§ 1343. Referendum

Not later than December 15 following the issuance of the marketing quota proclamation provided for in section 1342 of this title, the Secretary shall conduct a referendum, by secret ballot, of farmers engaged in the production of cotton in the calendar year in which the referendum is held, to determine whether such farmers are in favor of or opposed to the quota so proclaimed. If more than one-third of the farmers voting in the referendum oppose the national marketing quota, such quota shall become ineffective upon proclamation of the results of the referendum. The Secretary shall proclaim the results of any referendum held hereunder within thirty days after the date of such referendum. Notwithstanding any other provision hereof, the referendum with respect to the national marketing quota for cotton for the marketing year beginning August 1, 1986, may be conducted not later than thirty-one days after adjournment sine die of the first session of the Ninety-ninth Congress.

(Feb. 16, 1938, ch. 30, title III, §343, 52 Stat. 56; Apr. 7, 1938, ch. 107, §8, 52 Stat. 203; July 26, 1939, ch. 376, 53 Stat. 1125; July 3, 1948, ch. 827, title II, §207(c), 62 Stat. 1257; Aug. 29, 1949, ch. 518, §1, 63 Stat. 670; Oct. 31, 1949, ch. 792, title IV, §415(e), 63 Stat. 1058; Pub. § 1344. Apportionment of national acreage allotments

(a) Basis

Whenever a national marketing quota is proclaimed under section 1342 of this title, the Secretary shall determine and proclaim a national acreage allotment for the crop of cotton to be produced in the next calendar year. The national acreage allotment for cotton shall be that acreage, based upon the national average yield per acre of cotton for the four years immediately preceding the calendar year in which the national marketing quota is proclaimed, required to make available from such crop an amount of cotton equal to the national marketing quota.

(b) Apportionment among States for year 1953 and subsequent years; adjustment; national acreage reserve

The national acreage allotment for cotton for 1953 and subsequent years shall be apportioned to the States on the basis of the acreage planted to cotton (including the acreage regarded as having been planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) during the five calendar years immediately preceding the calendar year in which the national marketing quota is proclaimed, with adjustments for abnormal weather conditions during such period: *Provided*, That there is established a national acreage reserve consisting of three hundred and ten thousand acres which shall be in addition to the national acreage allotment; and such reserve shall be apportioned to the States on the basis of their needs for additional acreage for establishing minimum farm allotments under subsection (f)(1), as determined by the Secretary without regard to State and county acreage reserves (except that the amount apportioned to Nevada shall be one thousand acres). For the 1960 and succeeding crops of cotton, the needs of States (other than Nevada) for such additional acreage for such purpose may be estimated by the Secretary, after taking into consideration such needs as determined or estimated for the preceding crop of cotton and the size of the national acreage allotment for such crop. The additional acreage so apportioned to the State shall be apportioned to the counties on the basis of the needs of the counties for such additional acreage for such purpose, and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreage). Additional acreage apportioned to a State for any year under the foregoing proviso shall not be taken into account in establishing future State acreage allotments. Needs for additional acreage under the foregoing provisions and under the last proviso in subsection (e) shall be determined or estimated as though allotments were first computed without regard to subsection (f)(1).

(c) Apportionment among States for years 1950 and 1951; computation and adjustment

The national acreage allotments for cotton for the years 1950 and 1951 shall be apportioned to the States on the basis of a national acreage allotment base of twenty-two million five hundred thousand acres, computed and adjusted as follows:

(1) The average of the planted acreages (including acreage regarded as planted under the provisions of Public Law 12, Seventy-ninth Congress) in the States for the years 1945, 1946, 1947, and 1948 shall constitute the national base; except that in the case of any State having a 1948 planted cotton acreage of over one million acres and less than 50 per centum of the 1943 allotment, the average of the acreage planted (or regarded as planted under Public Law 12, Seventy-ninth Congress) for the years 1944, 1945, 1946, 1947, and 1948 shall constitute the base for such State and shall be included in computing the national base; to this is to be added (A) the estimated additional acreage for each State required for small-farm allotments under subsection (f)(1) of this section; (B) the acreage required as a result of the State adjustment provisions of paragraph (2) of this subsection; (C) the additional acreage required to determine a total national allotment base of twenty-two million five hundred thousand acres, which additional acreage shall be distributed on a proportionate basis among States receiving no adjustment under paragraph (2) of this subsection.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, the acreage allotment base for 1950 and 1951 for any State (on the basis of a national acreage allotment base of twenty-two million five hundred thousand acres) shall not be less than the larger of (1) 95 per centum of the average acreage actually planted to cotton in the State during the years 1947 and 1948, or (2) 85 per centum of the acreage planted to cotton in the State in 1948.

(3) If the national acreage allotment for 1950 or 1951 is more or less than twenty-two million five hundred thousand acres, horizontal adjustments shall be made percentagewise by States so as to reflect the ratio of the national acreage allotment for 1950 and 1951 to twenty-two million five hundred thousand acres.

(d) Apportionment for year 1952; adjustment

The national acreage allotment for cotton for 1952 shall be apportioned to States on the basis of the acreage planted to cotton (including the acreage regarded as having been planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) during the years 1946, 1947, 1948, and 1950, with adjustments for abnormal weather conditions during such period.

(e) Apportionment among counties; reservation of acreage; additional acreage for establishing minimum farm allotments

The State acreage allotment for cotton shall be apportioned to counties on the same basis as to years and conditions as is applicable to the State under subsections (b), (c), and (d) of this section: *Provided*, That the State committee may reserve not to exceed 10 per centum of its
