§ 2277a-4. Premiums

(a) Amount in Fund not exceeding secure base amount

(1) In general

If at the end of any calendar year the aggregate of amounts in the Farm Credit Insurance Fund does not exceed the secure base amount, subject to paragraph (3), the premium due from any insured System bank for the calendar year shall be equal to the sum of—

(A) the average outstanding insured obligations issued by the bank for the calendar year, after deducting from the obligations the percentages of the guaranteed portions of loans and investments described in paragraph (2), multiplied by 0.0020; and

(B) the product obtained by multiplying—

(i) the sum of—

(I) the average principal outstanding for the calendar year on loans made by the bank that are in nonaccrual status; and

(II) the average amount outstanding for the calendar year of other-than-temporarily impaired investments made by the bank; by

(ii) 0.0010.

(2) Deductions from average outstanding insured obligations

The average outstanding insured obligations issued by the bank for the calendar year referred to in paragraph (1)(A) shall be reduced by deducting from the obligations the sum of (as determined by the Corporation)—

(A) 90 percent of each of—

(i) the average principal outstanding for the calendar year on the guaranteed portions of Federal government-guaranteed loans made by the bank that are in accrual status; and

(ii) the average amount outstanding for the calendar year of the guaranteed portions of Federal government-guaranteed investments made by the bank that are not permanently impaired; and

(B) 80 percent of each of—

(i) the average principal outstanding for the calendar year on the guaranteed portions of State government-guaranteed loans made by the bank that are in accrual status; and

(ii) the average amount outstanding for the calendar year of the guaranteed portions of State government-guaranteed investments made by the bank that are not permanently impaired.

(3) Reduced premiums

The Corporation, in the sole discretion of the Corporation, may reduce by a percentage uniformly applied to all insured System banks the premium due from each insured System bank during any calendar year, as determined under paragraph (1).

(4) Definition of government-guaranteed loans or investments

In this section, the term “government-guaranteed”, when applied to a loan or an investment, means a loan, credit, or investment, or portion of a loan, credit, or investment, that is guaranteed—

(A) by the full faith and credit of the United States Government or any State government;

(B) by an agency or other entity of the United States Government whose obligations are explicitly guaranteed by the United States Government; or

(C) by an agency or other entity of a State government whose obligations are explicitly guaranteed by such State government.

(b) Amount in Fund exceeding secure base amount

At any time the aggregate of amounts in the Farm Credit Insurance Fund exceeds the secure base amount, the Corporation shall reduce the premium due from each insured System bank, as determined under subsection (a)(1), by a percentage determined by the Corporation so that the aggregate of the premiums payable by all System banks is sufficient to ensure that the aggregate of amounts in the Farm Credit Insurance Fund after such premiums are paid is not less than the secure base amount at such time.

(c) Secure base amount

(1) In general

For purposes of this part, the term “secure base amount” means, with respect to any point in time, 2 percent of the aggregate outstanding insured obligations of all insured System banks at such time (as adjusted under paragraph (2)), or such other percentage of the aggregate amount as the Corporation in its sole discretion determines is actuarially sound to maintain in the Insurance Fund taking into account the risk of insuring outstanding insured obligations.

(2) Adjustment

The aggregate outstanding insured obligations of all insured System banks under para-

graph (1) shall be adjusted downward to exclude an amount equal to the sum of (as determined by the corporation)—

(A) 90 percent of each of—

(i) the guaranteed portions of principal outstanding on Federal government-guaranteed loans in accrual status made by the banks; and

(ii) the guaranteed portions of the amount of Federal government-guaranteed investments made by the banks that are not permanently impaired; and

(B) 80 percent of each of—

(i) the guaranteed portions of principal outstanding on State government-guaranteed loans in accrual status made by the banks; and

(ii) the guaranteed portions of the amount of State government-guaranteed investments made by the banks that are not permanently impaired.

(d) Determination of loan and investment amounts

For the purpose of subsections (a) and (c), the principal outstanding on all loans made by an insured System bank, and the amount outstanding on all investments made by an insured System bank, shall be determined based on—

(1) all loans or investments made by any production credit association, or any other association making direct loans under authority provided under section 2279b of this title, that is able to make such loans or investments because such association is receiving, or has received, funds provided through the insured System bank;

(2) all loans or investments made by any bank, company, institution, corporation, union, or association described in section 2015(b)(1)(B) of this title, that is able to make such loans or investments because such entity is receiving, or has received, funds provided through the insured System bank; and

(3) all loans or investments made by such insured System bank (other than loans made to any party described in paragraph (1) or (2)).

