

ties of voluntary health agencies, professional medical societies, and other private nonprofit health organizations, (B) focus on objectives that are measurable, and (C) emphasize the prevention or moderation of illness or accidents that appear controllable through individual knowledge and behavior;

(2) provide consultation and technical assistance to organizations that request help in planning, operating, or evaluating programs in such matters;

(3) develop health information and health promotion materials and teaching programs including (A) model curriculums for the training of educational and health professionals and paraprofessionals in health education by medical, dental, and nursing schools, schools of public health, and other institutions engaged in training of educational or health professionals, (B) model curriculums to be used in elementary and secondary schools and institutions of higher learning, (C) materials and programs for the continuing education of health professionals and paraprofessionals in the health education of their patients, (D) materials for public service use by the printed and broadcast media, and (E) materials and programs to assist providers of health care in providing health education to their patients; and

(4) support demonstration and evaluation programs for individual and group self-help programs designed to assist the participant in using his individual capacities to deal with health problems, including programs concerned with obesity, hypertension, and diabetes.

(b) Grants to States and other public and nonprofit private entities; costs of demonstrating and evaluating programs; development of models

The Secretary is authorized to make grants to States and other public and nonprofit private entities to assist them in meeting the costs of demonstrating and evaluating programs which provide information respecting the costs and quality of health care or information respecting health insurance policies and prepaid health plans, or information respecting both. After the development of models pursuant to section 300u-3(4) and 300u-3(5) of this title for such information, no grant may be made under this subsection for a program unless the information to be provided under the program is provided in accordance with one of such models applicable to the information.

(c) Private nonprofit entities; limitation on amount of grant or contract

The Secretary is authorized to support by grant or contract (and to encourage others to support) private nonprofit entities working in health information and health promotion, preventive health services, and education in the appropriate use of health care. The amount of any grant or contract for a fiscal year beginning after September 30, 1978, for an entity may not exceed 25 per centum of the expenses of the entity for such fiscal year for health information and health promotion, preventive health services, and education in the appropriate use of health care.

(July 1, 1944, ch. 373, title XVII, §1703, as added Pub. L. 94-317, title I, §102, June 23, 1976, 90 Stat. 697.)

§ 300u-3. Grants and contracts for information programs; authority of Secretary; particular activities

The Secretary is authorized to conduct and support by grant or contract (and encourage others to support) such activities as may be required to make information respecting health information and health promotion, preventive health services, and education in the appropriate use of health care available to the consumers of medical care, providers of such care, schools, and others who are or should be informed respecting such matters. Such activities may include at least the following:

(1) The publication of information, pamphlets, and other reports which are specially suited to interest and instruct the health consumer, which information, pamphlets, and other reports shall be updated annually, shall pertain to the individual's ability to improve and safeguard his own health; shall include material, accompanied by suitable illustrations, on child care, family life and human development, disease prevention (particularly prevention of pulmonary disease, cardiovascular disease, and cancer), physical fitness, dental health, environmental health, nutrition, safety and accident prevention, drug abuse and alcoholism, mental health, management of chronic diseases (including diabetes and arthritis), and venereal diseases; and shall be designed to reach populations of different languages and of different social and economic backgrounds.

(2) Securing the cooperation of the communications media, providers of health care, schools, and others in activities designed to promote and encourage the use of health maintaining information and behavior.

(3) The study of health information and promotion in advertising and the making to concerned Federal agencies and others such recommendations respecting such advertising as are appropriate.

(4) The development of models and standards for the publication by States, insurance carriers, prepaid health plans, and others (except individual health practitioners) of information for use by the public respecting the cost and quality of health care, including information to enable the public to make comparisons of the cost and quality of health care.

(5) The development of models and standards for the publication by States, insurance carriers, prepaid health plans, and others of information for use by the public respecting health insurance policies and prepaid health plans, including information on the benefits provided by the various types of such policies and plans, the premium charges for such policies and plans, exclusions from coverage or eligibility for coverage, cost sharing requirements, and the ratio of the amounts paid as benefits to the amounts received as premiums and information to enable the public to make relevant comparisons of the costs and benefits of such policies and plans.

