

standard lower than the basic range in accordance with 24 CFR 982.503(d).

Comment: The zero bedroom and one-bedroom FMRs are the same. Please verify.

HUD Response: This is correct. HUD does not allow the zero-bedroom FMR to be greater than the one-bedroom FMR, so where it would be higher, it is set at the one-bedroom FMR. Zero-bedroom units, or efficiencies, represent a much smaller segment of the rental market population than one-bedroom units and their rents may be skewed in some areas by a preponderance of the units in newer buildings and/or buildings with better amenities.

Comment: Small Area FMRs should not be required. SAFMRs will increase the complexity in administering the voucher program by increasing the number of payment schedules. Also, many ZIP Codes where voucher holders live have lower SAFMRs that will force voucher holders out of neighborhoods where they have lived their entire lives to areas away from their support groups.

HUD Response: Small Area FMRs (SAFMRs) are required in the administration of the housing choice voucher (HCV) program in a limited number of metropolitan areas where voucher holders are highly concentrated in areas of concentrated low income and where SAFMRs are likely to be an effective tool in helping HCV holders access units in higher opportunity areas.

HUD included provisions in the SAFMR rule to provide PHAs the ability to maintain payment standards at current levels for in-place tenants should the PHA choose to do so.

To assist with the administrative complexity of converting to SAFMRs, HUD has tasked a Technical Assistance provider to develop training materials and to conduct in-person trainings for all PHAs who are required to implement SAFMRs.

III. Environmental Impact

This Notice makes changes in FMRs for two FMR areas and does not constitute a development decision affecting the physical condition of specific project areas or building sites. Accordingly, under 24 CFR 50.19(c)(6), this Notice is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).

Dated: February 13, 2018.

Todd M. Richardson,

Deputy Assistant Secretary, Office of Policy Development, Office of Policy Development and Research.

The Privacy Act provides certain safeguards for an individual against an invasion of personal privacy by requiring Federal agencies to protect records in an agency system of records from unauthorized disclosure, ensure that information is current for its intended use, and that adequate safeguards are provided to prevent misuse of such information. The notice reflects the Department's focus on industry best practices in protecting the personal privacy of the individuals covered by each system notification. This notice states the name and location of the record system, the authority for and manner of its operations, the categories of individuals it covers, the records it contains, the sources of the information for those records, the routine uses made of the records, and the system of records exemption types. In addition, the notice includes the business address of the HUD officials who will inform interested persons of the procedures whereby they may gain access to and/or request amendments to records pertaining to them. The routine uses that apply to this publication are reiterated based on past publication to clearly communicate the ways in which HUD continues to conduct some of its business practices. In accordance with 5 U.S.C. 552a(e)(4) and (11), HUD has provided a report of this new system to the Office of Management and Budget (OMB), the Senate Committee on Homeland Security and Governmental Affairs, and the House Committee on Oversight and Government Reform as instructed by OMB Circular No. A-108, "Federal Agencies Responsibilities for Review, Reporting, and Publication under the Privacy Act."
