EFFECTIVE DATE OF 2009 AMENDMENT; REVIVAL OF SECTION

For provisions that repeal by section 2(a)(1) of Pub. L. 111-87 of section 703 of Pub. L. 109-415 be effective Sept. 30, 2009, and that the provisions of this section as in effect on Sept. 30, 2009, be revived, see section 2(a)(2), (3)(A) of Pub. L. 111-87, set out as a note under section 300ff-11 of this title.

EFFECTIVE DATE

Section effective Oct. 1, 1996, see section 13 of Pub. L. 104-146, set out as an Effective Date of 1996 Amendment note under section 300ff-11 of this title.

PERINATAL TRANSMISSION OF HIV DISEASE; CONGRESSIONAL FINDINGS

Pub. L. 104-146, §7(a), May 20, 1996, 110 Stat. 1368, provided that: “The Congress finds as follows:

“(1) Research studies and statewide clinical experiences have demonstrated that administration of anti-retroviral medication during pregnancy can significantly reduce the transmission of the human immunodeficiency virus (commonly known as HIV) from an infected mother to her baby.

“(2) The Centers for Disease Control and Prevention have recommended that all pregnant women receive HIV counseling; voluntary, confidential HIV testing; and appropriate medical treatment (including anti-retroviral therapy) and support services.

“(3) The provision of such testing without access to such counseling, treatment, and services will not improve the health of the woman or the child.

“(4) The provision of such counseling, testing, treatment, and services can reduce the number of pediatric cases of acquired immune deficiency syndrome, can improve access to and provision of medical care for the woman, and can provide opportunities for counseling to reduce transmission among adults, and from mother to child.

“(5) The provision of such counseling, testing, treatment, and services can reduce the overall cost of pediatric cases of acquired immune deficiency syndrome.

“(6) The cancellation or limitation of health insurance or other health coverage on the basis of HIV status should be impermissible under applicable law. Such cancellation or limitation could result in disincentives for appropriate counseling, testing, treatment, and services.

“(7) For the reasons specified in paragraphs (1) through (6)—

“(A) routine HIV counseling and voluntary testing of pregnant women should become the standard of care; and

“(B) the relevant medical organizations as well as public health officials should issue guidelines making such counseling and testing the standard of care.”

§ 300ff-34. Perinatal transmission of HIV/AIDS; contingent requirement regarding State grants under this part

(a) Annual determination of reported cases

A State shall annually determine the rate of reported cases of AIDS as a result of perinatal transmission among residents of the State.

(b) Causes of perinatal transmission

In determining the rate under subsection (a), a State shall also determine the possible causes of

perinatal transmission. Such causes may include—

(1) the inadequate provision within the State of prenatal counseling and testing in accordance with the guidelines issued by the Centers for Disease Control and Prevention;

(2) the inadequate provision or utilization within the State of appropriate therapy or failure of such therapy to reduce perinatal transmission of HIV, including—

(A) that therapy is not available, accessible or offered to mothers; or

(B) that available therapy is offered but not accepted by mothers; or

(3) other factors (which may include the lack of prenatal care) determined relevant by the State.

(c) CDC reporting system

Not later than 4 months after May 20, 1996, the Director of the Centers for Disease Control and Prevention shall develop and implement a system to be used by States to comply with the requirements of subsections (a) and (b). The Director shall issue guidelines to ensure that the data collected is statistically valid.

§ 300ff-37a. Recommendations for reducing incidence of perinatal transmission

(a) Study by Institute of Medicine

(1) In general

The Secretary shall request the Institute of Medicine to enter into an agreement with the Secretary under which such Institute conducts a study to provide the following:

(A) For the most recent fiscal year for which the information is available, a determination of the number of newborn infants with HIV born in the United States with respect to whom the attending obstetrician for

the birth did not know the HIV status of the mother.

(B) A determination for each State of any barriers, including legal barriers, that prevent or discourage an obstetrician from making it a routine practice to offer pregnant women an HIV test and a routine practice to test newborn infants for HIV/AIDS in circumstances in which the obstetrician does not know the HIV status of the mother of the infant.

(C) Recommendations for each State for reducing the incidence of cases of the perinatal transmission of HIV, including recommendations on removing the barriers identified under subparagraph (B).

If such Institute declines to conduct the study, the Secretary shall enter into an agreement with another appropriate public or nonprofit private entity to conduct the study.

(2) Report

The Secretary shall ensure that, not later than 18 months after the effective date of this section, the study required in paragraph (1) is completed and a report describing the findings made in the study is submitted to the appropriate committees of the Congress, the Secretary, and the chief public health official of each of the States.

(b) Progress toward recommendations

In fiscal year 2004, the Secretary shall collect information from the States describing the actions taken by the States toward meeting the recommendations specified for the States under subsection (a)(1)(C).

(c) Submission of reports to Congress

The Secretary shall submit to the appropriate committees of the Congress reports describing the information collected under subsection (b).
