§ 7925. Active operations; liability for remedial action

(a) No amount may be expended under this subchapter with respect to any site licensed by the Commission under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] or by a State as permitted under section 274 of such Act [42 U.S.C. 2021] at which production of any uranium product from ores (other than from residual radioactive materials) takes place. This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal.

(b) In the case of each processing site designated under this subchapter, the Attorney General shall conduct a study to determine the identity and legal responsibility which any person (other than the United States, a State, or

Indian tribe) who owned or operated or controlled (as determined by the Attorney General) such site before November 8, 1978, may have under any law or rule of law for reclamation or other remedial action with respect to such site. The Attorney General shall publish the results of such study, and provide copies thereof to the Congress, as promptly as practicable following November 8, 1978. The Attorney General, based on such study, shall, to the extent he deems it appropriate and in the public interest, take such action under any provision of law in effect when uranium was produced at such site to require payment by such person of all or any part of the costs incurred by the United States for such remedial action for which he determines such person is liable.

AMENDMENTS

1996—Subsec. (a). Pub. L. 104-259 inserted at end “This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal.”

SUBCHAPTER II—STUDY AND DESIGNATION OF TWO MILL TAILING SITES IN NEW MEXICO

§ 7941. Study of authority for regulation and control of residual radioactive materials at New Mexico sites for protection of public health, safety, and the environment; report to Congress and Secretary; basis for determination of inadequacy of authority; interim regulation pending completion of study

The Commission, in consultation with the Attorney General and the Attorney General of the State of New Mexico, shall conduct a study to determine the extent and adequacy of the authority of the Commission and the State of New Mexico to require, under the Atomic Energy Act of 1954 (as amended by title II of this Act) [42 U.S.C. 2011 et seq.] or under State authority as permitted under section 274 of such Act [42 U.S.C. 2021] or under other provision of law, the owners of the following active uranium mill sites to undertake appropriate action to regulate and control all residual radioactive materials at such sites to protect public health, safety, and the environment: the former Homestake-
