Applicants: Louisville Gas and Electric Company.

Description: Tariff Amendment: Louisville Gas and Electric Company submits tariff filing per 35.15: Notice of Cancellation of Amended and Restated Transmission Coordination Agrmt. to be effective 12/31/9998.

Filed Date: 10/26/26.

Accession Number: 20261026–5117.

Comment Date: 5 p.m. ET 11/16/26.

Docket Numbers: ER27–271–000.

Applicants: Louisville Gas and Electric Company.

Description: Tariff Amendment: Notice of Cancellation of Amended and Restated Power Supply System Agreement to be effective 12/31/9998.

Filed Date: 10/26/26.

Accession Number: 20261026–5122.

Comment Date: 5 p.m. ET 11/16/26.

Docket Numbers: ER27–272–000.

Applicants: Kentucky Utilities Company.

Description: Tariff Amendment: Notice of Cancellation of Kentucky Utilities Transmission eTariff Database to be effective 12/31/9998.

Filed Date: 10/26/26.

Accession Number: 20261026–5125.

Comment Date: 5 p.m. ET 11/16/26.

Docket Numbers: ER27–273–000.

Applicants: Public Service Company of New Mexico.

Description: 205(d) Rate Filing: PNM Concurrence Filing with APS RS 329 to be effective 11/4/2026.

Filed Date: 10/26/26.

Accession Number: 20261026–5133.

Comment Date: 5 p.m ET 11/16/26.

The filings are accessible in the Commission's eLibrary system (*https://elibrary.ferc.gov/idmws/search/fercgensearch.asp*) by querying the docket number.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern Time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: *http://www.ferc.gov/docs-filing/efiling/filing-req.pdf.* For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov.*

Dated: October 26, 2026.

Carlos D. Clay,

Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2013–0721; FRL–13684–01–OFA]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Chemical Data Reporting Under the Toxic Substances Control Act (TSCA) (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Chemical Data Reporting Under the Toxic Substances Control Act (EPA ICR Number 1884.17, OMB Control Number 2070–0162) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through October 31, 2026. Public comments were previously requested via the **Federal Register** on February 24, 2026 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before November 30, 2026.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OPPT–2013–0721 to EPA online using *www.regulations.gov* (our preferred method), by email to *docket.epa.gov* or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Marissa Lewis, Office of Mission Critical Operations, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–564–1562; email address: *Lewis.Marisa@epa.gov.*

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through October 31, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on February 24, 2026 during a 60-day comment period (91 FR 8872). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at *www.regulations.gov* or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit *http://www.epa.gov/dockets.*

Abstract: This information collection request (ICR) addresses the paperwork requirements contained in the current Chemical Data Reporting (CDR) rule (*40 CFR part 711)* under the Toxic Substances Control Act (TSCA). Under TSCA section 8(a) (15 U.S.C. 2607), the Environmental Protection Agency (EPA) is authorized to collect certain information on chemical substances manufactured (including imported) or processed in the United States. The CDR was formerly known as the Inventory Update Rule (IUR).

The CDR collection provides chemical manufacture, processing, and use information that helps EPA identify chemicals to which the public may be exposed as consumers or as workers in commercial and industrial settings. The data also helps EPA assess routes of potential exposure to those chemicals. The CDR data collection is on a four-year reporting cycle and contains detailed manufacturing, processing, and use information drawn from the principal reporting year; as well as basic information on production volume, by

year, for the three years prior to the principal reporting year. The next CDR collection will occur in 2028; there are no changes to the reporting requirements.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form Number: 9600–010.

Respondents/affected entities: Entities potentially affected by this ICR include companies manufacturing (including importing) certain chemical substances listed on the TSCA Inventory and regulated under TSCA section 8(a) CDR regulation. North American Industrial Classification System (NAICS) codes are identified in question 12 of the ICR.

Respondent's obligation to respond: Mandatory. 15 U.S.C. 2607; 40 CFR part 711.

Estimated number of respondents: 5,238 (total).

Frequency of response: Once every four years.

Total estimated burden: 891,053 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $92,127,597 (per year), which includes $0 annualized capital or operation & maintenance costs.

