

“(A) develop and implement objective criteria to determine at what point a marine mammal undergoing rehabilitation is returnable to the wild; and
 “(B) collect and make available information on marine mammal health and health trends; and
 “(2) in accordance with section 304(b) [now 404(b)] of the Marine Mammal Protection Act of 1972 [16 U.S.C. 1421c(b)], as amended by this Act, issue a detailed contingency plan for responding to any unusual mortality event—
 “(A) in proposed form by not later than 18 months after the date of enactment of this Act; and
 “(B) in final form by not later than 24 months after the date of enactment of this Act.”

§ 1421b. Stranding or entanglement response agreements

(a) In general

The Secretary may enter into an agreement under section 1382(c) of this title with any person to take marine mammals under section 1379(h)(1) of this title in response to a stranding or entanglement.

(b) Required provision

An agreement authorized by subsection (a) shall—

- (1) specify each person who is authorized to perform activities under the agreement;
- (2) specify any terms and conditions under which a person so specified may delegate that authority to another person; and
- (3) include a description of the data management and public outreach policy established under section 1421a(f) of this title.

(c) Review

The Secretary shall periodically review agreements under section 1382(c) of this title that are entered into pursuant to this subchapter, for performance adequacy and effectiveness.

§ 1421c. Unusual mortality event response

(a) Response

(1) Working group

(A) The Secretary, acting through the Office, shall establish, in consultation with the Secretary of the Interior, a marine mammal unusual mortality event working group, consisting of individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, marine conservation, and medical science, to provide guidance to the Secretary and the Secretary of the Interior for—

- (i) determining whether an unusual mortality event is occurring;
- (ii) determining, after an unusual mortality event has begun, if response actions with respect to that event are no longer necessary; and
- (iii) developing the contingency plan in accordance with subsection (b), to assist the Secretary in responding to unusual mortality events.

(B) Chapter 10 of title 5 shall not apply to the marine mammal unusual mortality event working group established under this paragraph.

(2) Response timing

The Secretary, in consultation with the Secretary of the Interior, shall to the extent necessary and practicable—

- (A) within 24 hours after receiving notification from a stranding network participant that an unusual mortality event might be occurring, contact as many members as is possible of the unusual mortality event working group for guidance; and
- (B) within 48 hours after receiving such notification—

- (i) make a determination as to whether an unusual mortality event is occurring;
- (ii) inform the stranding network participant of that determination; and
- (iii) if the Secretary has determined an unusual mortality event is occurring, designate an Onsite Coordinator for the event, in accordance with subsection (c).

(b) Contingency plan

(1) In general

The Secretary shall, in consultation with the Secretary of the Interior and the unusual mortality event working group, and after an opportunity for public review and comment, issue a detailed contingency plan for responding to any unusual mortality event.

(2) Contents

The contingency plan required under this subsection shall include—

- (A) a list of persons, including stranding network participants, at a regional, State, and local level, who can assist the Secretary in implementing a coordinated and effective response to an unusual mortality event;
- (B) the types of marine mammal tissues and analyses necessary to assist in diagnosing causes of unusual mortality events;
- (C) training, mobilization, and utilization procedures for available personnel, facilities, and other resources necessary to conduct a rapid and effective response to unusual mortality events; and
- (D) such requirements as are necessary to—

- (i) minimize death of marine mammals in the wild and provide appropriate care of marine mammals during an unusual mortality event;
- (ii) assist in identifying the cause or causes of an unusual mortality event;
- (iii) determine the effects of an unusual mortality event on the size estimates of
