

Public Law 107–172
107th Congress

An Act

To amend the Public Health Service Act to provide for research, information, and education with respect to blood cancer.

May 14, 2002

[S. 1094]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Hematological Cancer Research Investment and Education Act of 2002”.

SEC. 2. FINDINGS.

Congress finds that:

(1) An estimated 109,500 people in the United States will be diagnosed with leukemia, lymphoma, and multiple myeloma in 2001.

(2) New cases of the blood cancers described in paragraph (1) account for 8.6 percent of new cancer cases.

(3) Those devastating blood cancers will cause the deaths of an estimated 60,300 persons in the United States in 2001. Every 9 minutes, a person in the United States dies from leukemia, lymphoma, or multiple myeloma.

(4) While less than 5 percent of Federal funds for cancer research are spent on those blood cancers, those blood cancers cause 11 percent of all cancer deaths in the United States.

(5) Increased Federal support of research into leukemia, lymphoma, and multiple myeloma has resulted and will continue to result in significant advances in the treatment, and ultimately the cure, of those blood cancers as well as other cancers.

SEC. 3. RESEARCH, INFORMATION, AND EDUCATION WITH RESPECT TO BLOOD CANCER.

Part C of title IV of the Public Health Service Act (42 U.S.C. 285 et seq.) is amended by inserting after section 419C the following:

“SEC. 417D. RESEARCH, INFORMATION, AND EDUCATION WITH RESPECT TO BLOOD CANCER.
