

amount of the income for the taxable year which is required to be distributed currently. This section shall not apply in any taxable year in which the trust distributes amounts other than amounts of income described in paragraph (1).

**(b) Limitation on deduction**

If the amount of income required to be distributed currently exceeds the distributable net income of the trust for the taxable year, the deduction shall be limited to the amount of the distributable net income. For this purpose, the computation of distributable net income shall not include items of income which are not included in the gross income of the trust and the deductions allocable thereto.

(Aug. 16, 1954, ch. 736, 68A Stat. 219.)

**§ 652. Inclusion of amounts in gross income of beneficiaries of trusts distributing current income only**

**(a) Inclusion**

Subject to subsection (b), the amount of income for the taxable year required to be distributed currently by a trust described in section 651 shall be included in the gross income of the beneficiaries to whom the income is required to be distributed, whether distributed or not. If such amount exceeds the distributable net income, there shall be included in the gross income of each beneficiary an amount which bears the same ratio to distributable net income as the amount of income required to be distributed to such beneficiary bears to the amount of income required to be distributed to all beneficiaries.

**(b) Character of amounts**

The amounts specified in subsection (a) shall have the same character in the hands of the beneficiary as in the hands of the trust. For this purpose, the amounts shall be treated as consisting of the same proportion of each class of items entering into the computation of distributable net income of the trust as the total of each class bears to the total distributable net income of the trust, unless the terms of the trust specifically allocate different classes of income to different beneficiaries. In the application of the preceding sentence, the items of deduction entering into the computation of distributable net income shall be allocated among the items of distributable net income in accordance with regulations prescribed by the Secretary.

**(c) Different taxable years**

If the taxable year of a beneficiary is different from that of the trust, the amount which the beneficiary is required to include in gross income in accordance with the provisions of this section shall be based upon the amount of income of the trust for any taxable year or years of the trust ending within or with his taxable year.

**§ 661. Deduction for estates and trusts accumulating income or distributing corpus**

**(a) Deduction**

In any taxable year there shall be allowed as a deduction in computing the taxable income of an estate or trust (other than a trust to which subpart B applies), the sum of—

(1) any amount of income for such taxable year required to be distributed currently (including any amount required to be distributed which may be paid out of income or corpus to the extent such amount is paid out of income for such taxable year); and

#### § 662. Inclusion of amounts in gross income of beneficiaries of estates and trusts accumulating income or distributing corpus

##### (a) Inclusion

Subject to subsection (b), there shall be included in the gross income of a beneficiary to whom an amount specified in section 661(a) is paid, credited, or required to be distributed (by an estate or trust described in section 661), the sum of the following amounts:

##### (1) Amounts required to be distributed currently

The amount of income for the taxable year required to be distributed currently to such beneficiary, whether distributed or not. If the amount of income required to be distributed currently to all beneficiaries exceeds the distributable net income (computed without the deduction allowed by section 642(c), relating to deduction for charitable, etc., purposes) of the estate or trust, then, in lieu of the amount provided in the preceding sentence, there shall be included in the gross income of the beneficiary an amount which bears the same ratio to distributable net income (as so computed) as the amount of income required to be distributed currently to such beneficiary bears to the amount required to be distributed currently to all beneficiaries. For purposes of this section, the phrase “the amount of income for the taxable year required to be distributed currently” includes any amount required to be paid out of income or corpus to the extent such amount is paid out of income for such taxable year.

##### (2) Other amounts distributed

All other amounts properly paid, credited, or required to be distributed to such beneficiary for the taxable year. If the sum of—

(A) the amount of income for the taxable year required to be distributed currently to all beneficiaries, and

(B) all other amounts properly paid, credited, or required to be distributed to all beneficiaries

exceeds the distributable net income of the estate or trust, then, in lieu of the amount provided in the preceding sentence, there shall be included in the gross income of the beneficiary an amount which bears the same ratio to distributable net income (reduced by the amounts specified in (A)) as the other amounts properly paid, credited or required to be distributed to the beneficiary bear to the other amounts properly paid, credited, or required to be distributed to all beneficiaries.

##### (b) Character of amounts

The amounts determined under subsection (a) shall have the same character in the hands of the beneficiary as in the hands of the estate or trust. For this purpose, the amounts shall be treated as consisting of the same proportion of each class of items entering into the computation of distributable net income as the total of each class bears to the total distributable net income of the estate or trust unless the terms of the governing instrument specifically allocate different classes of income to different beneficiaries. In the application of the preceding sentence, the items of deduction entering into the computation of distributable net income (including the deduction allowed under section 642(c)) shall be allocated among the items of distributable net income in accordance with regulations prescribed by the Secretary. In the application of this subsection to the amount determined under paragraph (1) of subsection (a), distributable net income shall be computed without regard to any portion of the deduction under section 642(c) which is not attributable to income of the taxable year.

##### (c) Different taxable years

If the taxable year of a beneficiary is different from that of the estate or trust, the amount to be included in the gross income of the beneficiary shall be based on the distributable net income of the estate or trust and the amounts properly paid, credited, or required to be distributed to the beneficiary during any taxable year or years of the estate or trust ending within or with his taxable year.
