

comments, we receive, to determine whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will use the results of our internal Service consultation, in combination with the above findings, in our final analysis to determine whether to issue the permits. If the requirements are met, we will issue an ITP to the applicant for the incidental take of Mount Hermon June beetle. We will make the final permit decision no sooner than 30 days after the date of this notice.

Public Comments

If you wish to comment on the permit applications, plans, and associated documents, you may submit comments by any one of the methods in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Dated: March 29, 2016.

Stephen P. Henry,
Field Supervisor, Ventura Fish and Wildlife
Office, Ventura, California.

Proposed Amendment to the Willamette Valley Native Prairie Habitat Programmatic Safe Harbor Agreement for the Fender's Blue Butterfly in Benton, Lane, Linn, Marion, Polk, and Yamhill Counties, Oregon

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comment.

SUMMARY: The U.S. Fish and Wildlife
Service (Service) proposes to amend an
enhancement of survival (EOS) permit

issued to itself on May 26, 2009,
pursuant to the Endangered Species Act
of 1973, as amended (ESA). The EOS
permit is associated with a
programmatic Safe Harbor Agreement
(SHA) developed for the conservation of
the federally-listed endangered Fender's
blue butterfly within the Willamette
Valley in Oregon. The proposed
amendment would extend the term of
the SHA and the permit for an
additional 11 years. The amendment
includes adding Washington County,
Oregon, to the geographical area covered
by the SHA and the permit. The
amended permit would continue to
authorize the Service to extend
incidental take coverage to eligible
landowners who are willing to carry out
habitat management actions that benefit
the Fender's blue butterfly by enrolling
landowners under the SHA through
Certificates of Inclusion. We request
comments from the public on the
proposed amendment of the EOS permit
and the SHA, and a draft environmental
action statement (EAS) prepared
pursuant to the requirements of the
National Environmental Policy Act
(NEPA).

DATES: Written comments on the permit
amendment, SHA amendment, and the
EAS for the NEPA categorical exclusion
determination must be received from
interested parties no later than May 5,
2016.

ADDRESSES: To request further
information or submit written
comments, please use one of the
following methods, and note that your
information request or comments are in
reference to the Service Agreement
Amendment.

- **Internet:** Documents may be viewed

6195. If you use a telecommunications
device for the deaf, please call the
Federal Information Relay Service at
800-877-8339.

SUPPLEMENTARY INFORMATION:

Background

On May 26, 2009, the Service issued
an EOS permit to the Service's Oregon
Fish and Wildlife Office (OFWO)
pursuant to section 10(a)(1)(A) of the
ESA. The EOS permit is associated with
a programmatic SHA developed for the
conservation of the federally-listed
endangered Fender's blue butterfly
(*Icaricia icarioides fenderi*) within the
Willamette Valley in Oregon. The SHA
is administered and implemented by the
OFWO and the Service's Willamette
Valley National Wildlife Refuge
Complex (WV Refuge Complex). The
OFWO serves as the "permittee." The
WV Refuge Complex is a signatory to
the SHA and works jointly with the
OFWO on all aspects of the SHA. The
OFWO may enroll eligible interested
non-Federal landowners (cooperators)
through Certificates of Inclusion under
the SHA. The WV Refuge Complex can
also develop and administer Certificates
of Inclusion where they are involved in
activities on the cooperator's enrolled
lands as a project partner.

The geographic area covered by the
current SHA and permit includes the
originally known and potential range of
the Fender's blue butterfly, which
includes prairie habitat within Benton,
Lane, Linn, Marion, Polk, and Yamhill
counties of Oregon. Properties that are
eligible for enrollment are non-Federal
lands where the Fender's blue butterfly
occurs or could occur through
colonization, translocation, or
reintroduction. Activities under the
SHA may also benefit the federally-
listed threatened Kincaid's lupine
(*Lupinus sulphureus* ssp. *kincaidii*),
which is a larval host plant for Fender's
blue butterfly. However, Kincaid's
lupine is not included as a "covered
species."

