

Marshall Islands. The plan shall set forth, as appropriate to the situation, condition, and needs of the individual atoll peoples:

“(1) an integrated, comprehensive health care program including primary, secondary, and tertiary care with special emphasis upon the biological effects of ionizing radiation;

“(2) a schedule for the periodic comprehensive survey and analysis of the radiological status of the atolls to and at appropriate intervals, but not less frequently than once every five years, the development of an updated radiation dose assessment, together with an estimate of the risks associated with the predicted human exposure, for each such atoll; and

“(3) an education and information program to enable the people of such atolls to more fully understand nuclear radiation and its effects;

“(b)(1) The Secretary shall submit the plan to the Congress no later than January 1, 1981, together with his recommendations, if any, for further legislation. The plan shall set forth the specific agencies responsible for implementing the various elements of the plan. With respect to general health care the Secretary shall consider, and shall include in his recommendations, the feasibility of using the Public Health Service. After consultation with the Chairman of the National Academy of Sciences, the Secretary of Energy, the Secretary of Defense, and the Secretary of Health and Human Services, the Secretary shall establish a scientific advisory committee to review and evaluate the implementation of the plan and to make such recommendations for its improvement as such committee deems advisable.

“(2) At the request of the Secretary, any Federal agency shall provide such information, personnel, facilities, logistical support, or other assistance as the Secretary deems necessary to carry out the functions of this program; the costs of all such assistance shall be reimbursed to the provider thereof out of the sums appropriated pursuant to this section.

“(3) All costs associated with the development and implementation of the plan shall be assumed by the Secretary of Energy and effective October 1, 1980, there are authorized to be appropriated to the Secretary of Energy such sums as may be necessary to achieve the purposes of this section.

“(c) The Secretary shall report to the appropriate committees of the Congress, and to the people of the affected atolls annually, or more frequently if necessary, on the implementation of the plan. Each such report shall include a description of the health status of the individuals examined and treated under the plan, an evaluation by the scientific advisory committee, and any recommendations for improvement of the plan. The first such report shall be submitted not later than January 1, 1982.”

Pub. L. 98-213, § 8, Dec. 8, 1983, 97 Stat. 1460, provided that: “The Secretary of the Interior is directed to implement the health care program required by section 106 of Public Law 95-134 (91 Stat. 1159) [set out above] for the populations of the four atolls in the Marshall Islands identified in such section immediately upon enactment of this section and shall promptly notify the Committee on Interior and Insular Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate if he finds that the populations of other atolls should be included in the program setting forth the basis for his finding and the estimated cost of extension of the program. The Secretary of Energy shall transmit annually to the Committees on Interior and Insular Affairs [now Committee on Natural Resources] and Appropriations of the House of Representatives and the Committees on Energy and Natural Resources and Appropriations of the Senate together with the proposed budget for the next fiscal year, a description of the program and the estimated costs for implementation to-

gether with any recommendations which he may have for improvements in such program.”

§ 1904. Interpretation of and United States policy regarding Compact of Free Association

(a) Human rights

In approving the Compact, the Congress notes the conclusion in the Statement of Intent of the Report of The Future Political Status Commission of the Congress of Micronesia in July, 1969, that “our recommendation of a free associated state is indissolubly linked to our desire for such a democratic, representative, constitutional government” and notes that such desire and intention are reaffirmed and embodied in the Constitutions of the Federated States of Micronesia and the Marshall Islands. The Congress also notes and specifically endorses the preamble to the Compact, which affirms that the governments of the parties to the Compact are founded upon respect for human rights and fundamental freedoms for all. The Secretary of State shall include in the annual reports on the status of internationally recognized human rights in foreign countries, which are submitted to the Congress pursuant to sections 116 and 502B of the Foreign Assistance Act of 1961 [22 U.S.C. 2151n, 2304], a full and complete report regarding the status of internationally recognized human rights in the Federated States of Micronesia and the Marshall Islands.

(b) Immigration

The rights of a bona fide naturalized citizen of the Marshall Islands or the Federated States of Micronesia to enter the United States, to lawfully engage therein in occupations, and to establish residence therein as a non-immigrant, pursuant to the provisions of section 141(a)(3) of the Compact, shall not extend to any such naturalized citizen with respect to whom circumstances associated with the acquisition of the status of a naturalized citizen are such as to allow a reasonable inference, on the part of appropriate officials of the United States and subject to United States procedural requirements, that such naturalized status was acquired primarily in order to obtain such rights.

(c) Nonalienation of lands

The Congress endorses and encourages the maintenance of the policies of the Government of the Federated States of Micronesia and the Government of the Marshall Islands to regulate, in accordance with their Constitutions and laws, the alienation of permanent and long-term interests in real property so as to restrict the acquisition of such interests to persons of Federated States of Micronesia citizenship and Marshall Islands citizenship, respectively.

(d) Nuclear waste disposal

In approving the Compact, the Congress understands that the Government of the Federated States of Micronesia and the Government of the Marshall Islands will not permit any other government or any nongovernmental party to conduct, in the Marshall Islands or in the Federated States of Micronesia, any of the activities specified in subsection (a) of section 314 of the Com-

(e) Impact of Compact on U.S. areas**(1) Statement of congressional intent**

In approving the Compact, it is not the intent of the Congress to cause any adverse consequences for the United States territories and commonwealths or the State of Hawaii.

