

*guarantees.* An application guide may also be requested from the RUS contact listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

*Application requirements:* All requirements for submission of an application under the Broadband Program are subject to 7 CFR part 1738.

*Application Materials/Submission:* Applications must be submitted through the Agency's online application system located at <https://www.rd.usda.gov/programs-services/rd-apply>. All materials required for completing an application are included in the online system.

#### **Minimum and Maximum Loan Amounts**

Loans under this authority will not be made for less than \$100,000. The maximum loan amount that will be considered for FY 2018 is \$25,000,000.

#### **Required Definitions for Broadband Program Regulation**

The regulation for the Broadband Program requires that certain definitions affecting eligibility be revised and published from time to time by the Agency in the **Federal Register**. For the purposes of this NOSA, the Agency is revising the definitions of *Broadband Service* and *Broadband Lending Speed*.

*Broadband Service* is determined to exist if customers are able to access a minimum rate-of-data transmission of twenty-five (25) megabits downstream and three (3) megabits upstream for both mobile and fixed service. This rate is used to determine whether an area is eligible for funding.

*Broadband Lending Speed* is the minimum rate-of-data transmission that applicants must propose to offer the customer. The Broadband Lending Speed is twenty-five (25) megabits downstream and three (3) megabits upstream for both mobile and fixed service.

#### **Priority for Approving Loan Applications**

Applications for FY 2018 will be accepted from the publication date of this NOSA through September 30, 2018. Although review of applications will begin as they are submitted, all applications will be evaluated and ranked every 90 days based on the percentage of unserved households in the proposed funded service area. Subject to available funding, eligible applications that propose to serve a higher percentage of unserved households will receive funding offers before other eligible applications that propose to serve a lower percentage of unserved households. The amount

available will be published on the Agency web page once all budgetary allocations have been completed.

Loan offers are limited to the funds available at the time of the Agency's decision to approve an application.

Applications will not be accepted after September 30, 2018, until a new application opportunity has been opened with the publication of an additional NOSA in the **Federal Register**.

#### **Paperwork Reduction Act**

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements associated with Broadband loans, as covered in this NOSA, have been approved by the Office of Management and Budget (OMB) under OMB Control Number 0572-0130.

#### **USDA Non-Discrimination Statement**

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [http://www.ascr.usda.gov/complaint\\_filing\\_cust.html](http://www.ascr.usda.gov/complaint_filing_cust.html) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) *Mail:* U.S. Department of Agriculture,

Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250-9410, (2) *Fax:* (202) 690-7442; or (3) *Email:* [program.intake@usda.gov](mailto:program.intake@usda.gov).

USDA is an equal opportunity provider, employer, and lender.

Dated: March 22, 2018.

**Christopher A. McLean,**

*Acting Administrator, Rural Utilities Service.*

## **DEPARTMENT OF COMMERCE**

### **Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* American Community Survey.

*OMB Control Number:* 0607-0810.

*Form Number(s):* ACS-1, ACS-1(SP), ACS-1(PR), ACS-1(PR)SP, ACS-1(GQ), ACS-1(PR)(GQ), GQFQ, ACS CAPI (HU), ACS RI (HU), and AGQ QI, AGQ RI.

*Type of Request:* Regular Submission.

*Number of Respondents:* 3,760,000.

*Average Hours Per Response:* 40 minutes for the average household questionnaire.

*Burden Hours:* The estimate is an annual average of 2,455,868 burden hours.

*Needs and Uses:* The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) for revisions to the American Community Survey (ACS).

The American Community Survey (ACS) is one of the Department of Commerce's most valuable data products, used extensively by businesses, non-governmental organizations (NGOs), local governments, and many federal agencies. In conducting this survey, the Census Bureau's top priority is respecting the time and privacy of the people providing information while preserving its value to the public.

The Census Bureau has a robust research program for the ACS focused on enhancing quality of the respondent experience, survey operations, and data. In 2017, the Census Bureau conducted the 2017 Pressure Seal Mailing Materials Test to evaluate the impact on self-response and cost of replacing letters and postcards in the American

Community Survey (ACS) mail materials with pressure seal mailers. A pressure seal mailer is a one-page document with a pre-applied adhesive that is folded and sealed with pressure. This type of mailer costs less than a letter with an envelope and more than a postcard. However, pressure seal mailers can conceal personal information while postcards cannot. Replacing a postcard with a pressure seal mailer provides an opportunity to increase the use of the internet user ID in the text of the ACS mailings. Based on the results of this test, a pressure seal mailer will be used in place of the Reminder Letter (second mailing) and the Additional Reminder Postcard (fifth mailing). This information is new since the publication of the 60-day **Federal Register** Notice, FR-Doc. 2017–26726.