Changes in the estimates: This ICR includes an increase of 161,568 hours in the total estimated burden compared with that currently approved by OMB. The increase reflects the use of 2020 CDR data (rather than 2016 CDR used for the previous ICR update) for estimating the reporting universe. Although in 2020 fewer sites reported to CDR than in 2016 (*i.e.,* fewer Form Us submitted), on average the sites reported a greater number of chemicals. In 2020 CDR, there were 5,238 sites reporting on 8.3 chemicals per report as opposed to 5,460 sites and 7.38 chemicals per report in 2016 CDR. This change resulted in a substantial increase in the number of chemical reports submitted. In addition, fewer chemical reports were for partially exempted chemicals (see 40 CFR 711.6 for a list of chemicals that are partially exempted from reporting under CDR). In 2016 CDR, approximately 21% of reports were partial reports, whereas in 2020 CDR the share of partial reports was about 7%. The average burden for each chemical report is higher because a greater percentage of the chemical reports are full reports. This change is an adjustment.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–13643–01–OLEM]

Fiftieth Update of the Federal Agency Hazardous Waste Compliance Docket

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Since 1988, the Environmental Protection Agency (EPA) has maintained a Federal Agency Hazardous Waste Compliance Docket (''Docket'') under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLA requires EPA to establish a Docket that contains certain information reported to EPA by Federal facilities that manage hazardous waste or from which a reportable quantity of hazardous substances has been released. This document identifies the Federal facilities not previously listed on the Docket and identifies Federal facilities reported to EPA since the last update on April 23, 2026. In addition to the list of additions to the Docket, this document includes a section with revisions of the previous Docket list and a section of Federal facilities that are to be deleted from the Docket. Thus, the revisions in this update include one addition, one deletion, and eighteen corrections to the Docket since the previous update.

DATES: This list is current as of September 30, 2026.

FOR FURTHER INFORMATION CONTACT: Electronic versions of the Docket and more information on its implementation can be obtained at *https://www.epa.gov/fedfac/federal-agency-hazardous-waste-compliance-docket* by clicking on the link for Cleanups at Federal Facilities or by contacting Jonathan Tso; email address: *tso.jonathan@epa.gov,* Federal Agency Hazardous Waste Compliance Docket Coordinator, Office of Superfund and Emergency Management. Additional information on the Docket and an electronic version of the complete list of Docket sites can be obtained at: *https://www.epa.gov/fedfac/federal-agency-hazardous-waste-compliance-docket-1.*

6.0 Facility NPL Status Reporting, Including NFRAP Status
7.0 Information Contained on Docket Listing

1.0 Introduction

Section 120(c) of CERCLA, 42 U.S.C. 9620(c), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), requires EPA to establish the Federal Agency Hazardous Waste Compliance Docket. The Docket contains information on Federal facilities that manage hazardous waste and such information is submitted by Federal agencies to EPA under sections 3005, 3010, and 3016 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6925, 6930, and 6937. Additionally, the Docket contains information on Federal facilities with a reportable quantity of hazardous substances that has been released and such information is submitted by Federal agencies to EPA under section 103 of CERCLA, 42 U.S.C. 9603. Specifically, RCRA section 3005 establishes a permitting system for certain hazardous waste treatment, storage, and disposal (TSD) facilities; RCRA section 3010 requires waste generators, transporters and TSD facilities to notify EPA of their hazardous waste activities; and RCRA section 3016 requires Federal agencies to submit biennially to EPA an inventory of their Federal hazardous waste facilities. CERCLA section 103(a) requires the owner or operator of a vessel or onshore or offshore facility to notify the National Response Center (NRC) of any spill or other release of a hazardous substance that equals or exceeds a reportable quantity (RQ), as defined by CERCLA section 101. Additionally, CERCLA section 103(c) requires facilities that have, ''stored, treated, or disposed of,'' hazardous wastes and where there is, ''known, suspected, or likely releases,'' of hazardous substances to report their activities to EPA.

CERCLA section 120(d) requires EPA to take steps to assure that a Preliminary Assessment (PA) be completed for those sites identified in the Docket and that the evaluation and listing of sites with a PA be completed within a reasonable time frame. The PA is designed to provide information for EPA to consider when evaluating the site for potential
