

non-profit organizations (or consortia of such institutions or organizations) to—

- (1) support research to significantly advance our understanding of the food-energy-water system through quantitative and computational modeling, including support for relevant cyberinfrastructure;
- (2) develop real-time, cyber-enabled interfaces that improve understanding of the behavior of food-energy-water systems and increase decision support capability;
- (3) support research that will lead to innovative solutions to critical food-energy-water system problems; and
- (4) grow the scientific workforce capable of studying and managing the food-energy-water system, through education and other professional development.

(Pub. L. 117–167, div. B, title III, §10348, Aug. 9, 2022, 136 Stat. 1560.)

§ 19058. Biological field stations and marine laboratories

The Director shall continue to support enhancing, repairing and maintaining research instrumentation, laboratories, telecommunications and housing at biological field stations and marine laboratories.

(Pub. L. 117–167, div. B, title III, §10349, Aug. 9, 2022, 136 Stat. 1560.)

§ 19059. Sustainable chemistry research and education

In accordance with section 9303 of title 15, the Director shall carry out activities in support of sustainable chemistry, including—

- (1) establishing a program to make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support—
 - (A) individual investigators and teams of investigators, including to the extent practicable, early career investigators for research and development;
 - (B) collaborative research and development partnerships among universities, industry, and non-profit organizations;
 - (C) integrating sustainable chemistry principles into elementary, secondary, undergraduate, and graduate chemistry and chemical engineering curriculum and research training, as appropriate to that level of education and training; and
- (2) incorporating sustainable chemistry into existing Foundation research and development programs.

(Pub. L. 117–167, div. B, title III, §10350, Aug. 9, 2022, 136 Stat. 1560.)

§ 19060. Risk and resilience research

The Director shall make awards on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to advance knowledge of risk assessment and predictability and to support the creation of tools and technologies, including advancing data analytics and

utilization of artificial intelligence, for increased resilience through—

- (1) improvements in our ability to understand, model, and predict extreme events and natural hazards;
- (2) the creation of novel engineered systems solutions for resilient complex infrastructures, particularly those that address critical interdependence among infrastructures and leverage the growing infusion of cyber-physical-social components into the infrastructures;
- (3) development of equipment and instrumentation for innovation in resilient engineered infrastructures;
- (4) multidisciplinary research on the behaviors individuals and communities engage in to detect, perceive, understand, predict, assess, mitigate, and prevent risks and to improve and increase resilience; and
- (5) advancements in multidisciplinary wildfire science, including those related to air quality impacts, human behavior, and early detection and warning.

(Pub. L. 117–167, div. B, title III, §10351, Aug. 9, 2022, 136 Stat. 1561.)

§ 19061. Unmanned aircraft systems technologies

In coordination with the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration, the Director shall carry out a program of research and related activities related to unmanned aircraft system technologies, which may include a prize competition pursuant to section 3719 of title 15 and support for undergraduate and graduate curriculum development.

(Pub. L. 117–167, div. B, title III, §10352, Aug. 9, 2022, 136 Stat. 1561.)

§ 19062. Accelerating unmanned maritime systems technologies

(a) In general

In order to support advances in marine science, maritime domain awareness, and national security the Director, in consultation with the Under Secretary of Commerce for Oceans and Atmosphere and the Commandant of the Coast Guard, shall issue awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support research that will accelerate innovation to advance unmanned maritime systems for the purpose of providing greater maritime domain awareness to the Nation.

(b) Coordination

In implementing this section, the Director shall coordinate with the Coast Guard, the Department of Defense, the National Oceanic and Atmospheric Administration, and other Federal agencies, including those established under the Commercial Engagement Through Ocean Technology Act of 2018 (Public Law 115–394) [33 U.S.C. 4101 et seq.].

(Pub. L. 117–167, div. B, title III, §10353, Aug. 9, 2022, 136 Stat. 1561.)
