

deployment of law enforcement resources and development of enforcement strategies. Firearms tracing is a particularly valuable tool in detecting and investigating firearms trafficking, and has been deployed to help combat the pernicious problem of firearms trafficking across the Southwest border.

The effectiveness of firearms tracing as a law enforcement intelligence tool depends on the quantity and quality of information and trace requests submitted to ATF. In fiscal year 2012, ATF processed approximately 345,000 crime-gun trace requests for thousands of domestic and international law enforcement agencies. The Federal Government can encourage State and local law enforcement agencies to take advantage of the benefits of tracing all recovered firearms, but Federal law enforcement agencies should have an obligation to do so. If Federal law enforcement agencies do not conscientiously trace every firearm taken into custody, they may not only be depriving themselves of critical information in specific cases, but may also be depriving all Federal, State, and local agencies of the value of complete information for aggregate analyses.

Maximizing the effectiveness of firearms tracing, and the corresponding impact on combating violent crimes involving firearms, requires that Federal law enforcement agencies trace all recovered firearms taken into Federal custody in a timely and efficient manner.

Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

SECTION 1. *Firearms Tracing.* (a) Federal law enforcement agencies shall ensure that all firearms recovered after the date of this memorandum in the course of criminal investigations and taken into Federal custody are traced through ATF at the earliest time practicable. Federal law enforcement agencies, as well as other executive departments and agencies, are encouraged, to the extent practicable, to take steps to ensure that firearms recovered prior to the date of this memorandum in the course of criminal investigations and taken into Federal custody are traced through ATF.

(b) Within 30 days of the date of this memorandum, ATF will issue guidance to Federal law enforcement agencies on submitting firearms trace requests.

(c) Within 60 days of the date of this memorandum, Federal law enforcement agencies shall ensure that their operational protocols reflect the requirement to trace recovered firearms through ATF.

(d) Within 90 days of the date of this memorandum, each Federal law enforcement agency shall submit a report to the Attorney General affirming that its operational protocols reflect the requirements set forth in this memorandum.

(e) For purposes of this memorandum, “Federal law enforcement agencies” means the Departments of State, the Treasury, Defense, Justice, the Interior, Agriculture, Energy, Veterans Affairs, and Homeland Security, and such other agencies and offices that regularly recover firearms in the course of their criminal investigations as the President may designate.

SEC. 2. *General Provisions.* (a) Nothing in this memorandum shall be construed to impair or otherwise affect the authority granted by law to a department or agency, or the head thereof.

(b) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

SEC. 3. *Publication.* The Attorney General is authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

PROMOTING SMART GUN TECHNOLOGY

Memorandum of President of the United States, Jan. 4, 2016, 81 F.R. 719, provided:

Memorandum for the Secretary of Defense[,] the Attorney General[, and] the Secretary of Homeland Security

For more than 20 years, the Federal Government has worked to keep guns out of the wrong hands through background checks. This critical effort in addressing gun violence has prevented more than two million prohibited firearms purchases from being completed. But tens of thousands of people are still injured or killed by firearms every year—in many cases by guns that were sold legally but then stolen, misused, or discharged accidentally. Developing and promoting technology that would help prevent these tragedies is an urgent priority.

In 2013, I directed the Department of Justice to review the availability and most effective use of new gun safety technologies, such as devices requiring a scan of the owner’s fingerprint before a gun can fire. In its report, the Department made clear that technological advancements in this area could help reduce accidental deaths and the use of stolen guns in criminal activities.

Millions of dollars have already been invested to support research into a broad range of concepts for improving gun safety. We must all do our part to continue to advance this research and encourage its practical application, and it is possible to do so in a way that makes the public safer and is consistent with the Second Amendment. The Federal Government has a unique opportunity to do so, as it is the single largest purchaser of firearms in the country. Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

SECTION 1. *Research and Development.* The Department of Defense, the Department of Justice, and the Department of Homeland Security (departments) shall, to the extent practicable and permitted by law, conduct or sponsor research into gun safety technology that would reduce the frequency of accidental discharge or unauthorized use of firearms, and improve the tracing of lost or stolen guns. Not later than 90 days after the date of this memorandum, the Secretary of Defense, the Attorney General, and the Secretary of Homeland Security shall prepare jointly a report outlining a research and development strategy designed to expedite the real-world deployment of such technology for use in practice.