(e) Allocation to System institutions of excess reserves

(1) Establishment of Allocated Insurance Reserves Accounts

There is hereby established in the Farm Credit Insurance Fund an Allocated Insurance Reserves Account—

(A) for each insured System bank; and

(B) subject to paragraph (6)(C), for all holders, in the aggregate, of Financial Assistance Corporation stock.

(2) Treatment

Amounts in any Allocated Insurance Reserves Account shall be considered to be part of the Farm Credit Insurance Fund.

(3) Annual allocations

If, at the end of any calendar year, the aggregate of the amounts in the Farm Credit Insurance Fund exceeds the secure base amount, the Corporation shall allocate to the Allocated Insurance Reserves Accounts the excess amount less the amount that the Corporation,

in its sole discretion, determines to be the sum of the estimated operating expenses and estimated insurance obligations of the Corporation for the immediately succeeding calendar year.

(4) Allocation formula

From the total amount required to be allocated at the end of a calendar year under paragraph (3)—

(A) 10 percent of the total amount shall be credited to the Allocated Insurance Reserves Account established under paragraph (1)(B), subject to paragraph (6)(C); and

(B) there shall be credited to the allocated insurance reserves account¹ of each insured system² bank an amount that bears the same ratio to the total amount (less any amount credited under subparagraph (A)) as—

(i) the average principal outstanding for the calendar year on insured obligations issued by the bank (after deducting from the principal the percentages of the guaranteed portions of loans and investments described in subsection (a)(2)); bears to

(ii) the average principal outstanding for the calendar year on insured obligations issued by all insured System banks (after deducting from the principal the percentages of the guaranteed portions of loans and investments described in subsection (a)(2)).

(5) Use of funds in Allocated Insurance Reserves Accounts

To the extent that the sum of the operating expenses of the Corporation and the insurance obligations of the Corporation for a calendar year exceeds the sum of operating expenses and insurance obligations determined under paragraph (3) for the calendar year, the Corporation shall cover the expenses and obligations by—

(A) reducing each Allocated Insurance Reserves Account by the same proportion; and

(B) expending the amounts obtained under subparagraph (A) before expending other amounts in the Fund.

(6) Other disposition of Account funds

(A) In general

As soon as practicable during each calendar year, the Corporation may—

(i) subject to subparagraph (D), pay to each insured System bank, in a manner determined by the Corporation, an amount equal to the balance in the Allocated Insurance Reserves Account of the System bank; and

(ii) subject to subparagraphs (C) and (E), pay to each System bank and association holding Financial Assistance Corporation stock a proportionate share, determined by dividing the number of shares of Financial Assistance Corporation stock held by the institution by the total number of shares of Financial Assistance Corporation

stock outstanding at the time of the termination of the Financial Assistance Corporation, of the balance in the Allocated Insurance Reserves Account established under paragraph (1)(B).

(B) Authority to eliminate or reduce payments

The Corporation may eliminate or reduce payments during a calendar year under subparagraph (A) if the Corporation determines, in its sole discretion, that the payments, or other circumstances that might require use of the Farm Credit Insurance Fund, could cause the amount in the Farm Credit Insurance Fund during the calendar year to be less than the secure base amount.

(C) Reimbursement for Financial Assistance Corporation stock

(i) Sufficient funding

Notwithstanding paragraph (4)(A), on provision by the Corporation for the accumulation in the Account established under paragraph (1)(B) of funds in an amount equal to \$56,000,000, the Corporation shall not allocate any further funds to the Account except to replenish the Account if funds are diminished below \$56,000,000 by the Corporation under paragraph (5).

(ii) Termination of account

On disbursement of an amount equal to \$56,000,000, the Corporation shall—

(I) close the account established under paragraph (1)(B); and

(II) transfer any remaining funds in the Account to the remaining Allocated Insurance Reserves Accounts in accordance with paragraph (4)(B) for the calendar year in which the transfer occurs.

(D) Distribution of payments received

Not later than 60 days after receipt of a payment made under subparagraph (A)(i), each insured System bank, in consultation with affiliated associations of the insured System bank, and taking into account the direct or indirect payment of insurance premiums by the associations, shall develop and implement an equitable plan to distribute payments received under subparagraph (A)(i) among the bank and associations of the bank.

(E) Exception for previously reimbursed associations

For purposes of subparagraph (A)(ii), in any Farm Credit district in which the funding bank has reimbursed 1 or more affiliated associations of the bank for the previously unreimbursed portion of the Financial Assistance Corporation stock held by the associations, the funding bank shall be deemed to be the holder of the shares of Financial Assistance Corporation stock for which the funding bank has provided the reimbursement.
