The NDOT has submitted a statement in compliance with the regulations at 43 CFR 2741.4(b). The NDOT proposes to use the land as a highway maintenance station. The maintenance station will support constructing, reconstructing, improving, operating, managing, and maintaining highways and ancillary facilities. NW $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$.

The areas described aggregate 20 acres.

The lands are not needed for any Federal purposes. The BLM Carson City Field Office Consolidated Resource Management Plan, dated May 2001, addresses lease and conveyance of the lands for recreational or public purposes, and lease and conveyance of the subject lands would be in the national interest.

The BLM will provide a copy of this notice to all interested parties once the BLM publishes the Notice in the **Federal Register**. The BLM will publish a copy of the **Federal Register** Notice with information about this proposed realty action in a newspaper of local circulation once a week for three consecutive weeks. The regulations at 43 CFR Subpart 2741 addressing requirements and procedures for conveyances under the R&PP Act do not require a public meeting.

Upon publication of this notice in the **Federal Register**, this notice will segregate the lands from all other forms of appropriation under the public land laws, including locations under the mining laws, except for lease and conveyance under the R&PP Act and leasing under the mineral leasing laws.

The lease and conveyance of the land will be subject to the following terms, conditions, and reservations:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945).

2. Provisions of the R&PP Act and to all applicable regulations of the Secretary of the Interior.

3. All mineral deposits in the land so patented, and the right to prospect for, mine, and remove such deposits from the same under applicable law and regulations as established, by the Secretary of the Interior, are reserved to the United States, together with all necessary access and exit rights.

4. Valid existing rights.

5. An appropriate indemnification clause protecting the United States from claims arising out of the lessee's/ patentee's use, occupancy, or occupations on the leased/patented lands.

6. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

The NDOT has requested that the BLM allow the NDOT to relinquish the southern 20 acres of a BLM mineral material permit (NVCC 021630) that is currently sited over the proposed lease and conveyance lands.

Classification Comments: Interested persons may submit comments involving the suitability of the land for development of a highway maintenance station. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with state and Federal programs.

Application Comments: Interested persons may submit comments regarding the specific use proposed in the application and plan of development and management, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the lands for a highway maintenance station.

Before including your address, phone number, email address, or other personally identifiable information in

any comment, be aware that your entire comment including your personally identifiable information may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Any adverse comments will be reviewed by the BLM State Director or other authorized official of the Department of the Interior, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the classification will become effective on August 19, 2019. The BLM will not offer the lands for lease or conveyance until after the classification becomes effective.

Certain Electronic Nicotine Delivery Systems and Components Thereof; Commission Decision Not To Review an Initial Determination Granting a Joint, Unopposed Motion To Amend the Amended Complaint and Notice of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (“ID”) (Order No. 26) of the administrative law judge (“ALJ”) granting a joint, unopposed motion to amend the amended complaint and notice of investigation (“NOI”).

FOR FURTHER INFORMATION CONTACT: Houda Morad, Office of the General Counsel, U.S. International Trade

Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 708–4716. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2000. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: On December 13, 2018, the Commission instituted this investigation under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 (“section 337”), based on a complaint filed by Juul Labs, Inc. of San Francisco, California (“Complainant”). See 83 FR 64156–57 (Dec. 13, 2018). The complaint, as amended and supplemented, alleges a violation of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain electronic nicotine delivery systems and components thereof by reason of infringement of certain claims of U.S. Patent Nos. 10,070,669; 10,076,139; 10,045,568; 10,058,130; and 10,104,915. See *id.* The NOI names numerous respondents, including Ziiip Lab Co., Ltd. of Shenzhen City, China (“Respondent”). See *id.* The Office of Unfair Import Investigations (“OUII”) is also a party to the investigation. See *id.*

On May 9, 2019, Complainant and Respondent filed a joint motion (“Motion”) to amend the amended complaint and NOI to correct the name of Respondent from its alias “Ziiip Lab Co., Ltd.” to its legal name “SS Group Holdings.” OUII and certain respondents indicated that they do not oppose the Motion while other respondents indicated that they take no position with respect to the Motion.

On May 21, 2019, the ALJ issued the subject ID (Order No. 26) granting the Motion. The ID finds that, under Commission Rule 210.14(b), 19 CFR 210.14(b), “good cause exists to amend the amended complaint and notice of investigation to conform to the correct information.” See ID at 2. In addition, the ID finds that “this amendment

would not prejudice the public interest or the rights of the parties to the investigation.” See *id.*

No petition for review of the subject ID was filed. The Commission has determined not to review the ID.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission’s Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: June 14, 2019.

Lisa Barton,

Secretary to the Commission.
