is also integral to the information collections conducted by the Census Bureau and is incorporated into the clearance process required by the Paperwork Reduction Act.

Affected Public: The Census Bureau will establish a reimbursable agreement with a variety of potential special census customers that are unknown at this time. The Special Census Program will include a library of standard forms that will be used for the Special Censuses we anticipate conducting throughout this decade. While no additional documentation will be provided to OMB in advance of conducting any Special Census which utilizes the library of standard forms, any deviation from the standard forms, such as an additional question requested by a specific governmental unit, will be forwarded to OMB for approval. In addition, the Special Census program will provide OMB an annual report summarizing the activity for the year.

Frequency: One time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 196.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: November 17, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

Background

On June 23, 2015, the Department of Commerce (the "Department") initiated the countervailing duty investigations of certain corrosion-resistant steel products ("corrosion-resistant steel") from India, Italy, the People's Republic of China ("the PRC"), the Republic of Korea ("Korea"), and Taiwan.¹ Simultaneously the Department initiated antidumping duty ("AD") investigations of corrosion-resistant steel from India, Italy, the PRC, Korea, and Taiwan.² The countervailing duty ("CVD") investigations and the AD investigations cover the same class or kind of merchandise.

Alignment With AD Final Determination

On November 10, 2015, in accordance with section 705(a)(1) of the Tariff Act of 1930, as amended ("the Act"), United States Steel Corporation; Nucor Corporation; Steel Dynamics, Inc.; ArcelorMittal USA, LLC; AK Steel Corp.; and, California Steel Industries (collectively, "Petitioners") requested an alignment of the final CVD determinations with the final AD determinations of corrosion-resistant steel from India, Italy, the PRC, Korea, and Taiwan.
