advanced since these user groups were surveyed on these issues more than 25 years ago. A survey will be mailed to a sample of whitewater floaters and anglers to collect information concerning (1) trip/visit characteristics, (2) activities and (3) opinions on river management. This information collection will be used to provide empirical data that will help NPS managers and planners understand the impacts of direct recreational uses along the Colorado River.

II. Data

OMB Control Number: 1024–DREC.

Title: A Survey of Direct Recreational Uses Along The Colorado River.

Type of Request: NEW.

Affected Public: General public; individual households.

Respondent Obligation: Voluntary.

Frequency of Collection: One time.

Estimated Number of Annual Responses: 2,340.

Estimated Annual Burden Hours: 780 hours.

Estimated Annual Reporting and Recordkeeping ''Non-Hour Cost'': None.

III. Request for Comments

On August 26, 2014, we published a **Federal Register** notice (79 FR 50940) announcing that we would submit this ICR to OMB for approval. Public comments were solicited for 60 days ending October 27, 2014. We received one comment in response to that notice. The commenter suggested that this study is unnecessary because the Socio-Economic Ad Hoc Group (SEAHG) is in the process of developing a study to address the informational needs related to the Glen Canyon Dam operations and the Colorado River in the Grand Canyon. We contend that this study does not cause a conflict because the survey does not duplicate any ongoing or parallel effort but rather is intended to provide information that will be used to update a more than 25 year old study of the same resources.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

A Federal agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
