§ 98e–2. Multiyear procurement authority for domestically processed critical minerals

(a) Authority for multiyear procurement

Subject to section 3501 of title 10 and from amounts made available by discretionary appropriations Acts from the National Defense Stockpile Transaction Fund (as established under section 9(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(a))) after December 22, 2023, the Secretary of Defense may enter into one or more multiyear contracts for the procurement of critical minerals that are processed in the United States by domestic sources.

(b) Application of Strategic and Critical Materials Stock Piling Act

A multiyear contract entered into under this section shall be deemed to be an acquisition under the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 et seq.).

(c) Authority for advance procurement

The Secretary of Defense may enter into one or more contracts, beginning in fiscal year 2024, for advance procurement associated with the domestically processed critical minerals for which authorization to enter into a multiyear procurement contract is provided under subsection (a).

(d) Condition for out-year contract payments

A contract entered into under subsection (a) shall provide that any obligation of the United States to make a payment under the contract for a fiscal year after fiscal year 2024 is subject to the availability of appropriations or funds for that purpose for such later fiscal year.

(e) Definitions

In this section:

(1) The term “critical mineral” means a mineral determined to be a strategic and critical material under section 3(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b(a)).

(2) The term “processed” means the processing or recycling of a critical mineral or magnet, including the separation, reduction, metallization, alloying, milling, pressing, strip casting, and sintering of a critical mineral.

(3) The term “domestic source” has the meaning given that term in section 4552 of this title.

§ 98g. Materials development and research

(a) Development, mining, preparation, treatment, and utilization of ores and other mineral substances

(1) The President shall make scientific, technologic, and economic investigations concerning the development, mining, preparation, treatment, and utilization of ores and other mineral substances that (A) are found in the United States, its territories or possessions, or in a reliable source¹ (B) are essential to the national defense, industrial, and essential civilian needs of the United States, and (C) are found in known domestic sources in inadequate quantities or grades.

(2) Such investigations shall be carried out in order to develop new sources of strategic and critical materials, develop substitutes, or conserve domestic sources and reliable sources of supply for such strategic and critical materials.

(3) Investigations under paragraph (1) may be carried out on public lands and, with the consent of the owner, on privately owned lands for the purpose of exploring and determining the extent and quality of deposits of such minerals, the most suitable methods of mining and beneficiating such minerals, and the cost at which the minerals or metals may be produced.

(b) Development of sources of supplies of agricultural materials; use of agricultural commodities for manufacture of materials

The President shall make scientific, technologic, and economic investigations of the feasibility of developing domestic sources of supplies of any agricultural material or for using agricultural commodities for the manufacture of any material determined pursuant to section 98b(a) of this title to be a strategic and critical material or substitutes therefor.

(c) Development of sources of supply of other materials; development or use of alternative methods for refining or processing materials in stockpile

The President shall make scientific, technologic, and economic investigations concerning the feasibility of—

(1) developing domestic sources of supply of materials (other than materials referred to in subsections (a) and (b)) determined pursuant to section 98b(a) of this title to be strategic and critical materials; and

(2) developing or using alternative methods for the refining or processing of a material in the stockpile so as to convert such material into a form more suitable for use during an emergency or for storage.

(d) Grants and contracts to encourage conservation of strategic and critical materials

The President shall encourage the conservation of domestic sources of any material determined pursuant to section 98b(a) of this title to be a strategic and critical material by making grants or awarding contracts for research regarding the development of—

(1) substitutes for such material; or

(2) more efficient methods of production or use of such material.