SEC. 2. *Department Consideration of New Technology.* The departments shall, to the extent permitted by law, regularly (a) review the availability of the technology described in section 1, and (b) explore potential ways to further its use and development to more broadly improve gun safety. In connection with these efforts, the departments shall consult with other agencies that acquire firearms and take appropriate steps to consider whether including such technology in specifications for acquisition of firearms would be consistent with operational needs.

SEC. 3. *General Provisions.* (a) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to a department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

SEC. 4. *Publication.* The Attorney General is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

§ 40902. Findings

Congress finds the following:

(1) Approximately 916,000 individuals were prohibited from purchasing a firearm for failing a background check between November 30, 1998, (the date the National Instant Criminal Background Check System (NICS) began operating) and December 31, 2004.

(2) From November 30, 1998, through December 31, 2004, nearly 49,000,000 Brady background checks were processed through NICS.

(3) Although most Brady background checks are processed through NICS in seconds, many background checks are delayed if the Federal Bureau of Investigation (FBI) does not have automated access to complete information from the States concerning persons prohibited from possessing or receiving a firearm under Federal or State law.

(4) Nearly 21,000,000 criminal records are not accessible by NICS and millions of criminal records are missing critical data, such as arrest dispositions, due to data backlogs.

(5) The primary cause of delay in NICS background checks is the lack of—

(A) updates and available State criminal disposition records; and

(B) automated access to information concerning persons prohibited from possessing or receiving a firearm because of mental illness, restraining orders, or misdemeanor convictions for domestic violence.

(6) Automated access to this information can be improved by—

(A) computerizing information relating to criminal history, criminal dispositions, mental illness, restraining orders, and misdemeanor convictions for domestic violence; or

(B) making such information available to NICS in a usable format.

(7) Helping States to automate these records will reduce delays for law-abiding gun purchasers.

(8) On March 12, 2002, the senseless shooting, which took the lives of a priest and a parishioner at the Our Lady of Peace Church in Lynbrook, New York, brought attention to the need to improve information-sharing that would enable Federal and State law enforcement agencies to conduct a complete background check on a potential firearm purchaser. The man who committed this double murder had a prior disqualifying mental health commitment and a restraining order against him, but passed a Brady background check because NICS did not have the necessary information to determine that he was ineligible to purchase a firearm under Federal or State law.

(9) On April 16, 2007, a student with a history of mental illness at the Virginia Polytechnic Institute and State University shot to death 32 students and faculty members, wounded 17 more, and then took his own life. The shooting, the deadliest campus shooting in United States history, renewed the need to improve information-sharing that would enable Federal and State law enforcement agencies to conduct complete background checks on potential firearms purchasers. In spite of a proven history of mental illness, the shooter was

able to purchase the two firearms used in the shooting. Improved coordination between State and Federal authorities could have ensured that the shooter's disqualifying mental health information was available to NICS.

Editorial Notes

CODIFICATION

Section was formerly classified in a note under section 922 of Title 18, Crimes and Criminal Procedure, prior to editorial reclassification and renumbering as this section.

§ 40903. Definitions

As used in this chapter, the following definitions shall apply:

(1) Court order

The term “court order” includes a court order (as described in section 922(g)(8) of title 18).

(2) Mental health terms

The terms “adjudicated as a mental defective” and “committed to a mental institution” have the same meanings as in section 922(g)(4) of title 18.

(3) Misdemeanor crime of domestic violence

The term “misdemeanor crime of domestic violence” has the meaning given the term in section 921(a)(33) of title 18.

(Pub. L. 110-180, §3, Jan. 8, 2008, 121 Stat. 2560.)

SUBCHAPTER I—TRANSMITTAL OF RECORDS

§ 40911. Enhancement of requirement that Federal departments and agencies provide relevant information to the National Instant Criminal Background Check System

(a) Omitted

(b) Provision and maintenance of NICS records

(1) Department of Homeland Security

The Secretary of Homeland Security shall make available to the Attorney General—

(A) records, updated not less than quarterly, which are relevant to a determination of whether a person is disqualified from possessing or receiving a firearm under subsection (g) or (n) of section 922 of title 18 for use in background checks performed by the National Instant Criminal Background Check System; and

(B) information regarding all the persons described in subparagraph (A) of this paragraph who have changed their status to a category not identified under section 922(g)(5) of title 18 for removal, when applicable, from the National Instant Criminal Background Check System.