The current term of the SHA is 15
years and expires on May 25, 2024. The
current term of the permit is 25 years
and expires on May 25, 2034. Since the
permit was issued on May 26, 2009, the
Service has enrolled a number of
eligible landowners under Certificates of
Inclusion for an average period of 10
years each.

Proposed Amendment

In order to continue issuing new 10-
year Certificates of Inclusion, the

Service needs to extend the term of the existing SHA for at least an additional 10 years. Therefore, the Service is proposing to extend the term of the SHA for an additional 11 years, from May 25, 2024 to May 25, 2035, and extend the term of the permit for an additional 11 years, from May 25, 2034 to May 25, 2045. When the Service listed the Fender's blue butterfly as endangered and Kincaid's lupine as threatened in 2000 (65 FR 3875) Washington County was not included as part of the range of either species because no previous populations had been identified in Washington County. In 2011, however, a population of Fender's blue butterfly and Kincaid's lupine was discovered on the north side of Henry Hagg Lake, on Bureau of Reclamation land, in Washington County, Oregon. The Service is, therefore, proposing to amend the existing permit and SHA to include Washington County within the geographical area covered by the SHA and the permit.

The amended permit would continue to authorize the Service to extend incidental take coverage with assurances to eligible landowners who are willing to carry out habitat management actions that would benefit the Fender's blue butterfly by enrolling the landowners under the SHA as cooperators through issuance of Certificates of Inclusion.

National Environmental Policy Act Compliance

The proposed amendment to the permit and the SHA is a Federal action that triggers the need for compliance with the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*). We have made a preliminary determination that the proposed amendments to the EOS permit and the SHA are eligible for categorical exclusion under the NEPA. The basis for our preliminary determination is contained in an Environmental Action Statement (EAS), which is available for public review (see **ADDRESSES**).

Public Comments

You may submit your comments and materials by one of the methods listed in the **ADDRESSES** section. We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on our proposed Federal action.

Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before

including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Comments and materials we receive, as well as supporting documentation, will be available for public inspection by appointment, during normal business hours, at our Oregon Fish and Wildlife Office (see **ADDRESSES**).

Next Steps

The Service will evaluate the proposed amendment to the permit and the SHA, associated documents, and comments submitted thereon to determine whether the amendment meets the requirements of section 10(a) of the ESA and the requirements of NEPA. We will not make the final NEPA and permit decisions until after the end of the 30-day public comment period on this notice, and we will fully consider all comments we receive during the public comment period. If we determine that all the requirements are met, we will sign the amended SHA and issue an amended EOS permit under section 10(a)(1)(A) of the ESA to the Service's OFWO. The OFWO will continue to serve as the permit holder, and continue to extend coverage to interested eligible landowners for the take of Fender's blue butterfly, incidental to otherwise lawful activities in accordance with the terms of the SHA, Certificates of Inclusion, and the EOS permit.

Authority

We provide this notice in accordance with the requirements of section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*), and NEPA (42 U.S.C. 4321 *et seq.*) and their implementing regulations (50 CFR 17.22 and 40 CFR 1506.6, respectively).

Rollie White,

Acting State Supervisor, Oregon Fish and Wildlife Office, Pacific Region, U.S. Fish and Wildlife Service, Portland, Oregon.

Notice of Inventory Completion: U.S. Department of Defense, Army Corps of Engineers, Omaha District, Omaha, NE., and State Archaeological Research Center, Rapid City, SD

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Army Corps of Engineers, Omaha District (Omaha District), has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the Omaha District. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the Omaha District at the address in this notice by May 5, 2016.

ADDRESSES: Ms. Sandra Barnum, U.S. Army Engineer District, Omaha, ATTN: CENWO-PM-AB, 1616 Capital Avenue, Omaha, NE 68102, telephone, (402) 995-2674, email sandra.v.barnum@usace.army.mil.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the Omaha District. The human remains and associated funerary objects were removed from site 39BF243, in Buffalo County, SD.