The content of the proposed 2019 ACS questionnaire and data collection instruments for both Housing Unit and Group Quarters operations reflect changes to content and instructions that were proposed primarily as a result of the 2016 ACS Content Test, but also as a result of interagency consultation. The 2019 content changes cover several topics discussed below.

#### Telephone Service

The rise of cell phone and smartphone usage, and other complex and varied telephone services and equipment, has changed how people view and use telephones in a household. Research also suggests that some respondents, or in some cases interviewers, may not fully understand the current wording of the survey question on Telephone Service, the additional instructions that accompany the question, or what the question is intending to capture. To make the intent of the telephone service question easier to understand by respondents and interviewers, the question was made a stand-alone question and additional instructions are provided on the types of telephones and equipment respondents should include when answering the question. Currently, telephone service is asked as part of a broader question on housing characteristics.

#### Health Insurance

A question on Health Insurance Premiums and Subsidies will be introduced to the ACS immediately following the current question on health insurance coverage. The question on premiums and subsidies asks if a person pays a health insurance premium, and if so, if he or she received a subsidy to help pay the premium. This question will provide more accurate information about coverage categories than available

from the existing ACS question on current coverage alone. These data will enhance the ability of the U.S. Department of Health and Human Services and the states to administer Medicaid, CHIP, and the exchanges, and monitor private insurance coverage.

In addition, one response option for the health insurance question will be changed as a result of consultation with the U.S. Department of Veterans Affairs (VA). In July 2017, the VA contacted the Census Bureau and requested a change to the VA response option on the health insurance question. The proposed change is to ensure the accuracy of the estimates of VA health insurance coverage. The VA response option for the health insurance question will be truncated from “VA (including those who have ever used or enrolled for VA health care)” to “VA (including those who have enrolled for VA health care).” This information is new since the publication of the 60-day **Federal Register** Notice, FR Doc. 2017–26726.

#### Journey to Work

Changes to the Commute Mode question were motivated by changes in public transportation infrastructure across the United States, particularly the increased prevalence of light rail systems and the need to update and clarify the terminology used to refer to commute modes that appear as categories on the ACS. To improve the Commute Mode question, some of the public transportation modes were modified. The category “Streetcar or trolley car” was changed to “Light rail, street car, or trolley,” “Subway or elevated” was changed to “Subway or Elevated Rail,” and “Railroad” was changed to “Long-distance train or commuter rail.” These three rail-related categories were also slightly reordered so that “Subway or elevated rail,” the most prevalent rail mode, is listed first. The phrase “trolley bus” was dropped and the phrase “work at home” was changed to “work from home.” The subheading of instructions was simplified to read “Mark ONE box for the method of transportation used for most of the distance.” The Time of Departure question has historically raised concerns about privacy because of the reference to the time a person leaves home. To phrase the question in a less intrusive way, the question was changed to ask what time the person’s trip to work began and to remove the word “home.”

#### Weeks Worked

The changes to the question on the number of weeks worked were made to allow the Census Bureau to provide

high-quality, continuous measures for the number of weeks worked, such as means, medians, and aggregates. In addition, the changes enable additional specificity for weeks worked, particularly with hours worked, income, and occupation. Part A of the question regarding the time period of interest was rephrased from working “50 or more weeks” to “EVERY week” and additional information is provided in the second sentence. The original instruction of “Count paid time off as work” was changed to “Count paid vacation, paid sick leave, and military service as work.” For part B of the question, the response option was changed to a write-in response, the reference period (“the PAST 12 MONTHS”) is repeated, and new guidance clarifies what to count as work.

#### Class of Worker

Changes to the Class of Worker question improve overall question clarity, refine the definition of unpaid family workers, explicitly define a category for Active Duty military, improve question wording and categories, and improve the layout of the question. Response categories were grouped under three general headings. “Active Duty” was added as one of the response categories in the government section, and the “Active Duty” checkbox was dropped from the Employer Name question. Question and response category wording were revised for clarity. To signal that all six employment characteristics questions refer to the same job (including industry and occupation), the series was renumbered from separate questions to a single series with sub-questions. Lastly, the instructional text and heading for the series immediately preceding Class of Worker was simplified.

#### Industry and Occupation

Ongoing research of the Industry and Occupation question write-in responses has demonstrated that the questions were unclear and confusing to respondents, who were unable to answer at all or answer with sufficient clarity to provide useful data. To increase clarity and improve occupational specificity, these questions were revised to include new and consistent examples, in terms of content and length, and include modified question wording. The number of characters for write-in responses about “Job Duties” was expanded from 60 to 100 characters.

## Retirement Income

Over the last 40 years, defined contribution retirement plans have become increasingly common while defined benefit plans (such as pensions) have become less so. Federal surveys have lagged in addressing these newer forms of retirement income and subsequently underreport retirement income. The Retirement, Survivor, and Disability Income question was changed to improve income reporting, increase item response rates, reduce reporting errors, and update questions on retirement income and the income generated from retirement accounts and all other assets in order to better measure retirement income data. The question was expanded to ask about “retirement income, pensions, survivor or disability income.” In addition, the instructions that accompany the question were expanded to note that income from “a previous employer or union, or any regular withdrawals or distributions from IRA, Roth IRA, 401(k), 403(b) or other accounts specifically designed for retirement” should be included.

