CHAPTER 91—TANK VESSEL MANNING STANDARDS

- Sec. 9101. Standards for foreign tank vessels. 9102. Standards for tank vessels of the United States.

HISTORICAL AND REVISION NOTES

Chapter 91 prescribes manning standards for certain foreign and United States tank vessels carrying oil or hazardous materials.

§ 9101. Standards for foreign tank vessels

(a)(1) The Secretary shall evaluate the manning, training, qualification, and watchkeeping standards of a foreign country that issues documentation for any vessel to which chapter 37 of this title applies—

- (A) on a periodic basis; and (B) when the vessel is involved in a marine casualty required to be reported under section 6101(a)(4) or (5) of this title.

(2) After each evaluation made under paragraph (1) of this subsection, the Secretary shall determine whether—

- (A) the foreign country has standards for licensing and certification of seamen that are at least equivalent to United States law or international standards accepted by the United States; and (B) those standards are being enforced.

(3) If the Secretary determines under this subsection that a country has failed to maintain or enforce standards at least equivalent to United States law or international standards accepted by the United States, the Secretary shall prohibit vessels issued documentation by that country from entering the United States until the Secretary determines those standards have been established and are being enforced.

(4) The Secretary may allow provisional entry of a vessel prohibited from entering the United States under paragraph (3) of this subsection if—

- (A) the owner or operator of the vessel establishes, to the satisfaction of the Secretary,

that the vessel is not unsafe or a threat to the marine environment; or

- (B) the entry is necessary for the safety of the vessel or individuals on the vessel.

(b) A foreign vessel to which chapter 37 of this title applies that has on board oil or hazardous material in bulk as cargo or cargo residue shall have a specified number of personnel certified as tankerman or equivalent, as required by the Secretary, when the vessel transfers oil or hazardous material in a port or place subject to the jurisdiction of the United States. The requirement of this subsection shall be noted in applicable terminal operating procedures. A transfer operation may take place only if the crewmember in charge is capable of clearly understanding instructions in English.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 556; Pub. L. 101-380, title IV, §4106(a), Aug. 18, 1990, 104 Stat. 513.)

Section 9101 requires monitoring of manning standards for foreign tank vessels operating on the navigable waters of the United States and transferring oil or hazardous material in the United States.

Subsection (a) requires the Secretary of Transportation to evaluate the manning, training, qualification, and watchkeeping standards of foreign countries whose tank vessels operate on United States waters, or use transfer facilities, and to decide if the standards are equivalent or more stringent than United States standards.

Subsection (b) authorizes the Secretary to specify the number of tankermen required on a foreign tank vessel and to have certified tankermen who can understand English when transferring oil or hazardous material in the United States. This requirement is to be made part of the terminal operating procedures.

EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101-380 applicable to incidents occurring after Aug. 18, 1990, see section 1020 of Pub. L. 101-380, set out as an Effective Date note under section 2701 of Title 33, Navigation and Navigable Waters.

§ 9102. Standards for tank vessels of the United States

The Secretary shall prescribe standards for the manning of each vessel of the United States to which chapter 37 of this title applies, related to the duties, qualifications, and training of the officers and crew of the vessel, including standards related to—

- (1) instruction in vessel and cargo handling and vessel navigation under normal operating conditions in coastal and confined waters and on the high seas;
(2) instruction in vessel and cargo handling and vessel navigation in emergency situations and under marine casualty or potential casualty conditions;
(3) qualifications for licenses by specific type and size of vessels;
(4) qualifications for licenses by use of simulators for the practice or demonstration of marine-oriented skills;
(5) minimum health and physical fitness criteria for various grades of licenses and certificates;
(6) periodic retraining and special training for upgrading positions, changing vessel type or size, or assuming new responsibilities;
(7) decisions about licenses and certificates, conditions of licensing or certification, and periods of licensing or certification by reference to experience, amount of training completed, and regular performance testing; and
(8) instruction in vessel maintenance functions.