(2) Annual reports and recommendations

One year after January 14, 1986, and at one year intervals thereafter, the Governor of any of the United States territories or commonwealths or the State of Hawaii may report to the Secretary of the Interior by February 1 of each year with respect to the impacts of the compacts of free association on the Governor's respective jurisdiction. The Secretary of the Interior shall review and forward any such reports to the Congress with the comments of the Administration. The Secretary of the Interior shall, either directly or, subject to available technical assistance funds, through a grant to the affected jurisdiction, provide for a census of Micronesians at intervals no greater than 5 years from each decennial United States census using generally acceptable statistical methodologies for each of the impact jurisdictions where the Governor requests such assistance, except that the total expenditures to carry out this sentence may not exceed \$300,000 in any year. Reports submitted pursuant to this paragraph (hereafter in this subsection referred to as "reports") shall identify any adverse consequences resulting from the Compact and shall make recommendations for corrective action to eliminate those consequences. The reports shall pay particular attention to matters relating to trade, taxation, immigration, labor laws, minimum wages, social systems and infrastructure, and environmental regulation. With regard to immigration, the reports shall include statistics concerning the number of persons availing themselves of the rights described in section 141(a) of the Compact during the year covered by each report. With regard to trade, the reports shall include an analysis of the impact on the economy of American Samoa resulting from imports of canned tuna into the United States from the Federated States of Micronesia and the Marshall Islands.

(3) Other views

In preparing the reports, the President shall request the views of the Government of the State of Hawaii, and the governments of each of the United States territories and commonwealths, the Federated States of Micronesia, the Marshall Islands, and Palau, and shall transmit the full text of any such views to the Congress as part of such reports.

(4) Commitment of Congress to redress adverse consequences

The Congress hereby declares that, if any adverse consequences to United States territories and commonwealths or the State of Hawaii result from implementation of the Compact of Free Association, the Congress will act sympathetically and expeditiously to redress those adverse consequences.

(5) "United States territories and commonwealths" defined

As used in this subsection, the term "United States territories and commonwealths" means the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(6) Impact costs

There are hereby authorized to be appropriated for fiscal years beginning after September 30, 1985, such sums as may be necessary to cover the costs, if any, incurred by the State of Hawaii, the territories of Guam and American Samoa, and the Commonwealth of the Northern Mariana Islands resulting from any increased demands placed on educational and social services by immigrants from the Marshall Islands and the Federated States of Micronesia.

(f) Fisheries management

In clarification of Title One, Article II, section 121(b)(1) of the Compact:

(1) Nothing in the Compact or this joint resolution shall be interpreted as recognition by the United States of any claim by the Federated States of Micronesia or by the Marshall Islands to jurisdiction or authority over highly migratory species of fish during the time such species of fish are found outside the territorial sea of the Federated States of Micronesia or the Marshall Islands.

(2) It is the understanding of Congress that none of the monies made available pursuant to the Compact or this joint resolution will be used by either the Federated States of Micronesia or the Marshall Islands for enforcement actions against any vessel of the United States on the basis of fishing by any such vessel for highly migratory species of fish outside the territorial sea of the Federated States of Micronesia or the Marshall Islands, respectively, in the absence of a licensing agreement.

(3) Appropriate United States officials shall apply the policies and provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) and the Fishermen's Protective Act of 1967 (22 U.S.C. 1971 et seq.) with regard to any action taken by the Federated States of Micronesia or the Marshall Islands affecting any vessel of the United States engaged in fishing for highly migratory species of fish in waters outside the territorial seas of the Federated States of Micronesia or the Marshall Islands, respectively. For the purpose of applying the provisions of section 5 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1975), monies made available to either the Federated States of Micronesia or the Marshall Islands pursuant to the provisions of the Compact or this joint resolution shall be treated as "assistance to the government of such country under the Foreign Assistance Act of 1961" [22 U.S.C. 2151 et seq.]. For purposes of this Act only, certification by the President in accordance with such section 5 shall be accompanied by a report to Congress on the basis for such certification, and such certification shall have no effect if by law

Congress so directs prior to the expiration of 60 days during which Congress is in continuous session following the date of such certification.

(4) For the purpose of paragraphs (1) and (3) of this subsection—

(A) The term “vessel of the United States” has the same meaning as provided in the first section of the Fishermen’s Protective Act of 1967 (22 U.S.C. 1971).

(B) The terms “fishing” and “highly migratory species” have the same meanings as provided in paragraphs (10) and (14),¹ respectively, of section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(10) and (14)).

(5)(A) It is the policy of the United States of America—

(i) to negotiate and conclude with the governments of the Central, Western, and South Pacific Ocean, including the Federated States of Micronesia and the Marshall Islands, a regional licensing agreement setting forth agreed terms of access for United States tuna vessels fishing in the region; and

(ii) that such an agreement should overcome existing jurisdictional differences and provide for a mutually beneficial relationship between the United States and the Pacific Island States that will promote the development of the tuna and other latent fisheries resources of the Central, Western, and South Pacific Ocean and the economic development of the region.

(B) At such time as an agreement referred to in subparagraph (A) is submitted to the Senate for advice and consent to ratification, the Secretary of State, after consultation with the Secretary of Commerce and other interested agencies and concerned governments, shall submit to the Congress a proposed long term regional fisheries development program which may include, but not be limited to—

- (i) exploration for, and stock assessment of, tuna and other fish;
- (ii) improvement of harvesting techniques;
- (iii) gear development;
- (iv) biological resource monitoring;
- (v) education and training in the field of fisheries; and
- (vi) regional and direct bilateral assistance in the field of fisheries.

(g) Foreign loans

The Congress hereby reaffirms the United States position that the United States Government is not responsible for foreign loans or debt obtained by the Governments of the Federated States of Micronesia and the Marshall Islands.
