

0.89 to 0.86 acres of occupied ABM habitat. We request public comment on the application, which includes the proposed modified habitat conservation plan (HCP) and the Service's preliminary determination that the HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests to modify its ITP to authorize take of the ABM via conversion of approximately 0.86 acres of the species' occupied associated with construction of a parking lot with amenities on 1.37 acres of a 5.1-acre parcel in Baldwin County, Alabama. The applicant proposes to implement standard ABM minimization and mitigation measures to mitigate for take of the species. The standard minimization and mitigation measures include, but are not limited to, reducing the construction footprint, shifting the project to the west and north to increase habitat continuity for the species, installing sea turtle-friendly exterior lighting and tinted windows, planting landscaping with native vegetation, and constructing a driveway with materials that will not disperse in a storm surge. The applicant will utilize refuse control measures during construction, as well as restore species' habitat after tropical storms. Free-roaming cats and use of exterior rodenticide also would be prohibited on the parcel. The applicant will conduct on-site monitoring of the Alabama beach mouse population via fall and spring trapping surveys (twice a year) over the remaining term of the ITP. Other minimization and mitigation measures include trapping and relocating ABM, dune enhancement, and restoration and installation of sand fencing. The applicant also would create and contribute to a dune enhancement fund to which future developers could also contribute. The applicant would make an annual contribution to the fund over the span of the ITP. The proceeds from the fund would be used to enhance habitat elsewhere within the city limits where ABM might be found.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment including your personal identifying information may be made available to the public. While you may

request that we withhold your information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including the proposed minimization and mitigation measures, would have a minor or negligible effect on the Alabama beach mouse and the environment. Therefore, we have preliminarily determined that modification of the incidental take permit would qualify for categorical exclusion and the modified HCP would be "low effect" and categorically excluded under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and, (3) impacts that, when considered together with those of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant individual or cumulative effects to environmental values or resources.

Next Steps

The Service will evaluate the application and comments to determine whether to issue the requested modified permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding findings, we will determine whether to modify the ITP and issue ITP number TE84363C-1 to the City of Gulf Shores.

Authority

The Service provides this notice under section 10(c) (16 U.S.C. 1539(c)) of the ESA and NEPA regulation 40 CFR 1506.6.

William Pearson,

Field Supervisor, Alabama Field Office.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 129 Species in Oregon, Washington, Idaho, Hawaii, Montana, California, and Nevada

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews for 129 species in Oregon, Washington, Idaho, Hawaii, Montana, California, and Nevada under the Endangered Species Act of 1973. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on these species that has become available since the last reviews.

DATES: To ensure consideration in our reviews, we are requesting submission of new information no later than May 11, 2020. However, we will continue to accept new information about any species at any time.

ADDRESSES: Submitting Information on Species:

- *Gentner's fritillary:*
- *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 SE 98th Ave., Suite 100, Portland, OR 97266; or
- *Email:* fw1ofwo@fws.gov.
- *Bull trout, MacFarlane's four-o'clock, and slickspot peppergrass:*
- *U.S. mail:* Project Leader, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Idaho Fish and Wildlife Office, 1387 S Vinnell Way, Suite 368, Boise, ID 83709; or
- *Email:* ifwo@fws.gov.
- *Any of the 125 species occurring in Hawaii:*
- *U.S. mail:* Field Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Blvd., Room 3-122, Honolulu, HI 96850; or
- *Email:* pifwo_admin@fws.gov.

FOR FURTHER INFORMATION CONTACT: Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance. For information about the various species, contact the following people.

- *Gentner's fritillary*: Jeff Dillon, Oregon Fish and Wildlife Office, 503–231–6179.
- *Bull trout, MacFarlane's four-o'clock, and slickspot peppergrass*: Kathleen Hendricks, Idaho Fish and Wildlife Office, 208–378–5243.
- *Any of the 125 species occurring in Hawaii*: Megan Laut, Pacific Islands Fish and Wildlife Office, 808–792–9400.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year status reviews?

Under the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531, *et seq.*), we maintain lists of endangered and threatened wildlife and plant species (referred to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for wildlife) and 17.12 (for plants). Section 4(c)(2) of the Act requires us to review each listed

species' status at least once every 5 years. For additional information about 5-year status reviews, refer to our factsheet at <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status reviews, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for these species.

Which species are under review?

