[Docket Number DARS-2019-0040; OMB Control Number 0704-0441]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement (DFARS); Quality Assurance

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD)

ACTION: Notice and request for comments regarding a proposed revision and extension of an approved information collection requirement.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, DoD announces the proposed extension of a public information collection requirement and seeks public comment on the provisions thereof. *DoD invites comments on:* Whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. The Office of Management and Budget (OMB) has approved this information collection for use through September 30, 2019. DoD proposes that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: DoD will consider all comments received by September 13, 2019.

ADDRESSES: You may submit comments, identified by OMB Control Number 0704-0441, using any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Ms. Kimberly Bass, telephone 571-372-6174.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 246, Quality Assurance, and related clauses at 252.246; OMB Control Number 0704-0441.

Needs and Uses: The information collections under OMB Control Number 0704-0441 pertain to all information that offerors or contractors must submit related to DFARS contract quality assurance programs. This renewal includes the incorporation of OMB Control Number 0704-0541.

a. 252.246-7003, Notification of Potential Safety Issues. Contracting officers require timely notification of potential safety defects so that (1) systems and equipment likely affected by the situation can be readily identified, and (2) appropriate engineering investigation and follow-on actions can be taken to establish and mitigate risk.

b. 252.246-7005, Notice of Warranty Tracking of Serialized Items. The information provided by offerors under this provision alerts contracting officers in those cases where the offeror is proposing to provide a warranty for an individual contract line item for which DoD has not specified a warranty in the solicitation. The warranty notice will permit the Government to recognize and utilize any warranty after contract award.

c. 252.246-7006, Warranty Tracking of Serialized Items. This clause implements section 818 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2012 (Pub. L. 112-81 as amended by section 817 of the NDAA for FY 2015 (Pub. L. 113-291)). The information provided by contractors allows DoD to track warranties for item unique item identification (IUID) required items in the IUID registry to obtain maximum utility of warranties provided on contracted items. The identification and enforcement of warranties is essential to the effectiveness and efficiency of DoD's material readiness. Providing visibility and accountability of warranty data

associated with acquired goods, from the identification of the requirement to the expiration date of the warranted item, significantly enhances DoD's ability to take full advantage of warranties, resulting in—

- (1) Reduced costs;
- (2) Ability to recognize benefits included at no additional cost;
- (3) Ability to compare performance against Government-specified warranties; and
- (4) Identification of sufficient durations for warranties for specific goods.

d. 252.246-7008, Sources of Electronic Parts. The notification and documentation requirements are necessary to comply with statute. The contracting officer will use the information to ensure that the contractor performs the traceability of parts, additional inspection, testing, and authentication required when an electronic part is not obtained from a trusted supplier. The Government may also use this information to more actively perform acceptance.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Type of Request: Revision and extension.

Number of Respondents: 34,842.

Annual Responses: 122,023.

Annual Burden Hours: 2,075,684 (includes 39,074 reporting hours and 2,036,610 recordkeeping hours).

Regulatory Control Officer, Defense Acquisition Regulations System.
