FINDINGS AND PURPOSE

Pub. L. 117-328, div. GG, title II, §201, Dec. 29, 2022, 136 Stat. 5969, provided that:

“(a) FINDINGS.—Congress finds the following:

“(1) Foreign subsidies, which can take the form of direct subsidies, grants, loans (including below-market loans), loan guarantees, tax concessions, preferential government procurement policies, or government ownership or control, can distort the competitive process by enabling the subsidized firm to submit a bid higher than other firms in the market, or otherwise change the incentives of the firm in ways that undermine competition following an acquisition.

“(2) Foreign subsidies are particularly problematic when granted by countries or entities that constitute a strategic or economic threat to United States interests.

“(3) The Made in China 2025 plan, states that the Chinese Communist Party will ‘support enterprises to carry out mergers and acquisitions (M&A), equity investment, and venture capital overseas’.

“(4) The 2020 report to Congress from the bipartisan U.S.-China Economic and Security Review Commission concluded that the Chinese Government subsidizes companies with a goal of their expanding into the United States and other countries, finding that ‘[t]his process assists Chinese national champions in surpassing and supplanting global market leaders’. The report warns that the risk is particularly acute when it comes to emerging technologies, where China seeks to ‘surpass and displace the United States altogether [and that] [f]ailure to appreciate the gravity of this challenge and defend U.S. competitiveness would be dire . . . [and] risks setting back U.S. economic and technological progress for decades’.

“(5) In remarks before the Hudson Institute on December 8, 2020, FTC Commissioner Noah Phillips stated, ‘[O]ne area where antitrust needs to reckon with the strategic interests of other nations is when we scrutinize mergers or conduct involving state-owned entities . . . companies that are controlled, to varying degrees, by the state . . . [and] often are a government tool for implementing industrial policies or to protect national security’.

“(b) PURPOSE.—The purpose of this section [probably means “this title”, enacting this section and this note] is to require parties providing pre-merger notifications to include in the notification required under section 7A of the Clayton Act (15 U.S.C. 18a) information con-

cerning subsidies they receive from countries or entities that are strategic or economic threats to the United States.”

§ 19. Interlocking directorates and officers

(a)(1) No person shall, at the same time, serve as a director or officer in any two corporations (other than banks, banking associations, and trust companies) that are—

(A) engaged in whole or in part in commerce; and

(B) by virtue of their business and location of operation, competitors, so that the elimination of competition by agreement between them would constitute a violation of any of the antitrust laws;

if each of the corporations has capital, surplus, and undivided profits aggregating more than \$10,000,000 as adjusted pursuant to paragraph (5) of this subsection.

(2) Notwithstanding the provisions of paragraph (1), simultaneous service as a director or officer in any two corporations shall not be prohibited by this section if—

(A) the competitive sales of either corporation are less than \$1,000,000, as adjusted pursuant to paragraph (5) of this subsection;

(B) the competitive sales of either corporation are less than 2 per centum of that corporation’s total sales; or

(C) the competitive sales of each corporation are less than 4 per centum of that corporation’s total sales.

For purposes of this paragraph, “competitive sales” means the gross revenues for all products and services sold by one corporation in competition with the other, determined on the basis of annual gross revenues for such products and services in that corporation’s last completed fiscal year. For the purposes of this paragraph, “total sales” means the gross revenues for all products and services sold by one corporation over that corporation’s last completed fiscal year.

(3) The eligibility of a director or officer under the provisions of paragraph (1) shall be determined by the capital, surplus and undivided profits, exclusive of dividends declared but not paid to stockholders, of each corporation at the end of that corporation’s last completed fiscal year.

(4) For purposes of this section, the term “officer” means an officer elected or chosen by the Board of Directors.

(5) For each fiscal year commencing after September 30, 1990, the \$10,000,000 and \$1,000,000 thresholds in this subsection shall be increased (or decreased) as of October 1 each year by an amount equal to the percentage increase (or decrease) in the gross national product, as determined by the Department of Commerce or its successor, for the year then ended over the level so established for the year ending September 30, 1989. As soon as practicable, but not later than January 31 of each year, the Federal Trade Commission shall publish the adjusted amounts required by this paragraph.

(b) When any person elected or chosen as a director or officer of any corporation subject to the provisions hereof is eligible at the time of

his election or selection to act for such corporation in such capacity, his eligibility to act in such capacity shall not be affected by any of the provisions hereof by reason of any change in the capital, surplus and undivided profits, or affairs of such corporation from whatever cause, until the expiration of one year from the date on which the event causing ineligibility occurred.
