A. Overview of Information Collection

Title of Information Collection: Application for Fee or Roster Personnel (Appraisers and Inspectors) Designation and Appraisal Reports.

OMB Approved Number: 2502-0538.

Type of Request: Extension.

Form Number: HUD 92563A, HUD92563I, HUD 92564-CN, Fannie Mae Forms: 1004, 1004c, 1025, 1073, 1075, 2055 and 1004MC.

Description of the need for the information and proposed use: Accurate and Thorough Appraisal reporting is critical to the accuracy of underwriting for the mortgage insurance process. The need for accuracy is increased for FHA insured mortgage since buyers tend to have more limited income and lower equity in the properties. The collection of information provides a more thorough and complete appraisal of prospective HUD-insured single-family properties ensuring that mortgages are acceptable for FHA insurance and thereby protect the interest of HUD, the taxpayers, and the FHA insurance fund. The collection allows HUD to maintain an effective appraisal program with the ability to discipline appraisers and inform potential homeowners of the benefits of purchasing an independent home inspection.

A. Overview of Information Collection

Title of Information Collection: Public Housing Agencies Service Areas Solicitation of Comments.

OMB Approval Number: 2577-New.

Type of Request: New Collection.

Form Number: Interactive Geospatial tool currently under development and will be available upon completion.

Description of the need for the information and proposed use: HUD proposes to use the following information collection methodology to gather Public Housing Agencies (PHAs) service area boundaries. An interactive geospatial tool will be provided by HUD for PHAs to access online. Through this online tool, HUD will present PHAs with estimates of their service area boundaries based on the locations of the PHA's public housing units and Housing Choice Vouchers in relation to Units of General Local Government. PHAs will be provided an opportunity to revise HUD's initial estimates using the online tool. The online, interactive tool will provide PHAs with the ability to designate boundaries that more accurately reflect their actual service areas under state and local law. PHAs will be able to do so by identifying Units of General Local Government boundaries that more closely reflect their actual service areas.

The United States Housing Act of 1937 (1937 Act) in Section 3(b)(6)

defines a Public Housing Agency, in part, as: "Except as provided in subparagraph (b), . . . any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of public housing." 42 U.S.C. 1437a. The section includes additional provisions related to PHAs operating Section 8 Housing Choice Vouchers. The 1937 Act therefore includes a reference to applicable state and local laws that PHAs operate pursuant to. HUD's regulations, at 24 CFR 982.4, defines a PHA's Jurisdiction as, "the area in which the PHA has authority under State and local law to administer the program."

HUD is proposing an information collection regarding PHAs' applicable jurisdictions, also known as service areas, in which they are authorized to operate under state and local law. Through the online tool, HUD will present PHAs with estimates of their service area boundaries, based on the locations of the PHA's public housing unit and Housing Choice Vouchers in relation to Units of General Local Government. HUD is aware that these initial estimates may not reflect the PHA's defined service area in accordance with State and local law, therefore, PHAs will be provided an opportunity to revise HUD's initial estimates using the online tool. When revising HUD's estimates, PHAs will be instructed to include in their revisions the areas in which they are authorized to operate under state and local law, not only the areas in which they currently operate. This means including areas that the PHA may have no public housing developments or HCVs, but where the PHA could operate those programs. If the PHA believes that HUD's estimate of its service area is accurate, the PHA will be asked to validate or accept HUD's estimation within the online tool.

The information collection described in this Notice will use an online electronic methodology intended to reduce administrative costs for PHAs and the federal government. The information obtained through this information collection is intended to assist in HUD program operations and in providing data to HUD's program participants, stakeholders, and the.

Collecting PHA service area boundaries in a simple electronic format will aid in the provision of data that can be used in conducting the statement of housing needs assessments as required by the PHA Annual Plan pursuant to 24 CFR 903.7. The information will be used by HUD to provide data to PHAs for use