## Relationship

For several years, the Census Bureau has been testing revised relationship questions to improve the estimates of coupled households. The 1990 Census first introduced “Unmarried partner” as a response category to the Relationship to Householder question. The 2000 and 2010 Censuses built upon this work, changing the processing of responses to the Relationship question to more accurately represent same-sex couples. The Census Bureau discovered a statistical error in the 2010 Census data that resulted from opposite-sex couples mismarking their sex. This error had the potential to inflate the estimates of same-sex, married couple households. The Census Bureau released a set of modified state-level, same-sex household estimates from the 2010 Census because of this error, and also began new research efforts to improve the Relationship question.

The Relationship question has been revised to improve measurement of same-sex couples. The existing “Husband or wife” and “Unmarried partner” response categories were each split into two versions: “Opposite-sex husband/wife/spouse,” “Opposite-sex unmarried partner,” “Same-sex husband/wife/spouse,” and “Same-sex unmarried partner.” Additionally, the two unmarried partner categories were moved from near the end of the list of response options to near the beginning, immediately after the husband/wife/

spouse options. An automated relationship/sex consistency check will be included in electronic instruments to provide respondents an opportunity to change their sex or relationship responses when there is an inconsistency in the reported sex of an individual and whether their relationship was reported as “Opposite-sex” or “Same-sex” husband/wife/spouse or unmarried partner. This check reduces the inconsistency in responses and improves the quality of the relationship data. The category “Roomer or boarder” has been dropped from the Relationship question.

## Race and Hispanic Origin

The 2016 ACS Content Test served as an operational test of the race and ethnicity questions that were previously tested on the 2015 National Content Test (NCT). Recommendations about the race and ethnicity questions adopted for the 2020 Census and production ACS were based on the results of the census tests and decisions made in consultation with OMB; the 2016 ACS Content Test provided an opportunity to test data collection modes and examine other data not available in the 2015 NCT. The 2016 ACS Content Test evaluated interviewer-administered collection modes, assessed the race and ethnicity questions against demographic and socioeconomic data, and separately compared the race and ethnicity results to data from the ancestry question. In 2020 or later, the ACS will adopt the final version of the race and Hispanic origin questions that are implemented for the 2020 Census.

*Affected Public:* Individuals or households.

*Frequency:* Response to the ACS is on a one-time basis.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13, United States Code, Sections 141, 193, and 221.

*This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov).* Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202)395-5806.

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-580-891]

### Carbon and Alloy Steel Wire Rod From the Republic of Korea: Final Affirmative Determination of Sales at Less Than Fair Value and Final Negative Determination of Critical Circumstances

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) determines that imports of carbon and alloy steel wire rod (wire rod) from the Republic of Korea (Korea) are being, or are likely to be, sold in the United States at less than fair value (LTFV). In addition, we determine that critical circumstances do not exist with respect to imports of the subject merchandise. The period of investigation (POI) is January 1, 2016, through December 31, 2016.

**DATES:** Applicable March 28, 2018.

**FOR FURTHER INFORMATION CONTACT:** Lingjun Wang, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2316.

### SUPPLEMENTARY INFORMATION:

#### Background

Commerce published the *Preliminary Determination* of sales of wire rod from Korea at LTFV in the **Federal Register** on October 31, 2017.<sup>1</sup> On November 7, 2017, Commerce postponed the final determination of this investigation.<sup>2</sup> On November 28, 2017, Commerce amended the *Preliminary Determination*.<sup>3</sup> Commerce exercised its discretion to toll deadlines affected by the closure of the Federal Government from January 20 through 22, 2018. If the new deadline falls on a non-business day, in accordance with Commerce's

<sup>1</sup> See *Carbon and Alloy Steel Wire Rod from the Republic of Korea: Preliminary Affirmative Determination of Sales at Less Than Fair Value, and Preliminary Negative Determination of Critical Circumstances*, 82 FR 50386 (October 31, 2017) (*Preliminary Determination*), and accompanying Preliminary Decision Memorandum.

<sup>2</sup> See *Carbon and Alloy Steel Wire Rod from Italy, the Republic of Korea, Spain, Turkey, and the United Kingdom: Postponement of Final Determinations of Less-Than-Fair-Value Investigation and Extension of Provisional Measures*, 82 FR 51613 (November 7, 2017).

<sup>3</sup> See *Carbon and Alloy Steel Wire Rod from the Republic of Korea: Amended Preliminary Determination of Sales at Less Than Fair Value*, 82 FR 56220 (November 28, 2017).
