SUBCHAPTER II—GOVERNANCE OF PUBLIC  
SAFETY SPECTRUM

**§ 1421. Single public safety wireless network licensee**

**(a) Reallocation and grant of license**

Notwithstanding any other provision of law, and subject to the provisions of this chapter, the Commission shall reallocate and grant a license to the First Responder Network Authority for the use of the 700 MHz D block spectrum and existing public safety broadband spectrum.

**(b) Term of license**

**(1) Initial license**

The license granted under subsection (a) shall be for an initial term of 10 years from the date of the initial issuance of the license.

**(2) Renewal of license**

Prior to expiration of the term of the initial license granted under subsection (a) or the expiration of any subsequent renewal of such license, the First Responder Network Authority

shall submit to the Commission an application for the renewal of such license. Such renewal application shall demonstrate that, during the preceding license term, the First Responder Network Authority has met the duties and obligations set forth under this chapter. A renewal license granted under this paragraph shall be for a term of not to exceed 10 years.

**(c) Facilitation of transition**

The Commission shall take all actions necessary to facilitate the transition of the existing public safety broadband spectrum to the First Responder Network Authority.

**§ 1422. Public safety broadband network**

**(a) Establishment**

The First Responder Network Authority shall ensure the establishment of a nationwide, interoperable public safety broadband network.

**(b) Network components**

The nationwide public safety broadband network shall be based on a single, national network architecture that evolves with technological advancements and initially consists of—

(1) a core network that—

(A) consists of national and regional data centers, and other elements and functions that may be distributed geographically, all of which shall be based on commercial standards; and

(B) provides the connectivity between—

(i) the radio access network; and

(ii) the public Internet or the public switched network, or both; and

(2) a radio access network that—

(A) consists of all cell site equipment, antennas, and backhaul equipment, based on commercial standards, that are required to enable wireless communications with devices using the public safety broadband spectrum; and

(B) shall be developed, constructed, managed, maintained, and operated taking into account the plans developed in the State, local, and tribal planning and implementation grant program under section 1442(a) of this title.
