§ 1686. Definitions

For purposes of this subchapter, the term:

(1) "Anticipated cost of removal" means the projected cost of removal of wood residues from timber sales areas to points of prospective use, as determined by the Secretary at the time of advertisement of the timber sales contract in accordance with appropriate appraisal and sale procedures.

(2) "Anticipated value" means the projected value of wood residues as fuel or other merchantable wood products, as determined by the Secretary at the time of advertisement of the timber sales contract in accordance with appropriate appraisal and sale procedures.

(3) "Points of prospective use" means the locations where the wood residues are sold or otherwise put to use, as determined by the Secretary in accordance with appropriate appraisal and sale procedures.

(4) "Person" means an individual, partnership, joint-stock company, corporation, association, trust, estate, or any other legal entity, or any agency of Federal or State government or of a political subdivision of a State.

(5) "Secretary" means the Secretary of Agriculture.

(6) "Wood residues" includes, but is not limited to, logging slash, down timber material, woody plants, and standing live or dead trees which do not meet utilization standards because of size, species, merchantable volume, or economic selection criteria and which, in the case of live trees, are surplus to growing stock needs.

SUBCHAPTER I—YOUTH CONSERVATION CORPS**§ 1701. Congressional declaration of policy and purpose**

The Congress finds that the Youth Conservation Corps has demonstrated a high degree of success as a pilot program wherein American youth, representing all segments of society, have benefited by gainful employment in the healthful outdoor atmosphere of the national park system, the national forest system, other public land and water areas of the United States and by their employment have developed, enhanced, and maintained the natural resources of the United States, and whereas in so doing the youth have gained an understanding and appreciation of the Nation's environment and heritage equal to one full academic year of study, it is accordingly the purpose of this subchapter to expand and make permanent the Youth Conservation Corps and thereby further the development and maintenance of the natural resources by America's youth, and in so doing to prepare them for the ultimate responsibility of maintaining and managing these resources for the American people.
