§ 300d-3. Grants to improve trauma care in rural areas

(a) In general

The Secretary shall award grants to eligible entities for the purpose of carrying out research and demonstration projects to support the improvement of emergency medical services and trauma care in rural areas through the development of innovative uses of technology, training and education, transportation of seriously injured patients for the purposes of receiving such emergency medical services, access to prehospital care, evaluation of protocols for the purposes of improvement of outcomes and dissemination of any related best practices, activities to facilitate clinical research, as applicable and appropriate, and increasing communication and coordination with applicable State or Tribal trauma systems.

(b) Eligible entities

(1) In general

To be eligible to receive a grant under this section, an entity shall be a public or private entity that provides trauma care in a rural area.

(2) Priority

In awarding grants under this section, the Secretary shall give priority to eligible entities that will provide services under the grant in any rural area identified by a State under section 300d-14(d)(1) of this title.

(c) Requirement of application

The Secretary may not make a grant under subsection (a) unless an application for the grant is submitted to the Secretary and the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

(d) Reports

An entity that receives a grant under this section shall submit to the Secretary such reports as the Secretary may require to inform administration of the program under this section.

§ 300d-5. Competitive grants for trauma systems for the improvement of trauma care**(a) In general**

The Secretary, acting through the Assistant Secretary for Preparedness and Response, may make grants to States, political subdivisions, or consortia of States or political subdivisions for the purpose of improving access to and enhancing the development of trauma care systems.

(b) Use of funds

The Secretary may make a grant under this section only if the applicant agrees to use the grant—

- (1) to integrate and broaden the reach of a trauma care system, such as by developing innovative protocols to increase access to prehospital care;
 - (2) to strengthen, develop, and improve an existing trauma care system;
 - (3) to expand communications between the trauma care system and emergency medical services through improved equipment or a telemedicine system;
 - (4) to improve data collection and retention;
- or

(5) to increase education, training, and technical assistance opportunities, such as training and continuing education in the management of emergency medical services accessible to emergency medical personnel in rural areas through telehealth, home studies, and other methods.

(c) Preference

In selecting among States, political subdivisions, and consortia of States or political subdivisions for purposes of making grants under this section, the Secretary shall give preference to applicants that—

- (1) have developed a process, using national standards, for designating trauma centers;
- (2) recognize protocols for the delivery of seriously injured patients to trauma centers;
- (3) implement a process for evaluating the performance of the trauma system; and
- (4) agree to participate in information systems described in section 300d-3 of this title by collecting, providing, and sharing information.

(d) Priority

In making grants under this section, the Secretary shall give priority to applicants that will use the grants to focus on improving access to trauma care systems.

(e) Special consideration

In awarding grants under this section, the Secretary shall give special consideration to projects that demonstrate strong State or local support, including availability of non-Federal contributions.
