In all the other cases where a respondent believes information requires confidentiality, the respondent can request confidential treatment under Section 0.459 of the Commission's rules, 47 CFR 0.459.

Needs and Uses: The Federal Communications Commission ("Commission") is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060-0686 titled, "International Section 214 Authorization Process and Tariff Requirements—47 CFR Sections 63.10, 63.11, 63.13, 63.18, 63.19, 63.21, 63.24, 63.25 and 1.1311." The purpose of this revision is to obtain OMB approval for the reporting requirements under newly adopted 47 CFR 63.22(h), which requires facilities-based international service providers electronically to submit, and maintain, a list of routes on which they have direct termination arrangements with a foreign carrier. In addition, this list maybe used to initiate targeted data collections regarding those routes. Finally, we remove from this collection the requirements related to 47 U.S.C. 310(b) which are now included in the collection under OMB Control No. 3060-1163.

The current title of OMB Control No. 3060-0686 is "International Section 214 Process and Tariff Requirements—47 CFR Sections 63.10, 63.11, 63.13, 63.18, 63.19, 63.21, 63.24, 63.25 and 1.1311". The Commission would like to change the title to "International Section 214 Process and Tariff Requirements—47 CFR Sections 63.10, 63.11, 63.13, 63.18, 63.19, 63.21, 63.22, 63.24, 63.25 and 1.1311" to reflect the addition of 47 CFR 63.22(h) to the information collection.

The information will be used by the Commission staff in carrying out its duties under the Communications Act. The information collections pertaining to Part 63 are necessary largely to determine the qualifications of applicants to provide common carrier international telecommunications service under section 214 of the Communications Act, 47 U.S.C. 214,

including applicants that are, or are affiliated with, foreign carriers, and to determine whether and under what conditions the authorizations are in the public interest, convenience, and necessity. The information collections are also necessary to maintain effective oversight of U.S. international carriers generally.

The frequency of filing applications pursuant to Sections 214 will be determined largely by the applicant seeking to provide U.S international common carrier service under section 214 of the Communications Act, 47 U.S.C. 214. Carriers will also determine largely the frequency of filing under the other rules included in this collection, with the exception of the quarterly reports required of certain carriers under 47 CFR 63.10(c) and the list of routes for which a facilities-based international service provider must make a one-time filing and update as necessary under 47 CFR 63.22(h). If the collections are not conducted or are conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services, and the Commission will be unable to carry out its mandate under the Communications Act of 1934. In addition, without the information collections, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Telecommunications Organization (WTO) Basic Telecom Agreement because these collections are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns. Regarding 47 CFR 63.11, carriers determine largely when to notify the Commission of planned investments by or in foreign carriers. If the information is not collected by the Commission, we will not be able to prevent carriers that control bottleneck facilities in foreign countries from using those bottlenecks to discriminate against unaffiliated U.S. carriers.
