Editorial Notes

AMENDMENTS

1985—Pub. L. 99-198 amended section generally, temporarily substituting provisions relating to the establishment and determination of a marketing quota apportionment factor for each crop of wheat for which a national marketing quota is proclaimed under section 1332 of this title for provisions relating to the proclamation and determination of a national acreage allot-

ment for each crop of wheat. See Effective and Termination Dates of 1985 Amendment note below.

1965—Pub. L. 89-321 substituted projected national yield for expected yield in the determination of the basis to be used in arriving at the national acreage allotment, inserted limiting parenthetical reference to acreage other than that harvested because of program incentives, and struck out references to expected production on the increases in acreage allotments for farms based upon small-farm base acreages pursuant to section 1335 of this title and to the expected production on the increased acreages resulting from the small-farm exemption pursuant to section 1335 of this title.

1962—Pub. L. 87-703 substituted provision for proclamation of a national acreage allotment at the time of proclamation of the national marketing quota in an amount that would be the number of acres which on the basis of expected yields would, together with the expected production on increases in acreage allotments for small farms and on increased acreages resulting from the small-farm exemption, make available a supply equal to the national marketing quota for provision for determination of the national acreage allotment as such acreage as on the basis of the national average yield would produce an amount, which, with estimated carryover and imports, would make available a supply equal to a normal year's domestic consumption and exports plus 30 per centum and prescribing a national acreage allotment for wheat for 1938 at sixty-two million five hundred thousand acres and for any year at not less than fifty-five million acres.

1948—Act July 3, 1948, required the Secretary to take imports into consideration in determining acreage allotments for the purposes of marketing quotas.

1939—Act July 26, 1939, amended last sentence.

1938—Act June 20, 1938, inserted last sentence.

The reserve acreage set aside herein for apportionment by the Secretary shall be used (1) to make allotments to counties in addition to the county allotments made under subsection (b) of this section, on the basis of the relative needs of counties for additional allotments because of reclamation and other new areas coming into production of wheat, or (2) to increase the allotment for any county, in which wheat is the principal grain crop produced, on the basis of its relative need for such increase if the average ratio of wheat acreage allotment to cropland on old wheat farms in such county is less by at least 20 per centum than such average ratio on old wheat farms in an adjoining county or counties in which wheat is the principal grain crop produced or if there is a definable contiguous area consisting of at least 10 per centum of the cropland acreage in such county in which the average ratio of wheat acreage allotment to cropland on old wheat farms is less by at least 20 per centum than such average ratio on the remaining old wheat farms in such county, provided that such low ratio of wheat acreage allot-
