APPROPRIATIONS

12681. Authorization of appropriations.
12682. Actions under national service laws to be subject to availability of appropriations.

§ 12501. Findings and purpose**(a) Findings**

The Congress finds the following:

(1) Throughout the United States, there are pressing unmet human, educational, environmental, and public safety needs.

(2) Americans desire to affirm common responsibilities and shared values, and join together in positive experiences, that transcend race, religion, gender, age, disability, region, income, and education.

(3) The rising costs of postsecondary education are putting higher education out of reach for an increasing number of citizens.

(4) Americans of all ages can improve their communities and become better citizens through service to the United States.

(5) Nonprofit organizations, local governments, States, and the Federal Government are already supporting a wide variety of national service programs that deliver needed services in a cost-effective manner.

(6) Residents of low-income communities, especially youth and young adults, can be empowered through their service, and can help provide future community leadership.

(b) Purpose

It is the purpose of this chapter to—

(1) meet the unmet human, educational, environmental, and public safety needs of the United States, without displacing existing workers;

(2) renew the ethic of civic responsibility and the spirit of community and service throughout the varied and diverse communities of the United States;

(3) expand educational opportunity by rewarding individuals who participate in national service with an increased ability to pursue higher education or job training;

(4) encourage citizens of the United States, regardless of age, income, geographic location, or disability, to engage in full-time or part-time national service;

(5) reinvent government to eliminate duplication, support locally established initiatives, require measurable goals for performance, and offer flexibility in meeting those goals;

(6) expand and strengthen existing national service programs with demonstrated experience in providing structured service opportunities with visible benefits to the participants and community;

(7) build on the existing organizational service infrastructure of Federal, State, and local programs, agencies, and communities to expand full-time and part-time service opportunities for all citizens;

(8) provide tangible benefits to the communities in which national service is performed;

(9) expand and strengthen service-learning programs through year-round opportunities, including opportunities during the summer

months, to improve the education of children and youth and to maximize the benefits of national and community service, in order to renew the ethic of civic responsibility and the spirit of community for children and youth throughout the United States;

(10) assist in coordinating and strengthening Federal and other service opportunities, including opportunities for participation in emergency and disaster preparedness, relief, and recovery;

(11) increase service opportunities for the Nation's retiring professionals, including such opportunities for those retiring from the science, technical, engineering, and mathematics professions, to improve the education of the Nation's youth and keep America competitive in the global knowledge economy, and to further utilize the experience, knowledge, and skills of older individuals;

(12) encourage the continued service of the alumni of the national service programs, including service in times of national need;

(13) encourage individuals age 55 or older to partake of service opportunities;

(14) focus national service on the areas of national need such service has the capacity to address, such as improving education, increasing energy conservation, improving the health status of economically disadvantaged individuals, and improving economic opportunity for economically disadvantaged individuals;

(15) recognize and increase the impact of social entrepreneurs and other nonprofit community organizations in addressing national and local challenges;

(16) increase public and private investment in nonprofit community organizations that are effectively addressing national and local challenges and encourage such organizations to replicate and expand successful initiatives;

(17) leverage Federal investments to increase State, local, business, and philanthropic resources to address national and local challenges;

(18) support institutions of higher education that engage students in community service activities and provide high-quality service-learning opportunities; and

(19) recognize the expertise veterans can offer to national service programs, expand the participation of the veterans in the national service programs, and assist the families of veterans and members of the Armed Forces on active duty.

EXPANDING NATIONAL SERVICE THROUGH PARTNERSHIPS
TO ADVANCE GOVERNMENT PRIORITIES

Memorandum of President of the United States, July 15, 2013, 78 F.R. 43747, provided:

Memorandum for the Heads of Executive Departments and Agencies

Service has always been integral to the American identity. Our country was built on the belief that all of us, working together, can make this country a better place for all. That spirit remains as strong and integral to our identity today as at our country's founding.

Since its creation 20 years ago, the Corporation for National and Community Service (CNCS) has been the Federal agency charged with leading and expanding national service. The Edward M. Kennedy Serve America Act of 2009 (SAA) expanded CNCS's authority to create opportunities for more Americans to serve. This landmark, bipartisan legislation focuses national service on six areas: emergency and disaster services; economic opportunity; education; environmental stewardship; healthy futures; and veterans and military families. The SAA provides greater opportunities for CNCS to partner with other executive departments and agencies (agencies) and with the private sector to utilize national service to address these critical areas.

National service and volunteering can be effective solutions to national challenges and can have positive and lasting impacts that reach beyond the immediate service experience. Americans engaged in national service make an intensive commitment to tackle unmet national and local needs by working through non-profit, faith-based, and community organizations. Service can help Americans gain valuable skills, pursue higher education, and jumpstart their careers, which can provide immediate and long-term benefits to those individuals, as well as the communities in which they serve.

Americans are ready and willing to serve. Applications from Americans seeking to engage in national service programs far exceed the number of available positions. By creating new partnerships between agencies and CNCS that expand national service opportunities in areas aligned with agency missions, we can utilize the American spirit of service to improve lives and communities, expand economic and educational opportunities, enhance agencies' capacity to achieve their missions, efficiently use tax dollars, help individuals develop skills that will enable them to prepare for long-term careers, and build a pipeline to employment inside and outside the Federal Government.

Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to expand the positive impact of national service, I hereby direct the following:

SECTION 1. *Establishing a Task Force on Expanding National Service.* There is established a Task Force on Expanding National Service, to be co-chaired by the Chief Executive Officer of CNCS and the Director of the Domestic Policy Council, which shall include representatives from agencies and offices that administer programs and develop policies in areas that include the six focus areas set forth in the SAA. (d) The Chief Executive Officer of CNCS is hereby authorized and directed to publish this memorandum in the Federal Register.
