§ 2801. Congressional findings

The Congress finds that—

(a) international expositions, when properly organized, financed, and executed, have a significant impact on the economic growth of the region surrounding the exposition and, under

appropriate international sanction, are important instruments of national policy, particularly in the exchange of ideas and the demonstration of cultural achievements between peoples;

(b) in view of the widely varying circumstances under which international expositions have developed in the United States, the different degrees to which the Federal Government has assisted and participated in such expositions, and the increasing number of proposals for future expositions, the national interest requires that Federal action concerning such expositions be given orderly consideration; and

(c) such orderly consideration is best achieved by the development of uniform standards, criteria, and procedures to establish the conditions under which the Government hereafter will (A) recognize international expositions proposed to be held in the United States, and (B) take part in such expositions.

(Pub. L. 91-269, §1, May 27, 1970, 84 Stat. 271.)

§ 2802. Federal recognition

In making such a finding the President shall consider—

(1) a report by the Secretary of Commerce which shall include (A) an evaluation of purposes and reasons for the exposition, and (B) a determination that guaranteed financial and other support has been secured by the exposition from affected State and local governments and from business and civic leadership of the region and others in amounts sufficient in his judgment to assure the successful development and progress of the exposition;

(2) a report by the Secretary of State that the proposed exposition qualifies for consideration of registration by the Bureau of International Expositions (hereafter referred to as BIE); and

(3) such other evidence as the President may consider to be appropriate.

(b) Recognition and registration procedure; compliance with international convention; participation by States and foreign governments

Upon a finding by the President that an international exposition is eligible for Federal recognition, the President may take such measures recognizing the exposition as he deems proper, including, but not limited to—
