

Public Law 95-31
95th Congress

An Act

To provide temporary authorities to the Secretary of Commerce to facilitate emergency actions to mitigate the impacts of the 1976-77 drought and promote water conservation.

May 23, 1977

[S. 1279]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act be cited as the "Community Emergency Drought Relief Act of 1977".

SEC. 101. (a) Upon the application of any State, political subdivision of a State, Indian tribe, or public or private nonprofit organization, the Secretary of Commerce is authorized to make grants and loans to applicants in drought impacted areas for projects that implement short-term actions to augment community water supplies where there are severe problems due to water shortages. Such assistance may be for the improvement, expansion, or construction of water supplies, and purchase and transportation of water, which in the opinion of the Secretary of Commerce will make a substantial contribution to the relief of an existing or threatened drought condition in a designated area.

(b) The Secretary of Commerce may designate any area in the United States as an emergency drought impact area if he or she finds that a major and continuing adverse drought condition exists and is expected to continue, and such condition is causing significant hardships on the affected areas.

(c) Eligible applicants shall be those States or political subdivisions of States with a population of ten thousand or more, Indian tribes, or public or private nonprofit organizations within areas designated pursuant to subsection (b) of this section.

(d) Projects assisted under this Act shall be only those with respect to which assurances can be given to the satisfaction of the Secretary of Commerce that the work can be completed by April 30, 1978, or within such extended time as the Secretary may approve in exceptional circumstances.

SEC. 102. Grants hereunder shall be in an amount not to exceed 50 per centum of allowable project costs. Loans shall be for a term not to exceed 40 years at a per annum interest rate of 5 per centum and shall be on such terms and conditions as the Secretary of Commerce shall determine. In determining the amount of a grant assistance for any project, the Secretary of Commerce may take into consideration such factors as are established by regulation and are consistent with the purposes of this Act.

SEC. 103. In extending assistance under this Act the Secretary shall take into consideration the relative needs of applicant areas for the projects for which assistance is requested, and the appropriateness of the project for relieving the conditions intended to be alleviated by this Act.

SEC. 104. The Secretary of Commerce shall have such powers and authorities under this Act as are vested in the Secretary by sections 701 and 708 of the Public Works and Economic Development Act of 1965, as amended, with respect to that Act.

SEC. 105. The National Environmental Protection Act of 1969, as amended, shall be implemented to the fullest extent consistent with but