This notice announces our active review of the 129 species listed in the table below.

| Common name | Scientific name | Status | Known range of species occurrence | Final listing rule and publication date |
|------------------------------------------------------------------|-------------------------------------------------------|------------------|---------------------------------------------|-----------------------------------------|
| ANIMALS | | | | |
| <i>Birds:</i> | | | | |
| Millerbird, Nihoa | <i>Acrocephalus familiaris kingi</i> | Endangered | Hawaii | 32 FR 4001, 3/11/1967. |
| Duck, Laysan | <i>Anas laysanensis</i> | Endangered | Hawaii | 32 FR 4001, 3/11/1967. |
| Akekee | <i>Loxops caeruleirostris</i> | Endangered | Hawaii | 75 FR 18960, 4/13/2010. |
| Akikiki | <i>Oreomystis bairdi</i> | Endangered | Hawaii | 75 FR 18960, 4/13/2010. |
| Petrel, Hawaiian | <i>Pterodroma sandwichensis</i> | Endangered | Hawaii | 32 FR 4001, 3/11/1967. |
| Finch, Laysan | <i>Telespyza cantans</i> | Endangered | Hawaii | 32 FR 4001, 3/11/1967. |
| Finch, Nihoa | <i>Telespyza ultima</i> | Endangered | Hawaii | 32 FR 4001, 3/11/1967. |
| <i>Fishes:</i> | | | | |
| Trout, bull (coterminous U.S. distinct population segment) | <i>Salvelinus confluentus</i> | Threatened | Washington, Oregon, Idaho, Nevada, Montana. | 64 FR 58910, 11/01/1999. |
| <i>Snails:</i> | | | | |
| Snail, Newcomb's | <i>Erinna newcombi</i> | Threatened | Hawaii | 65 FR 4162, 1/26/2000. |
| <i>Arachnids:</i> | | | | |
| Spider, Kauai cave wolf or pee pee maka ole | <i>Adelocosa anops</i> | Endangered | Hawaii | 65 FR 2348, 1/14/2000. |
| <i>Crustaceans:</i> | | | | |
| Amphipod, Kauai cave | <i>Spelaeorchestia koloana</i> | Endangered | Hawaii | 65 FR 2348, 1/14/2000. |
| <i>Insects:</i> | | | | |
| Fly, Hawaiian picture-wing | <i>Drosophila musaphilia</i> | Endangered | Hawaii | 71 FR 26835, 5/9/2006. |

| Wawaeiole | <i>Huperzia nutans</i> | Endangered | Hawaii | 59 FR 14482, 3/28/1994. |

Request for New Information

To ensure that a 5-year status review is complete and based on the best available scientific and commercial information, we request new information from all sources. See What Information Do We Consider in Our Review? for specific criteria. If you submit information, please support it with documentation such as maps, references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

If you wish to provide information for any species listed in the table, please submit your comments and materials to the appropriate contact in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials received will be available for public inspection, by appointment, during normal business hours at the offices to which the comments are submitted.

Completed and Active Reviews

A list of all completed and currently active 5-year status reviews addressing species for which our Regional Office has lead responsibility is available at <http://www.fws.gov/pacific/ecoservices/ endangered/recovery/5year.html>.

Authority

This document is published under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*).

Mary M. Abrams,

Acting Regional Director, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLNM954000.L14400000.BJ0000.BX0000.19XL1109AF]

Notice of Filing of Plats of Survey; New Mexico; and Oklahoma

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of official filing.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed 30 days after the date of this publication in the Bureau of Land Management (BLM), New Mexico Office, Santa Fe, New Mexico. The surveys announced in this notice are necessary for the management of lands administered by the agency indicated.

ADDRESSES: These plats will be available for inspection in the New Mexico Office, Bureau of Land Management, 301 Dinosaur Trail, Santa Fe, New Mexico, 87508-1560. Protests of the survey should be sent to the New Mexico State Director at the above address.

FOR FURTHER INFORMATION CONTACT:

Michael J. Purtee, Cadastral Surveyor; (505) 954-2032; mpurtee@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION:

New Mexico Principal Meridian, New Mexico

The plat, representing the dependent resurvey of a portion of the south boundary of the Picuris Pueblo Grant, certain private claim boundaries, Townships 22 and 23 North, Range 12, East, and a portion of the north boundary and the subdivisional lines of Township 22 North, Range 12 East, accepted October 7, 2019, for Group 1125, New Mexico.

The remonumentation of the corner of sections 10, 11, 14 and 15, Township 16 North, Range 19 West, approved March 5, 2020.

This plat and remonumentation were prepared at the request of the Bureau of Indian Affairs.

The Indian Meridian, Oklahoma

The remonumentation of certain corners along the Chickasaw and Choctaw Boundary, Townships 2, 3, and 5 North, and 1 and 3 South, Range 8 East.

This remonumentation was prepared at the request of the Chickasaw Nation.

A person or party who wishes to protest against any of these surveys must file a written notice of protest within 30 calendar days from the date of this publication with the New Mexico Director, Bureau of Land Management, stating that they wish to protest.

A statement of reasons for a protest may be filed with the notice of protest to the State Director, or the statement of reasons must be filed with the State Director within 30 days after the protest is filed. Before including your address, or other personal information in your protest, please be aware that your entire protest, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 U.S.C. Chap 3.

Michael J. Purtee,

Chief Cadastral Surveyor of New Mexico, Oklahoma, Texas and Kansas.
