§ 2179. Prototype desalting plant

(a) Assistance in development

In furtherance of the purposes of subchapter I of this chapter and for the purpose of improving existing, and developing and advancing new, technology and experience in the design, construction, and operation of large-scale desalting plants of advanced concepts which will contribute materially to low-cost desalination in all countries, including the United States, the President, if he determines it to be feasible, is authorized to participate in the development of a large-scale water treatment and desalting prototype plant and necessary appurtenances to be constructed in Israel as an integral part of a dual-purpose power generating and desalting project. Such participation shall include financial, technical, and such other assistance as the President deems appropriate to provide for the study, design, construction, and, for a limited demonstration period of not to exceed five years, operation and maintenance of the water treatment and desalting facilities of the dual-purpose project.

(b) Terms and conditions

Any agreement entered into under subsection (a) of this section shall include such terms and

conditions as the President deems appropriate to insure, among other things, that all information, products, uses, processes, patents, and other developments obtained or utilized in the development of this prototype plant will be available without further cost to the United States for the use and benefit of the United States throughout the world, and to insure that the United States, its officers, and employees have a permanent right to review data and have access to such plant for the purpose of observing its operations and improving science and technology in the field of desalination.

(c) Contracts

In carrying out the provisions of this section, the President may enter into contracts with public or private agencies and with any person without regard to section 3324(a) and (b) of title 31 and section 6101 of title 41.

(d) Patents

Nothing in this section shall be construed as intending to deprive the owner of any background patent or any right which such owner may have under that patent.

(e) Federal agencies

In carrying out the provisions of this section, the President may utilize the personnel, services, and facilities of any Federal agency.

(f) Authorization of appropriations

The United States costs, other than its administrative costs, for the study, design, construction, and operation of a prototype plant under this section shall not exceed either 50 per centum of the total capital costs of the facilities associated with the production of water, and 50 per centum of the operation and maintenance costs for the demonstration period, or \$20,000,000, whichever is less. There are authorized to be appropriated, subject to the limitations of this subsection, such sums as may be necessary to carry out the provisions of this section, including administrative costs thereof. Such sums are authorized to remain available until expended.

(g) Restrictions on appropriations

No funds appropriated for the Office of Water Research and Technology pursuant to the appropriation authorized by the Act of July 11, 1969 (83 Stat. 45, Public Law 91-43), or prior authorization Acts, shall be used to carry out the purposes of this section.

(Pub. L. 87-195, pt. I, § 219, as added Pub. L. 91-175, pt. I, § 104, Dec. 30, 1969, 83 Stat. 806.)

SUBPART III—SHELTER AND OTHER CREDIT GUARANTY PROGRAMS

§ 2181. Policy

The Congress recognizes that shelter, including essential urban development services, is among the most fundamental of human needs. Shelter for most people in the developing countries consists largely of domestic materials assembled by local labor. While recognizing that most financing for such shelter must come from domestic resources, the Congress finds that carefully designed programs involving United States capital and expertise can increase the availability of domestic financing for improved shelter and related services for low-income people by demonstrating to local entrepreneurs and institutions that providing low-cost shelter can be financially viable. The Congress reaffirms, therefore, that the United States should continue to assist developing countries in marshaling resources for low-cost shelter. Particular attention should be given to programs which will support pilot projects for low-cost shelter or which will have a maximum demonstration impact on local institutions and national policy. The Congress declares that the long run goal of all such programs should be to develop domestic construction capabilities and to stimulate local credit institutions to make available domestic
