In any case in which an issuer decides to discontinue offering a particular type of health insurance coverage offered in the individual market, coverage of such type may be discontinued by the issuer only if—

(B) the issuer offers to each individual in the individual market provided coverage of this type, the option to purchase any other individual health insurance coverage currently being offered by the issuer for individuals in such market; and

(d) Exception for uniform modification of coverage

At the time of coverage renewal, a health insurance issuer may modify the health insurance coverage for a policy form offered to individuals in the individual market so long as such modification is consistent with State law and effective on a uniform basis among all individuals with that policy form.

(e) Application to coverage offered only through associations

In applying this section in the case of health insurance coverage that is made available by a health insurance issuer in the individual market to individuals only through one or more associations, a reference to an “individual” is deemed to include a reference to such an association (of which the individual is a member).

§ 300gg-44. State flexibility in individual market reforms

(a) Waiver of requirements where implementation of acceptable alternative mechanism

(1) In general

The requirements of section 300gg-41 of this title shall not apply with respect to health insurance coverage offered in the individual market in the State so long as a State is found to be implementing, in accordance with this section and consistent with section 300gg-62(b) of this title, an alternative mechanism (in this section referred to as an “acceptable alternative mechanism”)—

(A) under which all eligible individuals are provided a choice of health insurance coverage;

(B) under which such coverage does not impose any preexisting condition exclusion with respect to such coverage;

(C) under which such choice of coverage includes at least one policy form of coverage that is comparable to comprehensive health insurance coverage offered in the individual market in such State or that is comparable to a standard option of coverage available under the group or individual health insurance laws of such State; and

(D) in a State which is implementing—

(i) a model act described in subsection (c)(1),

(ii) a qualified high risk pool described in subsection (c)(2), or

(iii) a mechanism described in subsection (c)(3).

(2) Permissible forms of mechanisms

A private or public individual health insurance mechanism (such as a health insurance coverage pool or programs, mandatory group conversion policies, guaranteed issue of one or more plans of individual health insurance coverage, or open enrollment by one or more health insurance issuers), or combination of such mechanisms, that is designed to provide access to health benefits for individuals in the individual market in the State in accordance with this section may constitute an acceptable alternative mechanism.

(b) Application of acceptable alternative mechanisms

(1) Presumption

(A) In general

Subject to the succeeding provisions of this subsection, a State is presumed to be implementing an acceptable alternative mechanism in accordance with this section as of July 1, 1997, if, by not later than April 1, 1997, the chief executive officer of a State—

(i) notifies the Secretary that the State has enacted or intends to enact (by not later than January 1, 1998, or July 1, 1998, in the case of a State described in subparagraph (B)(ii)) any necessary legislation to provide for the implementation of a mechanism reasonably designed to be an acceptable alternative mechanism as of January

1, 1998,¹ (or, in the case of a State described in subparagraph (B)(ii), July 1, 1998); and

(ii) provides the Secretary with such information as the Secretary may require to review the mechanism and its implementation (or proposed implementation) under this subsection.

(B) Delay permitted for certain States

(i) Effect of delay

In the case of a State described in clause (ii) that provides notice under subparagraph (A)(i), for the presumption to continue on and after July 1, 1998, the chief executive officer of the State by April 1, 1998—

(I) must notify the Secretary that the State has enacted any necessary legislation to provide for the implementation of a mechanism reasonably designed to be an acceptable alternative mechanism as of July 1, 1998; and

(II) must provide the Secretary with such information as the Secretary may require to review the mechanism and its implementation (or proposed implementation) under this subsection.

(ii) States described

A State described in this clause is a State that has a legislature that does not meet within the 12-month period beginning on August 21, 1996.

(C) Continued application

In order for a mechanism to continue to be presumed to be an acceptable alternative mechanism, the State shall provide the Secretary every 3 years with information described in subparagraph (A)(ii) or (B)(i)(II) (as the case may be).

(2) Notice

If the Secretary finds, after review of information provided under paragraph (1) and in consultation with the chief executive officer of the State and the insurance commissioner or chief insurance regulatory official of the State, that such a mechanism is not an acceptable alternative mechanism or is not (or no longer) being implemented, the Secretary—

(A) shall notify the State of—

(i) such preliminary determination, and

(ii) the consequences under paragraph (3) of a failure to implement such a mechanism; and

(B) shall permit the State a reasonable opportunity in which to modify the mechanism (or to adopt another mechanism) in a manner so that may be an acceptable alternative mechanism or to provide for implementation of such a mechanism.

(3) Final determination

If, after providing notice and opportunity under paragraph (2), the Secretary finds that the mechanism is not an acceptable alternative mechanism or the State is not implementing such a mechanism, the Secretary shall notify the State that the State is no