(July 1, 1944, ch. 373, title XVII, §1704, as added Pub. L. 94-317, title I, §102, June 23, 1976, 90 Stat. 698; amended Pub. L. 98-551, §2(b), Oct. 30, 1984, 98 Stat. 2816.)

Editorial Notes

AMENDMENTS

1984—Par. (6). Pub. L. 98-551 struck out par. (6) which provided grant authority to the Secretary to assess, with respect to the effectiveness, safety, cost, and required training for and conditions of use, of new aspects of health care, and new activities, programs, and services designed to improve human health and publish in readily understandable language for public and professional use such assessments and, in the case of controversial aspects of health care, activities, programs, or services, publish differing views or opinions respecting the effectiveness, safety, cost, and required training for and conditions of use, of such aspects of health care, activities, programs, or services.

§ 300u-4. Status reports to President and Congress; study of health education and preventive health services with respect to insurance coverage

(a) The Secretary shall, not later than two years after June 23, 1976, and biannually thereafter, submit to the President for transmittal to Congress a report on the status of health information and health promotion, preventive health services, and education in the appropriate use of health care. Each such report shall include—

(1) a statement of the activities carried out under this subchapter since the last report and the extent to which each such activity achieves the purposes of this subchapter;

(2) an assessment of the manpower resources needed to carry out programs relating to health information and health promotion, preventive health services, and education in the appropriate use of health care, and a statement describing the activities currently being carried out under this subchapter designed to prepare teachers and other manpower for such programs;

(3) the goals and strategy formulated pursuant to section 300u(a)(1) of this title, the models and standards developed under this subchapter, and the results of the study required by subsection (b) of this section; and

(4) such recommendations as the Secretary considers appropriate for legislation respecting health information and health promotion, preventive health services, and education in the appropriate use of health care, including recommendations for revisions to and extension of this subchapter.

(b) The Secretary shall conduct a study of health education services and preventive health services to determine the coverage of such services under public and private health insurance programs, including the extent and nature of such coverage and the cost sharing requirements required by such programs for coverage of such services.

(July 1, 1944, ch. 373, title XVII, §1705, as added Pub. L. 94-317, title I, §102, June 23, 1976, 90 Stat. 699; amended Pub. L. 104-66, title I, §1062(d), Dec. 21, 1995, 109 Stat. 720.)

Editorial Notes

AMENDMENTS

1995—Subsec. (a). Pub. L. 104-66 substituted “biannually” for “annually” in introductory provisions.

Statutory Notes and Related Subsidiaries

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103-7 (in which item 4 on page 96 identifies a reporting provision which, as subsequently amended, is contained in subsec. (a) of this section), see section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

§ 300u-5. Centers for research and demonstration of health promotion and disease prevention

(a) Establishment; grants; contracts; research and demonstration projects

The Secretary shall make grants or enter into contracts with academic health centers for the establishment, maintenance, and operation of centers for research and demonstration with respect to health promotion and disease prevention. Centers established, maintained, or operated under this section shall undertake research and demonstration projects in health promotion, disease prevention, and improved methods of appraising health hazards and risk factors, and shall serve as demonstration sites for the use of new and innovative research in public health techniques to prevent chronic diseases.

(b) Location; types of research and projects

Each center established, maintained, or operated under this section shall—

(1) be located in an academic health center with—

(A) a multidisciplinary faculty with expertise in public health and which has working relationships with relevant groups in such fields as medicine, psychology, nursing, social work, education and business;

(B) graduate training programs relevant to disease prevention;

(C) a core faculty in epidemiology, biostatistics, social sciences, behavioral and environmental health sciences, and health administration;

(D) a demonstrated curriculum in disease prevention;

(E) a capability for residency training in public health or preventive medicine; and

(F) such other qualifications as the Secretary may prescribe;

(2) conduct—

(A) health promotion and disease prevention research, including retrospective studies and longitudinal prospective studies in population groups and communities;

(B) demonstration projects for the delivery of services relating to health promotion and disease prevention to defined population groups using, as appropriate, community outreach and organization techniques and other methods of educating and motivating communities; and

(C) evaluation studies on the efficacy of demonstration projects conducted under subparagraph (B) of this paragraph.
