**§ 5170. Procedure for declaration**

**(a) In general**

All requests for a declaration by the President that a major disaster exists shall be made by the Governor of the affected State. Such a request shall be based on a finding that the disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments and that Federal assistance is necessary. As part of such request, and as a prerequisite to major disaster assistance under this chapter, the Governor shall take appropriate response action under State law and direct execution of the State’s emergency plan. The Governor shall furnish information on the nature and amount of State and local resources which have been or will be committed to alleviating the results of the disaster, and shall certify that, for the current disaster, State and local government obligations and expenditures (of which State commitments must be a significant proportion) will comply with all applicable cost-sharing requirements of this chapter. ## (3) Savings provision

Nothing in this subsection shall prohibit an Indian tribal government from receiving assistance under this subchapter through a declaration made by the President at the request of a State under subsection (a) if the President does not make a declaration under this subsection for the same incident.

(B) the President determines that the waiver or adjustment is necessary and appropriate.

### (2) Criteria for making determinations

The President shall establish criteria for making determinations under paragraph (1)(B).
