(c) Inclusion of amount of countervailable subsidy

If the administering authority decides, during the course of a countervailing duty proceeding that an upstream countervailable subsidy is being or has been paid or bestowed regarding the subject merchandise, the administering authority shall include in the amount of any countervailing duty imposed on the merchandise an amount equal to the amount of the competitive benefit referred to in subparagraph (1)(B),¹ except that in no event shall the amount be greater than the amount of the countervailable subsidy determined with respect to the upstream product.

(b) Constructed export price

The term “constructed export price” means the price at which the subject merchandise is first sold (or agreed to be sold) in the United States before or after the date of importation by or for the account of the producer or exporter of such merchandise or by a seller affiliated with the producer or exporter, to a purchaser not affiliated with the producer or exporter, as adjusted under subsections (c) and (d).

(c) Adjustments for export price and constructed export price

The price used to establish export price and constructed export price shall be—

(1) increased by—
