SUPPLEMENTARY INFORMATION:

Background

In our April 7, 2015, proposed rule (80 FR 18710), we proposed to list the Big Sandy crayfish and the Guyandotte River crayfish as endangered species primarily due to the threats of land-disturbing activities that increase erosion and sedimentation, which degrade the stream habitat required by both species, and the effects of small population size. During the 60-day public comment period on the proposed rule, we received requests to extend the comment period beyond the June 8, 2015, closing date. For rulemaking and financial efficiency, we declined to extend the comment period at that time because we were already planning to reopen the comment period in the fall of 2015 to make available the results of rangewide surveys that would be conducted for each species in the summer of 2015. The final reports for the 2015 summer surveys are now

available on the Internet at <http://www.regulations.gov> at Docket No. FWS-R5-ES-2015-0015 and at <http://www.fws.gov/northeast/crayfish/>. These survey results and any substantive public comments about the survey results will inform our final listing decision, which we anticipate publishing on or before April 7, 2016.

For more information on previous Federal actions concerning the Big Sandy crayfish and the Guyandotte River crayfish, or information regarding the species' biology, status, distribution, and habitat, refer to the proposed rule published in the **Federal Register** on April 7, 2015 (80 FR 18710), which is available online at <http://www.regulations.gov> at Docket No. FWS-R5-ES-2015-0015 or by mail from the Northeast Regional Office (see **FOR FURTHER INFORMATION CONTACT**).

Public Comments

We will accept written comments and information during this reopened comment period on our proposal to list the Big Sandy crayfish and Guyandotte River crayfish that published in the **Federal Register** on April 7, 2015 (80 FR

18710). We will consider information and recommendations from all interested parties. We intend that any final action resulting from the proposal be as accurate as possible and based on the best available scientific and commercial data.

If you submitted comments or information on the proposed rule (80 FR 18710) during the initial comment period from April 7, 2015, to June 8, 2015, please do not resubmit them. We have incorporated them into the public record as part of the previous comment period, and we will consider them in the preparation of our final determination.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. We will post all hardcopy comments on <http://www.regulations.gov> as well. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review.

However, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as supporting documentation we used in preparing the proposed listing, will be available for public inspection on <http://www.regulations.gov> at Docket No. FWS-R5-ES-2015-0015, or by appointment, during normal business hours at the U.S. Fish and Wildlife Service, Northeast Regional Office (see **FOR FURTHER INFORMATION CONTACT**).
