SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

Title V, Subtitle A of the Gramm-Leach-Bliley Act (Act), Public Law 106–102, governs the treatment of nonpublic personal information about consumers by financial institutions. Section 502 of the Act, subject to certain exceptions, prohibits a financial institution from disclosing nonpublic personal information about a consumer to nonaffiliated third parties, unless the institution satisfies various notice and opt-out requirements, and provided the consumer has not elected to opt out of the disclosure. Section 503 of the Act requires a financial institution to provide notice of its privacy policies and practices to its customers. Section 504 of the Act granted rulemaking authority for the privacy provisions of the Act to be shared by eight Federal agencies: The Board of Governors of the Federal Reserve System (FRB), the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of the Currency (OCC), the Office of Thrift Supervision (OTS), the National Credit Union Administration (NCUA), the Federal Trade Commission (FTC), the Securities and Exchange Commission (SEC), and the Commodity Futures Trading Commission (CFTC). Each of the agencies issued rules (which were consistent and comparable) to implement the Act's privacy provisions.¹

The Dodd-Frank Wall Street Reform and Consumer Protection Act (DFA) amended a number of consumer financial protection laws, including the Act. Among other changes, the DFA transferred rulemaking authority for most of Subtitle A of Title V of the Act,

with respect to financial institutions described in section 504(a)(1)(A) of the Act, from FRB, FDIC, OCC, OTS, and NCUA to the Consumer Financial Protection Bureau (CFPB). Pursuant to the DFA and the Act, as amended, the CFPB promulgated Regulation P, 12 CFR 1016, to implement those privacy provisions of the Act for which CFPB has rulemaking authority.

Regulation P implements the requirements of the Act to provide consumers with financial institutions' privacy policies and practices, as well as describes when the consumer's information may be shared with nonaffiliated third parties, and provides a method for consumers to prevent disclosure of their information to nonaffiliated third parties by opting out of that disclosure. Regulation P details the specifics of how the Act should be implemented, which companies and situations this applies to, and the method of delivering the information to consumers.

Regulation P includes model forms that can be used to comply with the disclosure requirements of the Act and Regulation P, although the use of the model forms is not required. See Appendix to Regulation P.

The collection of information pursuant to covers the development of privacy policies by the financial institutions and the dissemination of those policies to their customers upon starting a customer relationship, annually for existing customers, and in the event of any covered changes to the privacy policy. This collection also accounts for the burden to customers who choose to exercise their opt-out rights to prevent disclosure of financial information to nonaffiliated parties.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) Whether the collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.
