(4) Invasive species

(A) In general

The term “invasive species” means an alien species, the introduction of which causes, or is likely to cause, economic or environmental harm or harm to human health.

(B) Associated definition

For purposes of subparagraph (A), the term “alien species”, with respect to a particular ecosystem, means any species (including the seeds, eggs, spores, or other biological material of the species that are capable of propagating the species) that is not native to the affected ecosystem.

(5) Manage; management

The terms “manage” and “management”, with respect to an invasive species, mean the active implementation of any activity—

(A) to reduce or stop the spread of the invasive species; and

(B) to inhibit further infestations of the invasive species, the spread of the invasive species, or harm caused by the invasive species, including investigations regarding methods for early detection and rapid response, prevention, control, or management of the invasive species.

(6) Prevent

The term “prevent”, with respect to an invasive species, means—
