

system: (1) Temporary Account and Draft Benefit Requests; (2) Account and Case Management; and (3) Automated Background Functions. Each process was covered under a separate SORN.

DHS/USCIS-014 covered the collection, use, maintenance, and dissemination of information derived from an individual who created a temporary account so that he or she may submit an application, petition, or request through USCIS ELIS for the first time. Information collected under DHS/USCIS-014 is now covered by Department of Homeland Security/ALL-037 E-Authentication Records System of Records (DHS/ALL-037), 79 FR 46857 (August 11, 2014). DHS/ALL-037 covers the collection of information used to authenticate an individual's identity for the purpose of creating a required system credential to electronically access a DHS program or application.

DHS/USCIS-015 covered the processing and tracking of all actions related to a submitted and pending immigration request, including scheduling of biometrics appointments and interviews, requesting evidence or additional information, and issuing notices, including the final decision, as well as a proof of an approved benefit, if any. The case management, case processing, record receipt and maintenance from DHS/USCIS-015 is now covered by the Department of Homeland Security/U.S. Citizenship and Immigration Services, U.S. Immigration and Customs Enforcement, U.S. Customs and Border Protection-001 Alien File, Index, and National File Tracking System of Records (DHS/USCIS/ICE/CBP-001), 82 FR 43556 (September 18, 2017). DHS/USCIS/ICE/CBP-001 covers information relating to the adjudication of benefits, investigation of immigration violations, and enforcement actions in Alien Files (A-Files). DHS creates a file for each individual containing that individual's immigration records. The A-file may be in paper or electronic format, or a combination of both. USCIS ELIS serves as an electronic repository to store and manage electronic records.

The case management functions of DHS/USCIS-015 are also covered by Department of Homeland Security/United States Citizenship and Immigration Services-007 Benefits Information System (USCIS-007), 81 FR 72069 (October 19, 2016), which covers the collection, use, maintenance, dissemination, and storage of immigration request information, including case processing and decisional data not included in the A-File SORN. These records assist in the processing of immigration requests from

the time USCIS collects the information from the requestor until a final decision is recorded in the relevant case management system.

The initial purpose of DHS/USCIS-016 was to assist USCIS personnel in detecting duplicate and related accounts; identifying potential national security concerns, criminality, and fraud; as well as ensuring that serious or complex cases received additional scrutiny. USCIS never collected information that would be covered by DHS/USCIS-016. Instead, all information collected, maintained, used, and disseminated in support of USCIS' efforts to strengthen the integrity of the nation's legal immigration system and to ensure that immigration benefits are not granted to individuals who may pose a threat to national security and/or public safety are covered under the DHS/USCIS-006 Fraud Detection and National Security Records (FDNS), 77 FR 47411, (August 8, 2012).

As such, DHS will continue to collect and maintain records regarding immigration requests, and will rely upon the existing DHS and USCIS systems of records notices for coverage pursuant to the Privacy Act: DHS/ALL-037, 79 FR 46857 (August 11, 2014); DHS/USCIS/ICE/CBP-001, 82 FR 43556 (September 18, 2017), DHS/USCIS-006 FDNS, 77 FR 47411 (August 8, 2012), and DHS/USCIS-007, 81 FR 72069 (October 19, 2016).

Rescinding DHS/USCIS-014, DHS/USCIS-015, and DHS/USCIS-016 will have no adverse impacts on individuals, but will promote the overall streamlining and management of DHS Privacy Act record systems.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Evaluation of the Supportive Services Demonstration.

OMB Approval Number: 2528–Pending.

Type of Request: New.

Form Number: No agency forms will be used.

Description of the need for the information and proposed use: The U.S. Department of Housing and Urban Development (HUD) has contracted with Abt Associates Inc. to conduct and evaluate HUD's Supportive Services Demonstration (SSD), also referred to as Integrated Wellness in Supportive Housing (IWISH). The SSD is a three-year demonstration sponsored by HUD to test the impact of a new model of housing-based supportive services on the healthcare utilization and housing stability of low-income older adults. The goal of the SSD model is to help older adults in HUD-assisted housing to age in place successfully. The SSD model funds a full-time Resident Wellness Director (RWD) and part-time Wellness Nurse (WN) to work in HUD-assisted housing developments that either predominantly or exclusively serve households headed by people aged 62 or over. These services are not typically available in HUD-assisted housing developments for this population and are anticipated to positively impact outcomes.

Eligible HUD-assisted properties applied for the demonstration were randomly assigned to one of three groups: A “treatment group” that received grant funding to hire a RWD and WN and implement the SSD model (40 properties); an “active control” group that did not receive grant funding but received a stipend to participate in the evaluation (37 properties); and a “passive control” group that received neither grant funding nor a stipend (47 properties). The random assignment permits an evaluation that quantifies the
