SHORT TITLE

Pub. L. 111–11, title XII, § 12101, Mar. 30, 2009, 123 Stat. 1419, which provided that part II of subtitle A of title XII of Pub. L. 111–11, which enacted subchapter II of this chapter, could be cited as the “NOAA Undersea Research Program Act of 2009”, was repealed by Pub. L. 117–263, div. J, title CIII, § 10306(a), Dec. 23, 2022, 136 Stat. 3974.

§ 3402. Program established

The Administrator of the National Oceanic and Atmospheric Administration shall, in consultation with the National Science Foundation and other appropriate Federal agencies, establish a coordinated national ocean exploration program within the National Oceanic and Atmospheric Administration that promotes collaboration with other Federal ocean research and exploration programs. To the extent appropriate, the Administrator shall seek to facilitate

coordination of data and information management systems, outreach and education programs to improve public understanding of ocean and coastal resources, and development and transfer of technologies to facilitate ocean research and ocean exploration and characterization efforts.

(Pub. L. 111–11, title XII, § 12002, Mar. 30, 2009, 123 Stat. 1417; Pub. L. 117–263, div. J, title CIII, § 10305(b), Dec. 23, 2022, 136 Stat. 3971.)

Editorial Notes

AMENDMENTS

2022—Pub. L. 117–263 struck out “and undersea” after “Federal ocean” in first sentence and substituted “research and ocean exploration and characterization efforts” for “and undersea research and exploration” in second sentence.

§ 3403. Powers and duties of the Administrator**(a) In general**

In carrying out the program authorized by section 3402 of this title, the Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Ocean Policy Committee established under section 8932 of title 10, shall—

(1) conduct interdisciplinary expeditions or other scientific activities in conjunction with other Federal and State agencies, Tribal Governments, private industry, academia (including secondary schools, community colleges, and universities), and nongovernmental organizations, to map, explore, and characterize little known areas of the marine environment, inventory, observe, characterize, and assess living and nonliving marine resources, and report such findings;

(2) give priority attention to deep ocean regions of the exclusive economic zone, with a focus on deep water marine systems that hold potential for important scientific discoveries, such as hydrothermal vent communities and seamounts;

(3) conduct scientific expeditions to locate, define, and document historic shipwrecks, submerged sites, and other ocean exploration activities that combine archaeology and oceanographic sciences;

(4) develop and implement a transparent, competitive process for merit-based peer-review and approval of proposals for activities to be conducted under this program, taking into consideration advice of the Board established under section 3405 of this title;

(5) support technological innovation of the United States marine science community by promoting the development and use of new and emerging technologies for research, communication, navigation, and data collection, such as sensors and autonomous vehicles;

(6) establish an ocean exploration forum, in consultation with the National Ocean Mapping, Exploration, and Characterization Council established under section 5405¹ of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023, to encourage partnerships and promote communication
