§ 971. Definitions

(a) Export trade corporations

For purposes of this subpart, the term “export trade corporation” means—

(1) In general

A controlled foreign corporation (as defined in section 957) which satisfies the following conditions:

(A) 90 percent or more of the gross income of such corporation for the 3-year period immediately preceding the close of the taxable year (or such part of such period subsequent to the effective date of this subpart during which the corporation was in existence) was derived from sources without the United States, and

(B) 75 percent or more of the gross income of such corporation for such period constituted gross income in respect of which such corporation derived export trade income.

(2) Special rule

If 50 percent or more of the gross income of a controlled foreign corporation in the period specified in subsection (a)(1)(A) is gross income in respect of which such corporation derived export trade income in respect of agricultural products grown in the United States, it may qualify as an export trade corporation although it does not meet the requirements of subsection (a)(1)(B).

(3) Limitation

No controlled foreign corporation may qualify as an export trade corporation for any taxable year beginning after October 31, 1971, unless it qualified as an export trade corporation for any taxable year beginning before such date. If a corporation fails to qualify as an export trade corporation for a period of any 3

consecutive taxable years beginning after such date, it may not qualify as an export trade corporation for any taxable year beginning after such period.

(2) commissions, fees, compensation, or other income from commercial, industrial, financial, technical, scientific, managerial, engineering, architectural, skilled, or other services performed in connection with the use by an unrelated person outside the United States of patents, copyrights, secret processes and formulas, goodwill, trademarks, trade brands, franchises, and other like property acquired or developed and owned by the manufacturer, producer, grower, or extractor of export property in respect of which the export trade corporation earns export trade income under paragraph (1);

(3) commissions, fees, rentals, or other compensation or income attributable to the use of export property by an unrelated person or attributable to the use of export property in the rendition of technical, scientific, or engineering services to an unrelated person; and

For purposes of paragraph (3), if a controlled foreign corporation receives income from an unrelated person attributable to the use of export property in the rendition of services to such unrelated person together with income attributable to the rendition of other services to such unrelated person, including personal services, the amount of such aggregate income which shall be considered to be attributable to the use of the export property shall (if such amount cannot be established by reference to transactions between unrelated persons) be that part of such aggregate income which the cost of the export property consumed in the rendition of such services (including a reasonable allowance for depreciation) bears to the total costs and expenses attributable to such aggregate income.

- (4) any other ordinary and necessary expenses of the corporation to the extent reasonably allocable to the receipt or production of export trade income.
