Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The aviation industry/users have indicated a desire for the FAA to transition the Alaskan en route navigation structure away from the dependency on NDBs. The advances in technology have allowed for alternate navigation methods to support decommissioning of high cost ground navigation equipment. The FAA conducted a non-rulemaking study in accordance with FAA Order JO 7400.2, Procedures for Handling Airspace Matters in 2021 on FDV due to the ongoing high cost of maintenance and repairs. As a result of the study, there were no objections received and the FAA added FDV to the schedule to be decommissioned.

Colored Federal airway G-7 navigates from the Gambell, AK, (GAM) NDB to the Norton Bay, AK, (OAY) NDB. The decommissioning of FDV would render G-7 unusable. This proposal would revoke G-7 in its entirety. The loss of G-7 would be mitigated by utilizing VHF Omnidirectional Range (VOR) Federal airways V-414 and V-452.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to revoke Colored Federal airway G-7 in the vicinity of Nome, AK due to the decommissioning of FDV. G-7 currently navigates between GAM and OAY. The FAA proposes to revoke G-7 in its entirety.

Colored Federal airways are published in paragraph 6009(a) of FAA

Order JO 7400.11F dated August 10, 2021 and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Colored Federal airway listed in this document would be removed subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

In response, EPA is extending the comment period for 14 days. This extension provides additional time to Sierra Club and its local partners, while also allowing time for EPA and EGLE to plan for additional upcoming rulemakings that relate to EPA's findings on this proposed action.
